Selected Writings Of Jules Supervielle:

Selected Writings Jules Supervielle, 1967 This is the first presentation in depth of the work of one of the most influential writers of modern France Jules Supervielle 1884 1960 Up to now only an occasional selection has appeared in an anthology and he is still little known to American readers Yet Supervielle is one of the unique creators of our time His fables have the clear eyed slightly wry vision of the intelligent child His poems have a lucidity of language that throws new light on each word each thought In his novel *The Man Who Stole Children* complete in this volume he uses the fantastic premise that a child uncared for by its parents may simply be picked up off the street and adopted to illuminate man's problems of human behavior and emotion Supervielle in his poetry and prose as in his personal influence on other writers is quiet unassuming matter of fact There is a quietness too almost an impersonality about his approach to life and the events of every day His poems are statements and almost never is there the fireworks of imagery or startling figure of speech that one associates with some twentieth century schools of writing Throughout his work may be felt the vast spaces of Uruguay where he was born and of the sea a pervading symbol This edition contains eight of his stories translated by Enid McLeod more than forty of his poems with French text en face translated by James Kirkup Denise Levertov and Kenneth Rexroth and the complete novel *Le Voleur d'enfants* translated by Alan Pryce Jones

Selected Writings Dylan Thomas, 1963 *Selected Prose and Poetry of Jules Supervielle* Jules Supervielle, Nancy Kline, 2014-03-07 This collection by the Uruguayan born French poet Jules Supervielle 1884 1960 contains ten tales and two chapters from his memoir *Uruguay* along with seventeen poems To read his tales and poems is exhilarating spun out as they are in his distinctive voice rueful funny forthright tender sometimes biting satiric by turns lyrical and abrupt Though still relatively unknown in the English language world Supervielle's works have been canonized in the prestigious *Bibliothèque de la Pléiade* and many of his titles have remained in print to this day All of the poems are presented in French and English the prose appears only in English Translated by Nancy Kline Patricia Terry and Kathleen Micklow Book jacket

Selected Writings Henri Michaux, 1968 Et udvalg af Henri Michaux tekster p engelsk

The Bright Nails Scattered on the Ground Allen R. Grossman, 1986 A series of poems traces the course of a love affair from both the man's and the woman's point of view

The Red Devil Battery Sign Tennessee Williams, 1988 This book is William's symbol for the military industrial complex and all the dehumanizing trends it represents from mindless cocktail party chatter to bribery of officials to assassination plots directed against those who won't play the game to attempted coups by right wing zealots

Scenarios for a Mixed Landscape John Allman, 1986 *Scenarios for a Mixed Landscape* John Allman's third collection of poems is a book as remarkable for its lyricism as it is for its capaciousness for there seems to be no area of thought no branch of learning no dark region of the mind into which the poet is unwilling to delve His recent *Clio's Children* Dostoevsky at Semyonov Square and *Other Poems* is a reminder as the title implies that history is a narrative art In his newest book Allman reflects on art and nature love and death the dualities that animate our common humanity The poems in

Scenarios for a Mixed Landscape look back at one level to the mutable mythic cosmos of Ovid as well as Lucretius universe of benign random change But to these ancient considerations Allman brings the insights indeed the language of modern science and evolution creating a speculative aesthetic appropriate to the awesome possibilities of the atomic age I would say Allman observes that Scenarios for a Mixed Landscape is about nature that the poems speak in the complementary idioms of art and science in an attempt to comprehend nature that love recapitulates all life forms and that love finally is the only ground we stand on the only steadiness beneath us earned by us yet strangely given as we sing of glory and grief John Allman s previous books of poems are Walking Four Ways in the Wind Princeton University Press 1979 and Clio s Children New Directions 1985

He is a professor of English at Rockland Community College State University of New York That's Life William Herrick,1985 In That s Life William Herrick s view of humanity is unsparing yet compassionate He sees life as commitment to ideals friends family but no one least of all Herrick said it was going to be easy His portraits of the members of a distinctly American family a novella five short stories and a group of five letters comprise not quite a novel but more than a collection of stories I think of it as a co operative structure the author says in which each character owns and occupies his or her own place yet it is the entire family which operates the building To simplify matters I call the book a fiction And so we learn the past and present of each of the Millers Max and Rebecca Rebecca s mother Ruth in an old folks home and the three Miller children Eli an obsessive artist Peter an amateur student of life as he bums rides across the country and teen ager Nina a not so innocent working class child away at prep school on a scholarship But we learn about them in counterpoint and mosaic as Herrick turns our attention and our allegiance first to one member of the family and then another There are few books where human weaknesses are so fully displayed and yet where human endurance and capacity for joy are so palpably present
