Shikasta Re Colonised Planet 5:

Shikasta Doris Lessing, 2010-11-17 The first volume in the Canopus in Argos Archives series is presented as a compilation of documents reports letters speeches and journal entries and purports to be a general study of the planet Shikasta clearly the planet Earth to be used by history students of the higher planet Canopus and to be stored in the Canopian archives For eons galactic empires have struggled against one another and Shikasta is one of the main battlegrounds Johar an emissary from Canopus and the primary contributor to the archives visits Shikasta over the millennia from the time of the giants and the biblical great flood up to the present With every visit he tries to distract Shikastans from the evil influences of the planet Shammat but notes with dismay the ever growing chaos and destruction of Shikasta as its people hurl themselves towards World War III and annihilation **Shikasta** Doris Lessing, 1979 A variety of narratives including the report of Johor George Sherban the Emissary sent by the Powers controlling our part of the universe reveal what the planet Shikasta and its inhabitants have in desperation endured Re Doris Lessing, Shikasta Doris May Lessing, 1979 A variety of narratives including the report of Johor George Sherban the Emissary sent by the Powers controlling our part of the universe reveal what the planet Shikasta and its inhabitants have in desperation endured

Between East and West Muge Galin, 1997-07-31 Considers how Lessing's exposure to a particular aspect of tasawwuf the classical Sufi Way has shaped her work Impresses upon the reader the degree to which Lessing is seriously offering her space fiction utopias as plausible and even necessary alternatives to our present Western ways of life **The Past That**

Might Have Been, the Future That May Come Lauren J. Lacey, 2013-12-07 This book explores how contemporary fantastic fiction by women writers responds to the past and imagines the future The first two chapters look at revisionist rewritings of fairy tales and historical texts the third and fourth focus on future oriented narratives including dystopias and space fiction Writers considered include Margaret Atwood Octavia E Butler Angela Carter Ursula K Le Guin Doris Lessing and Jeanette Winterson among others The author argues that an analysis of how past and future are understood in women's fantastic fictions brings to light an ethics of becoming in the texts a way of interrupting revising and remaking problematic power structures that are tied to identity markers like class gender and race The book reveals how fantastic fiction can be read as narratives of disruption that enable the creation of an ethics of becoming **Historical Dictionary of Science**

Fiction in Literature M. Keith Booker, 2014-10-01 The Historical Dictionary of Science Fiction in Literature is a useful reference to the broad and burgeoning field of science fiction literature Science fiction literature has gained immensely in critical respect and attention while maintaining a broad readership However despite the fact that it is a rapidly changing field contemporary science fiction literature also maintains a strong sense of its connections to science fiction of the past which makes a historical reference of this sort particularly valuable as a tool for understanding science fiction literature as it now exists and as it has evolved over the years The Historical Dictionary of Science Fiction in Literature covers the history of

science fiction in literature through a chronology an introductory essay and an extensive bibliography The dictionary section has over 300 cross referenced entries including significant people themes critical issues and the most significant genres that have formed science fiction literature This book is an excellent access point for students researchers and anyone wanting to know more about this subject The Poetics of Science Fiction Peter Stockwell,2014-06-11 The Poetics of Science Fiction uniquely uses the science of linguistics to explore the literary universe of science fiction Developing arguments about specific texts and movements throughout the twentieth century the book is a readable discussion of this most popular of genres It also uses the extreme conditions offered by science fiction to develop new insights into the language of the literary context The discussion ranges from a detailed investigation of new words and metaphors to the exploration of new worlds from pulp science fiction to the genre s literary masterpieces its special effects and poetic expression Speculations and extrapolations throughout the book engage the reader in thought experiments and discussion points with selected further reading making it a useful source book for classroom and seminar *The Romantic Age in Britain* Boris Ford,1992 This is a comprehensive survey for students specialists and general readers of all major branches of the arts in 16th century Britain It also reveals the cultural and social setting in which writers musicians architects and other artists of the period worked Genetics and the Literary Imagination Clare Hanson,2020 Studying works by Doris Lessing Ian McEwan A S Byatt Kazuo Ishiguro and Jackie Kay this book explores the impact on literature of the gene centric model of human nature that entered mainstream culture in the wake of the discovery of the structure of DNA *Virtue Revisited in the Novels of Doris Lessing* Seda ARIKAN,2024-09-06 The ethical approaches to literature have come into prominence in the twentieth century calling for a turn to ethics in the studies of humanities in general and literary studies in particular By leading the ethical turn in literature many theorists proposed a moral oriented approach to literature which is still a significant part of literary criticism The ethical turn in literature has changed the spirit of literary criticism in the direction of virtue and value based approaches In this respect this study scrutinises Doris Lessing s novels in light of virtue ethics in general and virtue politics care ethics and Sufi virtue ethics in particular Lessing s connection to virtue ethics which is implicitly or explicitly reflected in her novels is examined by giving the panorama of ethical movements whose common point is virtues This study asserts that Lessing implements an ethical concern in her novels which is based on her own understanding of virtue ethics *History at the End of the World* Mark Levene,Rob Johnson,Penny Roberts,2010 The authors of this collection of essays propose that climate change means serious peril The approaches begin from archaeology literature religion psychology sociology philosophy of science engineering and sustainable development as well as straight history Our argument however is not about the science per se It is about us our deep and more recent history and how we arrived at this calamitous impasse With contributions from academic activists and independent researchers History at the End of the World challenges advocates of business as usual to think again But in its wide ranging assessment of how we transcend the current crisis it also proposes that the human past

could be our most powerful resource in the struggle for survival *Doris Lessing* Gayle Greene,1994 An original and compelling appraisal of this important international literary figure **Dancing at the Edge of the World** Ursula K. Le Guin,1989 The celebrated author offers her thoughts on a broad range of subjects including literary criticism the state of science fiction writing today and government and governmental policies **Home Matters** R. Rubenstein,2001-02-23 Despite its typically regressive associations with homesickness the longing associated with nostalgia may also function progressively as a vehicle for imaginatively fixing the past in two senses securing and mending or repairing Considering fiction by two British and six American women writers of different generations and ethnicities this study explores tensions between home and exile insider and outsider longing and belonging loss and recovery Rubenstein argues that nostalgia functions narratively as a strategy for interrogating not only notions of home homesickness and homeland but also cultural historical dislocation aging and moral responsibility These narratives re frame a significant locus of concern in contemporary female experience personal and or cultural dis placement and longing for home are ultimately transmuted imaginatively at least by a restorative vision that enables healing and emotional repair **Doris Lessing** Harold Bloom,2003 Essays of critical interpretation portray views of Doris Lessing s work including *The Golden Notebook* *Marriages* and *The Grass is Singing* **Cold War Stories** Andrew Hammond,2017-08-28 This book is the first comprehensive study of mainstream British dystopian fiction and the Cold War Drawing on over 200 novels and collections of short stories the monograph explores the ways in which dystopian texts charted the lived experiences of the period offering an extended analysis of authors concerns about the geopolitical present and anxieties about the national future Amongst the topics addressed are the processes of Cold War autocracy militarism propaganda intelligence nuclear technologies the decline of Britain s standing in global politics and the reduced status of intellectual culture in Cold War Britain Although the focus is on dystopianism in the work of mainstream authors including George Orwell Doris Lessing J G Ballard Angela Carter and Anthony Burgess a number of science fiction novels are also discussed making the book relevant to a wide range of researchers and students of twentieth century British literature **Nuclear Fear** Spencer R. WEART,Spencer R Weart,2009-06-30 Our thinking is inhabited by images images of sometimes curious and overwhelming power The mushroom cloud weird rays that can transform the flesh the twilight world following a nuclear war the white city of the future the brilliant but mad scientist who plots to destroy the world all these images and more relate to nuclear energy but that is not their only common bond Decades before the first atom bomb exploded a web of symbols with surprising linkages was fully formed in the public mind The strange kinship of these symbols can be traced back not only to medieval symbolism but still deeper into experiences common to all of us This is a disturbing book it shows that much of what we believe about nuclear energy is not based on facts but on a complex tangle of imagery suffused with emotions and rooted in the distant past *Nuclear Fear* is the first work to explore all the symbolism attached to nuclear bombs and to civilian nuclear energy as well employing the powerful tools of

history as well as findings from psychology sociology and even anthropology The story runs from the turn of the century to the present day following the scientists and journalists the filmmakers and novelists the officials and politicians of many nations who shaped the way people think about nuclear devices The author a historian who also holds a Ph D in physics has been able to separate genuine scientific knowledge about nuclear energy and radiation from the luxuriant mythology that obscures them In revealing the history of nuclear imagery Weart conveys the hopeful message that once we understand how this imagery has secretly influenced history and our own thinking we can move on to a clearer view of the choices that confront our civilization

emerges only to be suppressed and emerge again Ellen Goodman Boston Globe Reviews of this book A historical portrait of the quintessential modern nightmare Weart shows in meticulous and fascinating detail how the ancient images of alchemy fire sexuality Armageddon gold eternity and all the rest immediately clustered around the new science of atomic physics There is no question that the image of nuclear power reflects a complex and deeply disturbing portrait of what it means to be human Stephan Salisbury Philadelphia Inquirer Reviews of this book A detailed probing study of American hopes dreams and insecurities in the twentieth century Weart has a poet s acumen for sensing human feelings Nuclear Fear remains captivating as history and original as an anthropological study of how nuclear power like alchemy in medieval times offers a convenient symbol for deeply rooted human feelings Los Angeles Times Reviews of this book Weart s tale boldly sweeps from the futuristic White City of the 1893 Chicago World s Fair and the discovery of radioactivity in 1896 through Hiroshima and Star Wars An admirable call for synthesis of art and science in a true transmutation that takes us beyond nuclear fear H Bruce Franklin Science

Doris Lessing and Sufi Equilibrium S. Fahim,1994-07-12 The purpose of this study is to examine the rationale of Doris Lessing s development from Classical Realism to mysticism and forms of science fiction and to consider the unifying motifs that appear throughout her novels in her consistent search for Sufi Equilibrium The four novels selected in this study represent significant stages in Lessing s work Chapter one focuses on The Grass is Singing which represents the author s early traditionally realistic writing to show how far the preoccupations of Lessing s later novels find expression in this early work Chapter two studies The Golden Notebook which marks a turning point in formal structure in Lessing s canon and is selected as evidence of her interest in Sufism at that early stage Chapter three concentrates on the study of The Memoirs of a Survivor which has elicited a comparatively limited amount of criticism but which proves to be a major achievement when brought into line with Sufi methods of writing Chapter four considers Lessing s science fiction series Canopus in Argos tracing sources from Oriental literature a key which unlocks many areas of obscurity

Mapping British Women Writers' Urban Imaginaries Arina Cirstea,2016-01-13 This study provides an alternative to the postmodern tradition of writing about the city by exploring spatialized constructions of gender and spiritual identity through an integrative framework based on insights from Bachelard s topoanalysis psychogeography feminist cultural theory and comparative literature and religion
