Aten,David M. Boan,2016-02-05 Is your church prepared to respond if natural disaster or human tragedy strikes your community Jamie Aten and David Boan codirectors of the Humanitarian Disaster Institute provide this practical guide for disaster preparedness filled with resources for emergency planning and crisis management plus best practices for local congregations Humanitarian Crises Jennifer Leaning,Susan M. Briggs,Lincoln C. Chen,1999 Since the late 1980s the international relief community has seen its resources stressed beyond capacity by humanitarian crises Covering topics from emergency public health measures to the psychological trauma of relief workers this volume presents a seasoned assessment of current practice and proposals for improving operational efforts Bioterrorism with CD-ROM Robert J. Ursano,Ann E. Norwood,Carol S. Fullerton,2004-06-17 In addition to planning and pre disaster exercises essential for allocating resources and devising effective mental health interventions this book also includes two CDs showing an international panel of experts discussing how best to plan for a

bioterrorist event Although only twelve people died after the sarin gas attack on the Tokyo subway system in 1995 more than five thousand sought medical care for the effects of possible exposure Bioterrorism can create chaos and disruption on a national and international scale Moreover it is believed to incur the most devastating psychological sequelae of all disasters

Care of Children Exposed to the Traumatic Effects of Disaster Jon A. Shaw,Zelde Espinel,James M. Shultz,2012 The psychological consequences of disasters for children are often slighted in disaster management Children are uniquely vulnerable as they are still maturing physically emotionally cognitively and socially Mental health and psychosocial support services are typically overlooked delayed and or haphazard during response and recovery efforts All too often children and families usually have limited access to mental health treatment services once the emergency is past Care of Children Exposed to the Traumatic Effects of Disaster is designed to provide professional and volunteer disaster responders including community members who routinely interact with children with the tools they need to support intervene and identify children who need additional help overcoming the traumatic effects of extreme events The authors are experts in psychiatry and public health and not only understand the psychological responses to trauma and disaster but know what to do to mitigate them The book is eloquently and compassionately written and the authors succeed in both communicating their vision and teaching the practical techniques readers need to realize it This is an indispensable book for an unpredictable world

Global Mental Health Ethics Allen R. Dyer,Brandon A. Kohrt,Philip J. Candilis,2021-05-22 This volume addresses gaps in the existing literature of global mental health by focusing on the ethical considerations that are implicit in discussions of health policy In line with trends in clinical education around the world today this text is explicitly designed to draw out the principles and values by which programs can be designed and policy decisions enacted It presents an ethical lens for understanding right and wrong in conditions of scarcity and crisis and the common controversies that lead to conflict Additionally a focus on the mental health response in post conflict settings provides guidance for real world matters facing clinicians and humanitarian workers today Global Mental Health Ethics fills a crucial gap for students in psychiatry psychology addictions public health geriatric medicine social work nursing humanitarian response and other disciplines

Training Manual for Human Service Workers in Major Disasters Norman L. Faberow,1999-06 This Manual represents a first effort to produce a training instrument to be used in the development of an effective response to the emotional problems which may occur when a major disaster disrupts the functioning of individuals families and communities It discusses the principles and techniques of crisis intervention which aim to relieve current emotional stress and to forestall or diminish future emotional difficulties This Manual includes techniques which have been developed from thousands of emergency calls to a Suicide Prevention Center and have been adapted to the kinds of problems which are caused by major disasters The Praeger Handbook of Veterans' Health Thomas W.
