Ma' Betisek Concepts of Living Things Wazir-Jahan Karim,2020-08-20 The Ma Betisek are a group of aborigines who live on the mangrove coastal area of Selangor in peninsular Malaysia Dr Karim s study is mainly focused on the Ma Betisek communities on Carey Island off the west coast of Selangor and in particular three villages Sungei Sialang Sungei Mata and Sungei Bumbun Few changes have taken place in the lives of the Betisek people on the island since 1975 On the mainland the Ma Betisek are busy keeping pace with development and modern life However despite increasing deforestation and new urban influences on the island the Carey Island communities continue to preserve their naturistic ideas of how humans should live with plants and animals Dr Karim s research focuses on this issue

Gendered Fields Diane Bell,Pat Caplan,Wazir Jahan Karim,2013-07-23 Virtually all anthropologists undertaking fieldwork experience emotional difficulties in relating their own personal culture to the field culture The issue of gender arises because ethnographers do fieldwork by establishing relationships and this is done as a person of a particular age sexual orientation belief educational background ethnic identity and class In particular it is done as men and women Gendered Fields examines and explores the progress of feminist anthropology the gendered nature of fieldwork itself and the articulation of gender with other aspects of the self of the ethnographer

Malaysia's Original People Kirk Endicott,2015-11-27 The Malay language term for the indigenous minority peoples of Peninsular Malaysia Orang Asli covers at least 19 culturally and linguistically distinct subgroups This volume is a comprehensive survey of current understandings of Malaysia s Orang Asli communities including contributions from scholars within the Orang Asli community looking at language archaeology history religion and issues of education health and social change as well as questions of land rights and control of resources Until about 1960 most Orang Asli lived in small camps and villages in the coastal and interior forests or in isolated rural areas and made their living by various combinations of hunting gathering fishing agriculture and trading forest products By the end of the century logging economic development projects such as oil palm plantations and resettlement programmes have displaced many Orang Asli communities and disrupted long established social and cultural practices The chapters in the present volume show Orang Asli responses to the challenges posed by a rapidly changing world The authors also highlight the importance of Orang Asli studies for the anthropological understanding of small scale indigenous societies in general

Modernity and Malaysia Alberto Gomes,2007-05-16 Bringing together the results of over twenty five years of research on the indigenous peoples of Malaysia this fascinating book illustrates the experiences of modernity in indigenous communities through a detailed case study of the Rual Menraq of Malaysia

Citizens, Civil Society and Heritage-Making in Asia Hsin-Huang Michael Hsiao,2018-02-14 This volume is based on papers from the second in a series of three conferences that deal with the multi scalar processes of heritage making ranging from the local to the national and international levels involving different players with different degrees of agency and interests These players include citizens and civil society the state and international

organizations and actors The current volume focuses on the role of citizens and civil society in the politics of heritage making looking at how these players at the grass roots level make sense of the past in the present Who are these local players that seek to define the meaning of heritage in their everyday lives How do they negotiate with the state or contest the influence of the state in determining what their heritage is These and other questions will be taken up in various Asian contexts in this volume to foreground the local dynamics of heritage politics *Sacrifice and Sharing in the Philippine Highlands* Thomas P. Gibson,2021-03-10 This book is about the relationship between the Buid value system and their history of resistance to the lowland world Staging Indigenous Heritage Yunci Cai,2020-08-12 Staging Indigenous Heritage examines the cultural politics of four Indigenous cultural villages in Malaysia Demonstrating that such villages are often beset with the politics of brokerage and representation the book shows that this reinforces a culture of dependency on the brokers By critically examining the relationship between Indigenous tourism and development through the establishment of Indigenous cultural villages the book addresses the complexities of adopting the culture for development paradigm as a developmental strategy Demonstrating that the opportunities for self representation and self determination can become entwined with the politics of brokerage and the contradictory dualism of culture it becomes clear that this can both facilitate and compromise their intended outcomes Challenging the simplistic conceptualisation of Indigenous communities as harmonious and unified wholes the book shows how Indigenous cultures are actively forged struggled over and negotiated in contemporary Malaysia Confronting the largely positive rhetoric in current discourses on the benefits of community based cultural projects Staging Indigenous Heritage should be essential reading for academics and students in the fields of museum studies cultural heritage studies Indigenous studies development studies tourism anthropology and geography The book should also be of interest to museum and heritage professionals around the world **Ritual and Religious Belief** Graham Harvey,2017-07-28 The study of ritual and how it relates to beliefs and ideas is of central importance in our understanding of the world Rituals can become divorced from beliefs and religious believers regarded as simply going through the motions Ritual and Religious Belief A Reader presents the full range of scholarly thinking on ritual and ritualizing as they relate to belief It questions the assumption that belief should take precedence over outward behaviour and engages with questions such as how are rituals related to performance are politics ritualized and is there a difference between rituals and etiquette This comprehensive volume brings together material by eminent scholars from across the centuries ranging from Martin Luther s sacramental dialogues to the life and routine patterns of Zen Buddhist Temples and the relationship between magic religion and science It will be of interest to all those engaged in the study of the dynamics between ritual and belief Evolution and the Human Mind Peter Carruthers,Andrew Chamberlain,2000-11-02 This volume of essays offers an interdisciplinary examination of the evolution of the human mind *Male and Female in Developing South-East Asia* Karim Wazir Wazir,2021-03-10 This provocative book seeks to redress inaccuracies in Western perceptions of gender relations in Southeast Asia by bringing to

the fore the area s ethnic and cultural variance and showing how women and men explain the informal and psychological dimensions of relationships as vital in holding family neighbourhood and kinship ties together Although there are differences between male and female perceptions of sex roles in society women perceive their situation as disadvantaged rather than less significant Male female interpretations of power and status tend to converge usually towards the understanding that the contributions of men and women are equally important in the formation of family and society
