**The Indispensable Composers** Anthony Tommasini, 2019-11-05. An exploration of the question of greatness from the chief classical music critic of *The New York Times*, Anthony Tommasini has devoted particular attention to living composers and overlooked repertory. But as with all classical music lovers, the canon has remained central for him. Tommasini resists the neat laws of canon formation, and yet he can't help but admit that these exalted composers have guided him through his life, resonating with his deepest emotions and profoundly shaping how he sees the world. Now in *The Indispensable Composers*, Tommasini offers his own personal guide to what the mercurial concept of greatness really means in classical music. As he argues for his particular pantheon of indispensable composers, Tommasini provides a masterclass in what to listen for and how to understand what music does to us.

**Music in the USA** Judith Tick, Paul Beaudoin, 2008-09-26. *Music in the USA: A Documentary Companion* charts a path through American music and musical life using as guides the words of composers, performers, writers, and the rest of us—ordinary folks who sing, dance, and listen. The anthology of primary sources contains about 160 selections from 1540 to 2000. Sometimes the sources are classics in the literature around American music, for example, the Preface to the *Bay Psalm Book*, excerpts from *Slave Songs of the United States*, and Charles Ives extolling Emerson. But many other selections offer uncommon sources, including a satirical story about a Yankee music teacher, various columns from 19th-century German-American newspapers, the memoirs of a 19th-century diva, Lottie Joplin remembering her husband Scott, a little-known reflection of Copland about Stravinsky, an interview with Muddy Waters from the *Chicago Defender*, a letter from Woody Guthrie on the spunkfire attitude of a folk song, a press release from the Country Music Association, and the Congressional testimony around Napster. Sidebar entries occasionally bring a topic or an idea into the present, acknowledging the extent to which revivals of many kinds of music play a role in American contemporary culture. This book focuses on the connections between theory and practice to enrich our understanding of the diversity of American musical experiences. Designed especially to accompany college courses which survey American music as a whole, the book is also relevant to courses in American history and American Studies.

**The Great American Symphony** Nicholas Tawa, 2009-03-26. The years of the Great Depression, World War II, and their aftermath brought a sea change in American music. This period of economic, social, and political adversity can truly be considered a musical golden age. In the realm of classical music, Aaron Copland, Samuel Barber, Howard Hanson, Virgil Thompson, and Leonard Bernstein, among others, produced symphonic works of great power.

and lasting beauty during these troubled years. It was during this critical decade and a half that contemporary writers on American culture began to speculate about the Great American Symphony and looked to these composers for music that would embody the spirit of the nation. In this volume Nicholas Tawa concludes that they succeeded at the very least in producing music that belongs in the cultural memory of every American. Tawa introduces the symphonists and their major works from the romanticism of Barber and the all-American Roy Harris through the theatrics of Bernstein and Marc Blitzstein to the broad-shouldered appeal of Thompson and Copland. Tawa's musical descriptions are vivid and personal and invite music lovers and trained musicians alike to turn again to the marvelous and lasting music of this time.
