The Lure of Fundamentalism

Lure Of Fundamentalism

Gabriele Bammer, Michael Smithson

Lure Of Fundamentalism:

In-Between God Stephen Pickard, 2011-12-28 *In Between God* explores three important areas for contemporary Christianity: theology, community, and discipleship. Part One inquires into the rhythms of faith as it interacts with themes of uncertainty and doubt, the nature of theological discourse, the task of systematic theology, evangelism, and the various ways in which theology is done. Part Two discusses the importance of place in relation to the church and themes of innovation, undecidability, and new forms of monastic community. Part Three addresses themes in discipleship, simplicity, mysticism, the passions, and pilgrimage. A red thread connecting these essays is the character of the triune God who is the energy and life in between all things.

The Unity Principle Ellis Rivkin, 2003 Presents a dynamic interpretation of Jewish history from biblical to modern times as a set of interconnected and evolving events and relationships that spring directly from Judaism's core beliefs.

Fear Itself Stephen Hessel, Michèle Huppert, 2010 What are fear, horror, and terror? This question central to our endeavour cannot be answered by one unified voice. It always cracks, falters, and fades before it can fully enunciate its proclamation. We, the authors, know this and have planned accordingly. This volume presents meditations on this issue springing from the four corners of intellectual inquiry. Each author provides a distinctive approach with which to address the issue at hand: Literary theory, psychoanalysis, media studies, political science, and many more disciplines occupy the same space between the covers of this book. We hope that through the cacophony of our diversity we will fill in the inevitable gaps when our voices fall short.

Christianity and the Culture Machine Vincent F. Rocchio, 2016-08-05 *Christianity and the Culture Machine* is a precedent shattering approach to combining theories of media and culture with theology. In this intensive examination of Christianity's role in the cultural marketplace, the author argues that Christianity's inability to effectively contest the ideology of secular humanism is not a theological shortcoming but rather a communications problem: the institutional church is too wedded to an outmoded aesthetic of Christianity to communicate effectively. Privileging authority and obedience over the egalitarian and transformative goal of Christianity, the church fails to recognize how it undermines the vitality of the Christian narrative and message. In the absence of a more compelling vision offered by the official church, a new aesthetic can be found forming within the margins of popular culture texts. Despite its past failures in representing the Bible in mainstream film and television, the culture industry now offers more compelling versions of core Christian theology without even realizing it within the margins of the main storylines. This book analyzes the aesthetic principles employed by these appropriations and articulations of Christian discourse as a means of theorizing what a new aesthetic of Christianity might look like.

Abiding Faith Scott Cowdell, 2014-06-26 Australian theologian Scott Cowdell explores how having faith has changed under the influence of modernity and post modernity in the West. Following the understanding of faith typical of Saint Paul, the Fathers, and the medieval monastic theologians, faith is returned from pious sentimentality and arid philosophy of religion to the realm of participating, knowing, paradigmatic imagination, and personal

transformation where it belongs as a form of life shaped by encounter with Jesus Christ and worked out through the Eucharistic community

Desert Patriarchy Janet Bennion, 2004-05 On the high desert plateau of northern Mexico outsiders have taken refuge from the secular world Here three Anglo communities of Mormons and Mennonites have ordered their lives around male supremacy rigid religious duty and a rejection of modern technology and culture In so doing they have successfully adapted to this harsh desert environment Janet Bennion has lived and worked among these people and in this book she introduces a new paradigm desert patriarchy to explain their way of life This perspective sheds light not only on these particular communities but also on the role of the desert environment in the development and maintenance of fundamentalist ideology in other parts of the United States and around the globe Making new connections between the arid environment opposition to technology and gender ideology Bennion shows that it is the interplay of the desert and the unique social traditions and gender dynamics embedded in Anglo patriarchal fundamentalism that accounts for the successful longevity of the Mexican colonies Her model defines the process by which male supremacy female autonomous networking and religious fundamentalism all facilitate successful adaptation to the environment More than a theoretical analysis *Desert Patriarchy* provides an intimate glimpse into the daily lives of these people showing how they have taken refuge in the desert to escape religious persecution the forced secular education of their children and economic and political marginalization It particularly sheds light on the ironic autonomy of women within a patriarchal system showing how fundamentalist women in Chihuahua are finding numerous creative ways to access power and satisfaction in a society structured to subordinate and even degrade them *Desert Patriarchy* richly expands the literature on nontraditional religious movements as it enhances our understanding of how environment can shape society It offers unique insights into women's status in patriarchal communities and provides a new way of looking at similar communities worldwide

Uncertainty and Risk Gabriele Bammer, Michael Smithson, 2012-05-04 This is a major and deeply thoughtful contribution to understanding uncertainty and risk Our world and its unprecedented challenges need such ways of thinking Much more than a set of contributions from different disciplines this book leads you to explore your own way of perceiving your own area of work An outstanding contribution that will stay on my shelves for many years Dr Neil T M Hamilton Director WWF International Arctic Programme This collection of essays provides a unique and fascinating overview of perspectives on uncertainty and risk across a wide variety of disciplines It is a valuable and accessible sourcebook for specialists and laypeople alike Professor Renate Schubert Head of the Institute for Environmental Decisions and Chair of Economics at the Swiss Federal Institute of Technology This comprehensive collection of disciplinary perspectives on uncertainty is a definitive guide to contemporary insights into this Achilles heel of modernity and the endemic hubris of institutional science in its role as public authority It gives firm foundations to the fundamental historic shift now underway in the world towards normalizing acceptance of the immanent condition of ignorance and of its practical corollaries contingency uncontrol and respect for difference Brian Wynne Professor of Science Studies Lancaster

University of Bammer and Smithsonian have assembled a fascinating important collection of papers on uncertainty and its management. The integrative nature of Uncertainty and Risk makes it a landmark in the intellectual history of this vital cross disciplinary concept. George Cvetkovich, Director, Center for Cross Cultural Research, Western Washington University.

Uncertainty governs our lives. From the unknowns of living with the risks of terrorism to developing policies on genetically modified foods or disaster planning for catastrophic climate change, how we conceptualize, evaluate and cope with uncertainty drives our actions and deployment of resources, decisions and priorities. In this thorough and wide ranging volume, theoretical perspectives are drawn from art, history, complexity science, economics, futures, history, law, philosophy, physics, psychology, statistics and theology. On a practical level, uncertainty is examined in emergency management, intelligence, law enforcement, music, policy and politics. Key problems that are a subject of focus are environmental management, communicable diseases and illicit drugs. Opening and closing sections of the book provide major conceptual strands in uncertainty thinking and develop an integrated view of the nature of uncertainty, uncertainty as a motivating or demotivating force and strategies for coping and managing under uncertainty.

The Palgrave Handbook of Global Mormonism R. Gordon Shepherd, A. Gary Shepherd, Ryan T. Cragun, 2020-11-12. This handbook explores contemporary Mormonism within a global context. The authors provide a nuanced picture of a historically American religion in the throes of the same kinds of global change that virtually every conservative faith tradition faces today. They explain where and how the Church of Jesus Christ of Latter-day Saints has penetrated national and cultural boundaries in Latin America, Oceania, Europe, Asia and Africa as well as in North America beyond the borders of Mormon Utah. They also address numerous concerns within a multinational, multicultural church: What does it mean to be a Latter-day Saint in different world regions? What is the faith's appeal to converts in these places? What are the peculiar problems for members who must manage Mormon identities in conjunction with their different national, cultural and ethnic identities? How are leaders dealing with such issues as the status of women in a patriarchal church, the treatment of LGBTQ members, increasing disaffiliation of young people and decreasing growth rates in North and Latin America while sustaining increasing growth in parts of Asia and Africa?

Diversity K. April, M. Shockley, 2006-11-28. This unique collection of papers from authors whose experience and nationalities are themselves diverse captures intellectual and personal reflections on diversity. The authors offer unique perspectives into diversity on an individual level as well as the experiential challenges of implementing diversity programs at the country, public sector, company and civil society levels. In doing so, the book identifies a variety of elements that define a multi-faceted reality that is at once contradictory, deeply personal, artistic, emotionally evocative and intellectually stimulating.

BARKER,2024-10-31 John Paul II and Benedict XVI Jeremiah Barker argues share the theological ethical and spiritual core of Pope Francis social teaching Reappropriating R R Reno s redemption of Francis cogent argument Barker draws out the underlying rationale of Francis message which he

argues is identical to the two previous popes Inspired by Francis call and teaching Barker s compelling argument is an opportunity to reconsider the legacies of John Paul II and Benedict XVI in the light of contemporary Catholic debates and challenges A unique and refreshing analysis Barker s argument is relevant for any Catholic seeking to make sense of these popes messages

Science and Religion J.W. Fennema, Paul Iain, 2012-12-06 The world is increasingly becoming one It is at the same time one endangered ecosystem and one thriving market place with material and spiritual goods on competitive display And the good and evil things of life cannot easily be sorted out The world is becoming one also in the sense that it is better understood today than it was in earlier times that the material good and the spiritual good though seemingly belonging to different realms of fact defined by their respective modes of existence together constitute effectively one and the same reality the modern world of science technology computerized administration and power that calls upon humankind to struggle for a just participatory and sustainable society and to strive for a society of the future that will be the world over both long lived and worth living The Second European Conference on Science and Religion held on 10-13th March 1988 on the campus of the Universiteit Twente Enschede The Netherlands was meant to be a modest market place a forum where standpoints and opinions could be presented and criticized It was meant to offer an opportunity to meet and to make acquaintances in the expectation that the exchange of thoughts would lead to new conceptual horizons that would challenge what so far had been considered as hard fact or what until now had been looked upon as a distinctive feature of a well established view either of the kingdom of the sciences or of the realm of religion

Energising Networks Eelke Wielinga, Sjoerd Robijn, 2023-09-14 Society is going through a transition period that is at least as profound as the Enlightenment at the end of the 18th century It is a transition that makes people look differently at each other and at the world In the terminology of Otto Scharmer ego consciousness is being replaced by eco consciousness people will understand that their faith depends on one another and on the eco systems they are part of This will not occur without a whole lot of trouble but it will happen This book by Eelke Wielinga and Sjoerd Robijn is an inspirational contribution to understanding what is going on Firstly because their vision on networks as living organisms and the energy people experience when they are part of such networks is explained in a clear and scientific way Secondly because the authors have developed a methodology to navigate on this energy in everyday practice The wingspan of the big story and the concrete application in what you experience in your own practice is what makes this book extraordinary I recommend this book to anyone who makes efforts to make a world that can be handed over with confidence to future generations by Prof Herman Wijffels former CEO RABO Bank and Dutch representative on the World Bank management board

Cosmic Chastity in an Age of Technocratic Lust: A Song of Three Popes Jeremiah Barker, 2023-04-12 This book arises from the conviction that the ways in which John Paul II and Benedict XVI were confused as allies with American conservatism is as misleading unclear and confusing as any misapprehension of Francis s genuine orthodoxy As the author does not have a stake in reacting against a liberal Catholicism that he sees dying out anyway the bigger threat in his view sociologically for the North American church is falling into a right wing tribalism and Francis resists precisely that First Things editor R R Reno highly critical of Francis has called for a redemption of hints and suggestions of a cogent argument in the Francis message Jeremiah Barker reappropriates Reno s call as a call to draw out or highlight what he takes to be the underlying rationale of the Francis message That underlying rationale he compellingly argues is strikingly identical to that of the two previous popes Barker who has learned much from Reno is in fact inspired by Francis s call and teaching and it is the aim of this book to draw out what inspires him and to identify what he hopes Reno and fellow John Paul II Catholics don t miss in the Francis message the theological ethical and spiritual core of his social teaching which Francis shares with that of John Paul II and Benedict XVI
