Selling China Foreign Direct Investment During The Reform Era:

Selling China: Foreign Direct Investment During the Reform Era, 2005 *Selling China* Yasheng Huang, 2002

Foreign Direct Investment In China: Winners And Losers Cheryl Xiaoning Long, Galina Hale, 2012-01-13 This book provides a comprehensive analysis of the effects that foreign direct investment into China has had on the productivity exporting activity and innovation of Chinese domestic firms as well as on the nation's labor markets The analysis relies on the most complete data available and state of the art statistical analysis The book also includes a critical overview of existing theoretical and empirical literature on these issues and is meant to provide guidance to researchers in the area of FDI effects in general as well as those interested in studying the Chinese economy *Foreign Direct Investment in China* Galina Hale, Cheryl Long, 2012 This book provides a comprehensive analysis of the effects that foreign direct investment into China has had on the productivity exporting activity and innovation of Chinese domestic firms as well as on the nation's labor markets The analysis relies on the most complete data available and state of the art statistical analysis The book also includes a critical overview of existing theoretical and empirical literature on these issues and is meant to provide guidance to researchers in the area of FDI effects in general as well as those interested in studying the Chinese economy **Foreign Direct Investment and Urban Growth in China** Lei Wang, 2016-04-15 This book puts forward an institutional explanation of the recent dynamics of foreign direct investment FDI in China It argues that the concentration of FDI in the Chinese manufacturing economy since the beginning of this century is largely the result of China's entrepreneurial urban growth strategy which was in turn motivated by the overall political and fiscal structures of China and was facilitated by urban land use under the manipulation of municipalities By identifying the interactions between cross border capital flow national regulations and local responses this book not only provides a fresh understanding of China's FDI pattern from an urban perspective that has been rare among publications on similar topics but also sheds light on the drivers underlying China's rapid economic growth and its implications for sustainable development It also stands as a useful reference for other countries and regions that plan to launch their own state led development projects *Diasporas and Foreign Direct Investment in China and India* Min Ye, 2014-08-18 A comparative and historical analysis of foreign direct investment liberalization in China and India explaining how the return of these countries diasporas affects such liberalization **The Dynamics of Co-Evolution** J. Child, Kenneth K. -T. Tse, Suzana B. Rodrigues, 2013-01-01 This book gives full due to two areas which were totally under researched in earlier work namely how corporate evolution takes place and how it can proceed within a highly politicized as well as institutionalized environment The Dynamics of Corporate Co evolution is a remarkable statement of facts a solid perspective on co evolution the way the relationships between YICT and its environments evolved together It is an invaluable source of data on how a new container terminal became after an initially difficult period one of the world top class ports largely through the initiatives of its management Gustaaf De Monie University of Antwerp Belgium

There are two reasons for recommending this highly readable book. It offers a careful explanation of how interaction between investors, operating firms, local politicians, and central administrators shapes the corporate governance of new Chinese multinationals and their contracts in a highly regulated infrastructure industry such as ports. Based on the outcome of the empirical study of China's largest container terminal, the book further convincingly argues how the interaction between firms and local politicians or central administrators specifies the missing link in co-evolution theory, namely the mechanism by which firms can convert their demand for a better fitting business environment into corresponding institutional policies. In short, the book offers both additional insights into the new business system in China and suggestions for foreign firms how to better cope with such a system and the process by which good theory gets refined. Barbara Krug, Erasmus University, The Netherlands.

The dramatic progress of many societies in recent decades has rested often without full acknowledgement on the hybridizing of different business systems and secondly on the flowing together of the resulting blended organizations with their political, social, and cultural surroundings. This is nowhere better illustrated than in China's Pearl River Delta, where the long heritage of Hong Kong as a western trading outpost meets the longer heritage of China as a state-dominated society. In this book, the co-evolution of the world's largest matrix of transport hubs is analysed in fine detail by another hybrid, that of world-class exponents of both organization theory and the practical managing of complexity. Gordon Redding, INSEAD, France.

This fascinating close-range look at the co-evolution of a Chinese joint venture port operator and the dynamic political and economic environment in which it is embedded demonstrates yet again that in the right hands, theory and practice can and do inform and infuse each other. In the haystack of contemporary China books, this is a precious needle. Oded Shenkar, Ohio State University, US.

This work is an excellent example of a joint business academic collaboration on telling the story of how a major business evolved successfully with its environment, an environment in which most businesses have found it difficult to operate and most researchers have found it a challenge to explain. Through meticulous research, the research team explains with solid facts and strong theory how a business influenced its highly complex and ambiguous political environment through developing strategic relationships. This project is a model for conducting relevant research that the management field desperately needs. It is exemplary of engaged scholarship that merges the best of scholarship and practice. Both academics and executives will find this book a treasure of ideas. Anne Tsui, Arizona State University, US.

The Dynamics of Corporate Co-evolution provides an excellent exploration of co-evolution from the perspective of power relations within a hierarchical system. It is relevant not only to firms working within a political environment but also useful for people working in think tanks and policy analysis. Its treatment of relationship management has universal implications. Huijiong Wang, The State Council, PRC.

Offering insights of unusual richness, this book examines one of the world's most important business environments to determine the way that organizations can develop through interaction with their environments. It fills a gap in our understanding of the evolution of the Chinese business environment and throws light on the theory of co-evolution in order to

inspire management practice Written on the basis of a collaboration between a leading business manager and renowned university scholars this groundbreaking book makes a significant contribution both to theory and practice of competitive strategy

Fast Boat to China Andrew Ross, 2006-04-04 Most Americans today are aware that jobs are being outsourced to China India and other nations at an alarming rate From factory jobs to white collar high tech positions the exporting of labor is one of the most controversial issues in America Yet few people know much about the other end about the people who are actually working these jobs and how their own lives have been thrown into tumult by these new economic forces Andrew Ross spent a year in China interviewing local employees and their managers in Taiwan Shanghai and the far western provinces In this engaging and informative book he shows how the Chinese workforce has inherited many of the same worries as American workers such as job instability long hours and awareness of their own expendability He reports on the daily reality of corporate free trade and explores the growing competition between China and India This is an eye opening exploration of an unseen side of our globalized world
