A City Consumed Nancy Reynolds, 2012-07-11 Though now remembered as an act of anti colonial protest leading to the Egyptian military coup of 1952 the Cairo Fire that burned through downtown stores and businesses appeared to many at the time as an act of urban self destruction and national suicide The logic behind this latter view has now been largely lost Offering a revised history Nancy Reynolds looks to the decades leading up to the fire to show that the lines between foreign and native in city space and commercial merchandise were never so starkly drawn Consumer goods occupied an uneasy place on anti colonial agendas for decades in Egypt before the great Cairo Fire Nationalist leaders frequently railed against commerce as a form of colonial captivity yet simultaneously expanded local production and consumption to anchor a newly independent economy Close examination of struggles over

dress and shopping reveals that nationhood coalesced informally from the conflicts and collaboration of consumers from below as well as more institutional and prescriptive mandates

Diaspora and Memory ,2016-08-01 Experiences of migration and dwelling in displacement impinge upon the lives of an ever increasing number of people worldwide with business class comfort but more often with unrelenting violence Since the early 1990s the political and cultural realities of global migration have led to a growing interest in the different forms of diasporic existence and identities The articles in this book do not focus on the external boundaries of diaspora what is diasporic and what is not but on one of its most important internal boundaries which is indicated by the second term in the title of this book memory It is not by chance that the right to remember the responsibility to recall are central issues of the debates in diasporic communities and their relation to their cultural and political surroundings The relation of diaspora and memory contains important critical and maybe even subversive potentials Memory can transcend the territorial logic of dispersal and return and emerge as a competing source of diasporic identity The articles in this volume explore how shaped by the responsibilities of testimony as well as by the normalizing forces of

amnesia and forgetting and political interests memory is a performative figurative process rather than a secure space of identity
