In contemporary American Christianity the history of the church is often neglected While the churches of the Lutheran Reformation have not neglected their own historical roots in the sixteenth century they have sometimes forgotten the unique history of the American Lutheran Church In this monumental work J L Neve gives an expansive history of the Lutheran Church in America through the beginning of the twentieth century He introduces each of the major and minor American Synods and outlines various differences in theology and polity He also gives brief biographical information on all the significant figures in each American Synod While Neve s own theological positions are made apparent in the book he is fair and sympathetic to those with whom he disagrees This book is an essential read for anyone interested in the history of the Lutheran Church in the United States *A History of the Evangelical Lutheran Church in the United States (Classic Reprint)* Henry Eyster Jacobs,2016-09-08 Excerpt from A History of the Evangelical Lutheran Church in the United States

Lutheranism is a specific form Of Christian life The propriety Of the name as a designation Of that form Of life is not for us to determine Apart from our Willingness or unwillingness to assume it it has become a fixed term for a definite and well known Object As religion is not mere intellectualism or mere sentiment or mere activity so Lutheranism as a form of the only true religion Christian ity is far more than a system of doctrines or a mode Of worship or a form of Church organization The Spirit of a Church is always greater and deeper than its expression its faith is always greater than its confession Lutheran ism is a mode Of viewing and receiving and living the truths Of Christianity or rather of viewing and receiving and living in mystical union with Him who is the begin ning and end Of all these truths The peculiarities which mark its relation to Christ determine peculiarities With respect to other Objects The principles underlying the doctrinal position reappear in the spheres Of ethics and liturgics Of homiletics and Church government Even the faith Of a great sculptor or a great musical composer will express itself in a different way according to the peculiar ities of the confession by which his religious life has been nourished and trained Everything that enters into the religious life or that proceeds from it is molded and col ored by the specific form which that life assumes About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books Find more at www.forgottenbooks.com This book is a reproduction of an important historical work Forgotten Books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing
