Blatchford's 'Merrie England']*. Nemo (pseud), 1895 *Literature and the Idea of Luxury in Early Modern England* Alison V. Scott, 2016-05-06 Exploring the idea of luxury in relation to a series of neighboring but distinct concepts including avarice excess licentiousness indulgence vitality abundance and waste this study combines intellectual and cultural historical methods to trace discontinuities in luxury s conceptual development in seventeenth century England The central argument is that as luxury was gradually Englished in seventeenth century culture it developed political and aesthetic meanings that connect with eighteenth century debates even as they oppose their so called demoralizing thrust Alison Scott closely examines the meanings of luxury in early modern English culture through literary and rhetorical uses of the idea She argues that while luxury could and often did denote merely lust or licentiousness as it tends to be glossed by modern editors of contemporary works its cultural lexicon was in fact more complex and fluid than that at this time Moreover that fuller understanding of its plural and shifting meanings as they are examined here has implications for the current intellectual history of the idea in Western thought The

existing narrative of luxury's conceptual development is one of progressive upward transformation beginning with the rise of economic liberalism amidst eighteenth century debates it is one that assumes essential continuity between the medieval treatment of luxury as the sin of luxuria and early modern notions of the idea even as social practises of luxury explode in early seventeenth century culture

Real Interior Nthabi Taukobong,2019-05-01 In my own home is where my journey of healing began NTHABI TAUKOBONG The Real Interior not only allows the reader a behind the scenes peek into the glitz and glamour of design and decor but into a career once never considered an option for a young girl born in Soweto As one of the first black and very recognisable faces of Interior Design in Africa Nthabi Taukobong was thrust into the limelight from the very start of her profession Spanning a career of more than 23 years she has worked on esteemed residential and leisure projects for presidents African royalty captains of industry and five star hotels to name but a few Through the rough and often very challenging terrain of her chosen career sprinkled generously with the high end glamour of prestigious interiors that Nthabi has been privileged to work on she learned that she in fact had to be seated right within her own interior before she could offer anything further to those in search of her creative gift And as she searched and explored the greater world of design trying to grasp what it really took to be an esteemed designer the journey unexpectedly brought her right back into her own home Not only Nthabi's physical home but also to her inner home the place that she refers to as her real interior It was in writing a letter one evening congratulating herself on reaching the milestone of 21 years in her career that Nthabi discovered she was not only writing to herself but to every creative Her letter ended up being an entire book and Nthabi finally understood how her unique story could inspire and encourage others

The Architecture of Luxury Annette Condello, 2016-03-16 Over the past century luxury has been increasingly celebrated in the sense that it is no longer a privilege or attitude of the European elite or America's leisure class. It has become more ubiquitous and now practically everyone can experience luxury even luxury in architecture. Focusing on various contexts within Western Europe Latin America and the United States this book traces the myths and application of luxury within architecture interiors and designed landscapes. Spanning from antiquity to the modern era it sets out six historical categories of luxury Sybaritic Lucullan architectural excess rustic neoEuropean and modern and relates these to the built and unbuilt environment taking different cultural contexts and historical periods into consideration. It studies some of the ethical questions raised by the nature of luxury in architecture and discusses whether architectural luxury is an unqualified benefit or something which should only be present within strict limits. The author argues how the ideas of permissible and impermissible luxury have informed architecture and how these notions of ethical approval have changed from one context to another. Providing voluptuous settings for the nobles and the leisure class luxury took the form of not only grand palaces but also follies country and suburban houses private or public entertainment venues and ornate skyscrapers with fast lifts. The Architecture of Luxury proposes that in Western societies the growth of the leisure classes and their desire for various settings for pleasure resulted in a constantly increasing level of luxury sought within everyday architecture.
