**Selections from the Prison Notebooks of Antonio Gramsci** Antonio Gramsci, 1971 In the autumn of 1926 on the pretext of an alleged attempt on his life Mussolini decided to make an end of even the semblance of bourgeois democracy that still survived All remaining opposition organisations and their publications were banned and a new massive series of arrests was launched throughout the country Among those arrested was Antonio Gramsci Gramsci was a member of parliament but the regime was no longer interested in niceties about parliamentary immunity He had also since August 1924 been the general secretary of the Communist Party though of course under such political conditions the identity of party officials was kept secret He was 35 years old At his trial in 1928 the official prosecutor ended his peroration with the famous demand to the judge We must stop this brain working for twenty years But although Gramsci was to be dead long before those twenty years were up released his health broken only in time to die under guard in a clinic rather than in prison yet for as long as his physique held out his jailers did not succeed in stopping his brain from working The product of those years of slow death in prison were the 2 848 pages of handwritten notes which he left to be smuggled out of the clinic and out of Italy after his death and of which this volume is a selection Pages xvii xviii of Introduction

**US Public and American Foreign Policy** Andrew Johnstone,Helen Laville,2010-06-10 Though often overlooked public opinion has always played a significant role in the development and promotion of US foreign policy and this work seeks to comprehensively assess the impact and nature of that opinion through a collection of historical and contemporary essays The volume evaluates the role of organizations and movements that look to represent public opinion and assesses the nature of their relationship with the government The contributors utilize a number of different approaches to examine this impact including polling data assessments of the role of the media and the wider consideration of ideas and ideology moving on to examine the specific role played by the public in the policy making and policy promotion process Engaging with new questions as well as approaching old questions from a new angle the work argues that whilst the roles change and the extent of influence varies the power of the public to both initiate and constrain foreign policy clearly exists and should not be underestimated This work will be of great interest to all those with an interest in American foreign policy American politics and American history     On the Rural Henri Lefebvre,2022-04-12 A collection of previously untranslated writings by Henri Lefebvre on rural sociology situating his research in relation to wider Marxist work On the Rural is the first English collection to translate Lefebvre s crucial but lesser known writings on rural sociology and political economy presenting a wide ranging approach to understanding the historical and rural sociology of precapitalist social forms their endurance today and conditions of dispossession and uneven development In On the Rural Stuart Elden and Adam David Morton present Lefebvre s key works on rural questions including the first half of his book *Du rural l urbain* and supplementary texts two of which are largely unknown conference presentations published outside France On the Rural offers methodological orientations for addressing questions of economy sociology and geography by deploying insights from spatial political economy to decipher the rural as a terrain and stake of capitalist transformation By doing so it reveals the production of the rural as a key site of capitalist development and as a space of struggle This volume delivers a careful translation supplemented with extensive notes and a substantive introduction to cement Lefebvre s central contribution to the political economy of rural sociology and geography     Walter Benjamin and Antonio Gramsci Dario Gentili,Elettra Stimilli,Gabriele Guerra,2024-09-16 This book marks a missed encounter between two of the most influential Marxist thinkers of our age Walter Benjamin and Antonio Gramsci studied here for the first time side by side Benjamin and Gramsci were contemporaries whose births and deaths took place within a few years of each other in Western Europe in the first half of the twentieth

century Two Marxists sui generis they radically changed Marxism's themes and vocabulary profoundly influencing the most significant analyses and debates At a time in which Marxism was considered to be outdated and in crisis both Gramsci's and Benjamin's thoughts provided resources for its renewal particularly in postcolonial studies for Gramsci and in new media studies for Benjamin Both were victims of fascism on the threshold of the catastrophe of the Second World War These two philosophers' posthumous fortune depended on the transmission of their thought which was first entrusted to friends and comrades and then to entire generations of scholars from a wide range of disciplines Editors Dario Gentili Elettra Stimilli and Gabriele Guerra explore with leading voices on Benjamin and Gramsci the most relevant and topical issues today The book gives an indispensable new perspective in Marxism for students and researchers alike Art, Critical Pedagogy and Capitalism Paul Alexander Stewart, 2020-12-30 This book offers a re-examination of art production in terms that understand the process of learning as the production of art itself Drawing on the thought of Ranciere Freire Gramsci and Mouffe it provides an account of the politics of art production and a theoretical understanding of hegemonic power while developing a view of method in critical pedagogy founded on the process of making adversaries Through a re-evaluation of the relationships between process arts production and pedagogy within accelerated developments of neoliberalism the author uncovers ways of forming a more co-operative and less conflictual approach to democratic politics An investigation of ways in which art practice can be used to engage with critical pedagogy in relation to a commodity-driven neoliberal agenda Art Critical Pedagogy and Capitalism constitutes a radical rethinking of art making and an attempt to address the paradox between the proliferation of the commodity of learning and the perceived crisis of arts education As such it will appeal to scholars of education pedagogy and the arts with interests in social and critical theory **Nature and Time** Dong In Baek, 2024-12-30 Unveil the intricate tapestry of faith and reason in Nature and Time Integrative Dialogues in History and Theology This insightful work bridges the gap between traditional Christian thought and contemporary scientific understanding Delving deep into the evolving role of natural theology it explores how human reason and empirical observation intertwine with divine revelation From the hierarchical dance between natural and revealed theology to the pressing political and ecological challenges of our time this book offers a fresh lens through which to view the divine in the modern world Journey through philosophical perspectives on time understand divine action in new dimensions and grapple with the global struggle against oppression all while discovering the enduring relevance of natural theology By weaving together insights from ecology cosmology and neuroscience it fosters a dynamic dialogue that enriches both science and spirituality Whether a theologian seeking depth a scientist exploring beyond the empirical or a curious mind yearning for meaning this book invites the reader to a transformative exploration Engage with a framework that not only addresses the complexities of the world but also fosters a deeper understanding of the divine in every aspect of life When the Clock Broke John Ganz, 2024-06-18 ONE OF THE WASHINGTON POST'S TEN BEST BOOKS OF 2024 One of The New York Times's
