Volume 04*** Zedong Mao, 1961 ***Mao Tse-Tung's Theory of Dialectic*** F.Y.K. Soo, 2012-12-06 The year 1979 ushered in a new phase in China s long and continuous revolution Currently this new phase is being symbolically referred to by the Chinese leaders themselves as the New Long March a continuation of the legendary and historical Long March in terms of modernization which comprises the Four Modernizations Agriculture Industry Science and Technology and Military Defense Such an all encompassing attempt at modernization may appear to some at least to be something new or may indicate a radical shift in her policy But upon closer examination this decision seems only to reflect an historical continuity in terms of the two major long term goals of the Chinese Revolution national independence and modernization or industrialization The former would make China strong the latter wealthy For ever since the Opium War in 1840 and throughout the Revolutions of 1911 and 1949 China has always pursued these two revolutionary goals though with different emphases at different times This has been especially true during the past three decades as this twofold goal has dictated all of China s important policies both domestic and foreign In other words while the concrete policies may have appeared to be lacking in unity at times they have been formulated with the specific intent of achieving national independence and modernization From this perspective the New Long March marks the passage of post

Joint Publications Research Service,1966 **Shanghai Mundane** Lei Ping,2025-09-18 This book offers a new critical intervention into the studies of the paradox of Chinese socialism Centering on the unremovable Shanghai bourgeoisie and middle class the book brilliantly discovers Chinese society s persistent aspiration to bourgeois lifestyle and remarkable resistance to socialist ideology from the Mao era to the Xi era Shanghai Mundane offers a new critical intervention into the studies of the paradox of Chinese socialism Through the lens of contested state society relations the book challenges conventional China Studies by repositioning Shanghai as the key to decode the protracted ideological warfare between socialism and capitalism Based on significant archival ethnographic and theoretical evidence unearthed from the distinct cases of Shanghai bourgeoisie and middle class Lei Ping discovers the city s persistent aspiration to bourgeois lifestyle and remarkable resistance to socialist ideology throughout the entire history of the People s Republic of China Ping argues that despite the socialist remolding of capitalist industry and commerce the post 1949 Chinese state failed to eradicate bourgeois heritage in the domain of everyday life in the Mao era which ironically contributed to its controversial policy reversals in the post Mao era from Deng to Xi What lies at the heart of the major intellectual conundrum namely the survival and revival of bourgeois sentiments is what Ping calls the unremovable Shanghai mundane This captivating and provocative account sheds new light on understanding the larger questions as to the crisis ridden practices of Chinese socialism and the raison d tre of the Chinese Communist Party in the twenty first century **Post-Western Sociology - From China to Europe** Laurence Roulleau-Berger,Li Peilin,2018-05-15 This book is rooted in an epistemological approach to sociology in which the boundaries between Western and non Western sociologies are

acknowledged and built on It argues that knowledge is organised in conceptual spaces linked to paradigms and programmes which in turn are linked to ethnocentred knowledge processes that until recently Western approaches including Post Colonial French Social Science and American approaches have dominated non Western theories and that Western theories have sometimes seemed incapable of explaining phenomena produced in other societies It goes on to argue that the blurring of boundaries between Western and non Western sociologies is very important and that such a Post Western approach will mean co production and co construction of common knowledge the recognition of ignored or forgotten scientific cultures and a global change in sociology which imposes theoretical and methodological detours displacements reversals and conversions The book brings together a wide range of Western and Chinese sociologists who explore the consequences of this new approach in relation to many different issues and aspects of sociology **A Continuous Revolution** Barbara

Mittler,2020-03-17 Cultural Revolution Culture often denigrated as nothing but propaganda was liked not only in its heyday but continues to be enjoyed today A Continuous Revolution sets out to explain its legacy By considering Cultural Revolution propaganda art music stage works prints and posters comics and literature from the point of view of its *longue dur e* Barbara Mittler suggests it was able to build on a tradition of earlier art works and this allowed for its sedimentation in cultural memory and its proliferation in contemporary China Taking the aesthetic experience of the Cultural Revolution 1966 1976 as her base Mittler juxtaposes close readings and analyses of cultural products from the period with impressions given in a series of personal interviews conducted in the early 2000s with Chinese from diverse class and generational backgrounds By including much testimony from these original voices Mittler illustrates the extremely multifaceted and contradictory nature of the Cultural Revolution both in terms of artistic production and of its cultural experience
