Historical Dictionary of Jazz John S. Davis,2020-09-15 Jazz is a music born in the United States and formed by a combination of influences In its infancy jazz was a melting pot of military brass bands work songs and field hollers of the United States slaves during the 19th century European harmonies and forms and the rhythms of Africa and the Caribbean

Later the blues and the influence of Spanish and French Creoles with European classical training nudged jazz further along in its development As it moved through the swing era of the 1930s bebop of the 1940s and cool jazz of the 1950s jazz continued to serve as a reflection of societal changes During the turbulent 1960s freedom and unrest were expressed through Free Jazz and the Avant Garde Popular and world music have been incorporated and continue to expand the impact and reach of jazz Today jazz is truly an international art form This second edition of Historical Dictionary of Jazz contains a chronology an introduction and an extensive bibliography The dictionary section has over 1 500 cross referenced entries on musicians styles of jazz instruments recording labels bands and band leaders and more This book is an excellent resource for students researchers and anyone wanting to know more about Jazz The Songs of Blind Folk Terry Rowden,2009 How America has constructed the figure of the visually impaired black performer over the last 150 years **Soweto Blues** Gwen Ansell,2004-09-28 A major new contribution to the study of African music Soweto Blues tells the remarkable story of how jazz became a key part of South Africa s struggles in the 20th Century and provides a fascinating overview of the ongoing links between African and American styles of music Ansell illustrates how jazz occupies a unique place in South African music Through interviews with hundreds of musicians she pieces together a vibrant narrative history bringing to life the early politics of resistance the atmosphere of illegal performance spaces the global anti apartheid influence of Hugh Masekela and Miriam Makeba as well as the post apartheid upheavals in the national broadcasting and recording industries Featuring an introduction by Abdullah Ibrahim Soweto Blues is a fitting tribute to the power of music to inspire optimism and self expression in the darkest of times FROM THE INTRODUCTION This book tells of the journeys in both directions between village and city between saxophone and cellphone between Langa and Cape Town between America and Africa that over the past century have created the unique sound dubbed South African Jazz The term itself is contentious As in America some politically aware South African players dislike the term for its social connotations The term jazz was used to describe the music of brothels It was simply another way of denigrating the creativity of African musicians says percussionist and composer Ndikho Xaba And as in the rest of the world many musical explorers resent the constraints of an externally defined musical box In South Africa apartheid overlaid the word with other more sinister connotations In some critical and ethno musicological contexts the music was evaluated by the degree of its American ness and denigrated as impure when it employed African idioms in composition or playing Also under apartheid the white authorities found it unacceptable that black musicians should be acknowledged as capable of playing such sophisticated music And so symbolic annihilation became part of the hegemonic staging and broadcasting of jazz Playing behind a screen at Cape Town City Hall while a white musician mimed his notes reedman Winston Mankunku Ngozi was billed as Winston Mann In radio broadcasts pianist Tony Schilder heard himself re christened Peter Evans and trumpeter Johnny Mekoa became Johnny Keen **Eurojazzland** Luca Cerchiari,Laurent Cugny,Franz Kerschbaumer,2012-07-10 The critical role of Europe in the music personalities and analysis
