Esoteric Catholicism / Esoterischer Katholizismus Viktoria Vitanova-Kerber,Helmut Zander,2025-05-06 Catholicism and esotericism seem to have hostile relations but in fact the opposite is true In both traditions we find stigmata revelations visions magic spiritualistic contacts We explore which are the theological and sociological concepts which make this possible The porous transfer zone between orthodox theology and heretical ideas is central For example the legitimating structure of scripture and tradition allowed for the integration of religious practices that did not originate in Christianity or justified revelations apart from the Bible This kept groups within the church which in Protestantism were often eparated and thus

hardly noticed by researchers This means for religious studies to revise the strongly Protestant boundary work to determine the demarcation lines of a Christian orthodoxy and thereby to redefine the role of spiritualistic theologies Catholicism is characterized here by a border landscape in which esoteric ideas were flexibly adapted and in which one often renounced the definition of a precise eliminatory boundary line
