

A person is shown from the waist up, sitting in a meditative pose with their hands resting on their knees, palms facing up. They are wearing a light-colored, short-sleeved shirt. The background is a plain, light-colored wall. A large, dark shadow of the person is cast onto the floor in front of them, extending towards the bottom of the frame. The title 'SELLING SPIRITUALITY' is overlaid on the image. 'SELLING' is in large, bold, green capital letters, and 'SPIRITUALITY' is in smaller, blue capital letters with a slight shadow effect.

Brannigan, 2018-09-15 What is spirituality Does it enable us to be better persons Is spirituality related to religion These days is it even relevant On college campuses does it promote student well being Does it further moral growth Can spirituality make a difference in healthcare What about social justice and service to the marginalized This rich collection of essays by respected scholars and practitioners in diverse fields

in academic healthcare social justice and interfaith contexts addresses these questions in strikingly profound and meaningful ways Their voices offer alternatives to the prevailing notion of spirituality as a purely private matter and make a case for living spiritually through deep and genuine engagement with others bridging our inherent and original fault line of Self and Other Their keen observations resuscitate the spiritual fabric of defiance against and liberation from forces of oppression which show their face not only through chronic inequities and social injustice but in consumer capitalism's grip on our souls This volume's dispatch to our minds and hearts is timely in an age of looming cynicism pessimism fear and distrust In carving out a renewed sense of what lies at the heart of living a life of the spirit or spirituality it offers an antidote to our widespread hermeneutic of suspicion None of the authors claims to encapsulate one pure meaning of the spiritual Yet they share one collective voice spirituality is indeed genuine when it calls forth compassion and wears the worn and tangled face of humaneness freeing ourselves from the prison of ego Here we find messages of hope much needed in a time when our society seems increasingly shadowed by dark clouds These essays remind us of what's right in the world *Authentic* Sarah Banet-Weiser, 2012-10-15 Brands are everywhere Branding is central to political campaigns and political protest movements the alchemy of social media and self branding creates overnight celebrities the self proclaimed greening of institutions and merchant goods is nearly universal But while the practice of branding is typically understood as a tool of marketing a method of attaching social meaning to a commodity as a way to make it more personally resonant with consumers Sarah Banet Weiser argues that in the contemporary era brands are about culture as much as they are about economics That in fact we live in a brand culture *Authentic* maintains that branding has extended beyond a business model to become both reliant on and reflective of our most basic social and cultural relations Further these types of brand relationships have become cultural contexts for everyday living individual identity and personal relationships what Banet Weiser refers to as brand cultures Distinct brand cultures that at times overlap and compete with each other are taken up in each chapter the normalization of a feminized self brand in social media the brand culture of street art in urban spaces religious brand cultures such as New Age Spirituality and Prosperity Christianity and the culture of green branding and shopping for change In a culture where graffiti artists loan their visions to both subway walls and department stores buying a cup of fair trade coffee is a political statement and religion is mass marketed on t-shirts Banet Weiser questions the distinction between what we understand as the authentic and branding practices But brand cultures are also contradictory and potentially rife with unexpected possibilities leading *Authentic* to articulate a politics of ambivalence creating a lens through which we can see potential political possibilities within the new consumerism **Do Christians Know How to be Spiritual?** John Drane, 2020-04-28 After a century or more of convincing ourselves that intelligent people should be secular it is now trendy to be spiritual Why the sudden change And what do we mean by being spiritual John Drane presents a whirlwind tour of the phenomenon of cultural change as it is being experienced in the West identifying the challenges and opportunities this presents to the

Australian Sport Kristine Toohey, Tracy Taylor, 2013-10-18 Australia is only a small player in the world's political and economic landscapes yet for many decades it has been considered to be a global powerhouse in terms of its sporting successes In conjunction with this notion the nation has long been portrayed as having a preoccupation with sport This labelling has been seen as both a blessing and a curse Those who value a Bourdieuan view of culture bemoan sport's centrality to the national imagination and the consequent lack of media coverage funding and prestige accorded to the arts Other scholars question whether the popular stereotype of the Australian sportsman is in fact a myth and that instead Australians are predominantly passive sport consumers rather than active sport participants Australian sport through its successes on the field of play and in advancing sport coaching and management has undergone a revolution as both an enabler of global processes and as subject to its influences economic political migratory etc This book will examine the shifting place of Australian sports in current global and local environs from the perspective of spectators players and administrators This book was previously published as a special issue of *Sport in Society*

Religion, Discourse, and Society Marcus Moberg, 2021-12-30 This book focuses on the utility and application of discourse theory and discourse analysis in the sociological study of religious change

It presents an outline of what a discursive sociology of religion looks like and brings scholarly attention to the role of language and discourse as a significant component in contemporary processes of religious change. Marcus Moberg addresses the concept of discourse and its main meta-theoretical underpinnings and discusses the relationship between discourse and religion in light of previous research. The chapters explore key notions such as secularism and public religion as well as the ideational and discursive impact of individualism and market society on the contemporary Western religious field. In addition to providing scholars with a thorough understanding and appreciation of the analytic utility of discourse theory and analysis in the sociological study of religious change, the book offers a cohesive and systematized framework for actual empirical analysis.

Being Spiritual but Not Religious William B. Parsons, 2018-05-30. In its most general sense, the term Spiritual but Not Religious denotes those who, on the one hand, are disillusioned with traditional institutional religion and, on the other hand, feel that those same traditions contain deep wisdom about the human condition. This edited collection speaks to what national surveys agree is a growing social phenomenon referred to as the Spiritual but Not Religious Movement (SBNRM). Each essay in the volume engages the past, present, and future of the SBNRM. Their collective contribution is analytic, descriptive, and prescriptive, taking stock of not only the various analyses of the SBNRM to date but also the establishment of a new ground upon which the continued academic discussion can take place. This volume is a watershed in the growing academic and public interest in the SBNRM. As such, it will be vital reading for any academic involved in Religious Studies, Spirituality, and Sociology.
