Metacognitive Translator Training Paulina Pietrzak, 2022-03-11 This book explores new developments and objectives in translator education with a focus on metacognitive aspects of both translating and learning to become a translator The author reports on an exploratory study on translation graduates with particular attention to the effects of metacognitive awareness on their professional development The data collected show that despite the growing demand on translation services and advancement of translation technology there are still a great number of translation graduates who decide not to become professional translators The findings show a number of reasons why they choose

different career paths and discuss the correlations between their self concept and their professional development as reflected in their academic performance career choice career paths job satisfaction and perceived success The book will appeal to teachers trainers and academics in the field of translation studies and more specifically translation as a profession and translator competence *Control Motivation and Social Cognition* Gifford Weary, Faith Gleicher, Kerry L. Marsh, 2012-12-06

Over the past two decades theorists and researchers have given increasing attention to the effects both beneficial and harmful of various control related motivations and beliefs People's notions of how much personal control they have or desire to have over important events in their lives have been used to explain a host of performance and adaptational outcomes including motivational and performance deficits associated with learned helplessness Abramson Seligman Rodin 1986 cardiovascular disease Matthews 1982 cancer Sklar Ryckman 1979 and post abortion adjustment Mueller Jones Kelley 1967 for example have suggested that causal inferences arise from a desire to render the social world predictable and controllable Similarly control has been implicated as an important mediator of cognitive dissonance Wicklund Kiesler Collins Miller 1969 Despite the apparent centrality of control motivation to a variety of social psychological phenomena until recently there has been relatively little research explicitly concerned with the effects of control motivation on the cognitive processes underlying such phenomena cf
