Power and Identity in the Chinese World Order Billy K.L. So, John Fitzgerald, Jianli Huang, James K. Chin, 2003-03-01

Wang Gungwu is one of the most influential historians of his generation. Initially renowned for his pioneering work on the structure of power in early imperial China, he is more widely known for expanding the horizons of Chinese history to include the histories of the Chinese and their descendants outside China. It is probably no coincidence that Philip Kuhn observes that the most comprehensive historian of the Overseas Chinese is the historian most firmly grounded in the history of China itself. This book is a celebration of the life work and impact of Professor Wang Gungwu over the past four decades. It commemorates his contribution to the study of Chinese history and the abiding influence he has exercised over later generations of historians, particularly in the Asia Pacific region. The book begins with an historiographical survey by Philip Kuhn, Francis Lee Higginson, Professor of History at Harvard University, of Wang Gungwu's enduring contribution to scholarship. It concludes with an engaging oral history of Professor Wang's life career and research trajectory. The intervening chapters explore many of the fields in which Wang Gungwu's influence has been felt over the years, including questions of political authority, national identity, commercial life, and the history of the diaspora from imperial times to the present day. Each of these chapters is authored by a former student of Professor Wang, now working and teaching in Hong Kong, Southeast Asia, Australasia, Taiwan, and Canada.

The Soviet Union and Communist China 1945-1950: The Arduous Road to the Alliance Dieter

Heinzig, 2015-06-18 Drawing on a wealth of new sources, this work documents the evolving relationship between Moscow and Peking in the twentieth century. Using newly available Russian and Chinese archival documents, memoirs written in the 1980s and 1990s, and interviews with high-ranking Soviet and Chinese eyewitnesses, the book provides the basis for a new interpretation of this relationship and a glimpse of previously unknown events that shaped the Sino-Soviet alliance. An appendix contains translated Chinese and Soviet documents, many of which are being published for the first time. The book focuses mainly on Communist China's relationship with Moscow after the conclusion of the treaty between the Soviet Union and Kuomintang China in 1945 up until the signing of the treaty between Moscow and the Chinese Communist Party in 1950. It also looks at China's relationship with Moscow from 1920 to 1945 as well as developments from 1950 to the present. The author reevaluates existing sources and literature on the topic and demonstrates that the alliance was reached despite disagreements and distrust on both sides and was not an inevitable conclusion. He also shows that the relationship between the two Communist parties was based on national interest, politics, and not on similar ideological convictions.

Marxism in Asia Colin Mackerras, Nick Knight, 2015-04-17

Marxism is a theory which originated in the context of nineteenth-century industrialised Europe. Despite its European origins, Marxism has actually found greatest significance as a doctrine for change in the context of the underdeveloped peasant societies of Asia. This paradox has only been resolved through adaptation of Marxism to suit the specific features of particular Asian societies. There has consequently been a differentiation of Marxism along national lines. In this book, first published in 1985, the theoretical and practical implications for this national

differentiation of a universal European theory are explored followed by a more detailed analysis of the manner in which Marxism has developed during different historical periods in particular Asian contexts *Communist China Digest*, 1967

Politics in China William A. Joseph, 2014-03-14 On October 1 2009 the People's Republic of China PRC celebrated the 60th anniversary of its founding And what an eventful and tumultuous six decades it had been During that time under the leadership of the Chinese Communist Party CCP China was transformed from one of the world's poorest countries into the world's fastest growing major economy and from a weak state barely able to govern or protect its own territory to a rising power that is challenging the United States for global influence Over those same years the PRC also experienced the most deadly famine in human history caused largely by the actions and inactions of its political leaders Not long after there was a collapse of government authority that pushed the country to the brink of and in some places actually into civil war and anarchy Today China is for the most part peaceful prospering and proud This is the China that was on display for the world to see during the Beijing Olympics in 2008 The CCP maintains a firm grip on power through a combination of popular support largely based on its recent record of promoting rapid economic growth and harsh repression of political opposition Yet the party and country face serious challenges on many fronts including a slowing economy environmental desecration pervasive corruption extreme inequalities and a rising tide of social protest Politics in China is an authoritative introduction to how the world's most populous nation and rapidly rising global power is governed today Written by leading China scholars the book's chapters offers accessible overviews of major periods in China's modern political history from the mid nineteenth century to the present key topics in contemporary Chinese politics and developments in four important areas located on China's geographic periphery Tibet Xinjiang Hong Kong and Taiwan [Social Suffering and Political Confession](#) Feiyu Sun, 2013 The volume examines one significant political phenomenon Suku in revolutionary China through a matrix of western social theory Freud Marcuse Arendt and Ricoeur Suku is the practice of confessing individual suffering in a political context and in a collective public forum By interpreting Suku from the joint perspectives of political identity and subjective psychological identity the book presents a new paradigm for discussing social suffering and collective confession in a context of revolutionary change in China's modern history P 4 of cover *Hu Feng* Ruth Y. Y. Hung, 2020-11-01 In this book Ruth Y Y Hung provides a study of Hu Feng 1902 1985 as a critic writer and editor within the context of the People's Republic of China's political ascendancy A member of the Japanese Communist Party and the Chinese Communist Party Hu rose to fame in the 1940s and became a representative persecuted intellectual soon after 1949 The Hu Feng Case of 1955 more than a decade before the Cultural Revolution was a significant large scale campaign of intellectual persecution Hung examines Hu's work as a literary critic in this context and examines the intricate historical and sociopolitical forces against which intellectuals in his milieu in twentieth century China adopted Marxism as a measure of their critical position She demonstrates how this first generation of modern Chinese literary critics practiced criticism examining the skills and

arguments they used to negotiate their institutional and ideological relations with state party power This exceptional case of intellectual engagement offers broader insight on critical literature s humanistic aims and methods in the context of intellectual globalization and changing political climates

Altehenger,2020-10-26 The popularization of basic legal knowledge is an important and contested technique of state governance in China today Its roots reach back to the early years of Chinese Communist Party rule Legal Lessons tells the story of how the party state attempted to mobilize ordinary citizens to learn laws during the early years of the Mao period 1949 1976 and in the decade after Mao s death Examining case studies such as the dissemination of the 1950 Marriage Law and successive constitutions since 1954 in Beijing and Shanghai Jennifer Altehenger traces the dissemination of legal knowledge at different levels of state and society Archival records internal publications periodicals advice manuals memoirs and colorful propaganda materials reveal how official attempts to determine and promote correct understanding of written laws intersected with people s interpretations and practical experiences They also show how diverse groups including party state leadership legal experts publishers writers artists and local officials along with ordinary people helped to define the meaning of laws in China s socialist society Placing mass legal education and law propaganda at the center of analysis Legal Lessons offers a new perspective on the sociocultural and political history of law in socialist China

Class and the Communist Party of China, 1921-1978 Marc Blecher,David S G Goodman,Yingjie Guo,Jean-Louis Rocca,Tony Saich,2022-02-24 Examining the interaction between the Communist Party of China CCP and specific social categories including peasants workers the middle classes and the dominant class with a focus on class and class discourse this volume analyses the CCP s impact on social change in China between 1921 and 1978 By exploring the CCP s evolving discourse of class this book demonstrates that while class has retained its centrality its meaning has been re articulated from an ideological political tool to a less meaningful signifier though always used instrumentally By examining the impact of the CCP s policies and discourse surrounding class it also reveals how its own policies since 1921 have shaped the CCP s current 2021 perspectives on class and stratification This volume through an analysis of economic political and cultural inequalities in Chinese society even after 1949 also reveals the emergence of a diverse and often overlooked middle class in Chinese society during the 1950s Delivering a detailed analysis of how the CCP has developed its practical approaches to class and mobilization this study will be of interest to students and scholars of Chinese politics Chinese history Asian politics and Asian studies
