Lwf Tariqs Challenge:

The Islamic Challenge Jytte Klausen, 2005-10-27 The voices in this book belong to legislators local officials doctors and engineers educators and intellectuals lawyers and social workers owners of small businesses translators and community activists They are also all Muslims who have decided to become engaged in political and civic organizations And for that reason they constantly have to explain themselves mostly in order to say who they are not They are not fundamentalists not terrorists and most do not support the introduction of Islamic religious law in Europe especially not its application to Christians This book is about who these people are and what they want This book is based on three hundred interviews with European Muslim leaders from six European countries Sweden Denmark the Netherlands Great Britain France and Germany The question of Islam in Europe is not a matter of global war and peace but raises difficult questions about the positions of Christianity and Islam in public life and about European identities There is not one Muslim position on how Islam should develop in Europe but many views and most Muslims are rather looking for ways to build institutions that will allow European Muslims to practice their religion in a way that is compatible with social integration **Social Movements and**

Interpretations of Jihad in South Asia Tariq Rahman,2020-09-07 In the wake of radical Islamist terrorist attacks described as jihad worldwide and in South Asia it is imperative that there should be a book length study of this idea in this part of the world The focus of the study is the idea of jihad with its changing interpretations mostly those available in exegetical literature of key figures in South Asia The hermeneutic devices used to understand the meaning of the Quranic verses and the Prophetic traditions relating to jihad will be the focus of this study The main thrust of the study is to understand how interpretations of jihad vary It is seen as being both defensive and aggressive by traditionalists only defensive and mainly about moral improvement by progressive Muslims and being insurrectionist aggressive eternal and justifying violence against civilians by radical Islamists One purpose of the book is to understand how the radical interpretation came to South Asia The book also explains how theories about jihad are influenced by the political and social circumstances of the period and how these insights feed into practice legitimizing militant movements called jihad for that period
