issue with the claim that the Victorian period is the antithesis of our own They show how characteristic postmodern anxieties and celebrations concerning truth certainty and identity informed Victorian culture at all levels Covering everything from attitudes to drink to the poetry of Browning from the Great Exhibition to the Elephant Man this volume shows not only how the Victorians coped with these challenges but also what lessons they have for us today **Notes, Critical, Explanatory, and Practical, on the Book of Psalms** Albert Barnes,1869 **Publishers' circular and booksellers' record** ,1871

Mosse,2023-01-03 The Culture of Western Europe George L Mosse s sweeping cultural history was originally published in 1961 and revised and expanded in 1974 and 1988 Originating from the lectures at the University of Wisconsin Madison for which Mosse would become famous the book addresses in crisp and accessible language the key issues he saw as animating the movement of culture in Europe Mosse emphasizes the role of both rational and irrational forces in making modern Europe beginning with the interplay between eighteenth century rationalism and nineteenth century Romanticism He traces cultural and political movements in all areas of society especially nationalism but also economics class identity and conflict religion and morality family structure medicine and art This new edition restores the original 1961 illustrations and features a critical introduction by Anthony J Steinhoff professor in the department of history at the Universit du Qu bec Montr al contextualizing Mosse s project and arguing for its continued relevance today **The Book Monthly** James Milne,1904

Book List De Kalb (Ill.). Public Library,1909 *Three Score Years and Ten: or More?* Trevor James Cooper,2024-04-26 *Three Score Years and Ten Or More* delves into the enduring fascination with individuals who live beyond 100 years The intrigue centres not only on the accomplishment itself but also on the mysteries of how and why these people achieve such remarkable longevity This research shifts its focus from contemporary centenarians whose ages can be more reliably verified due to improved record keeping to an earlier era marked by less clear historical records It investigates the genesis of this interest and the emergence of what could be termed a cult of centenarianism During this period claims of extreme old age sparked debates between believers and sceptics creating a cultural divide The book also examines the significant role media played in this phenomenon The portrayal and promotion of centenarians by the media of the time laid the groundwork for

themes explored in this book contributing to the ongoing public intrigue surrounding individuals of advanced age
