The Canadian Economic Culture

Canada takes one contradiction in its teeth but has its tail bitten off by another ■ ... what we are most in need of in Canada is ideological liveliness ■ Public enterprise is indigenous to the Canadian demography ■ It is exactly because we were the losers of the American Revolution that we can now become winners of a Canadian one ■ Labour and community cannot be allowed to move freely to capital; capital must move to labour and community ■ Life, liberty and the pursuit of regional equality ... liberty, fraternity, regional equality ■ To get at the Canadian circumstance ... is above all to see the country in terms of its contradictions ■ The American-ideology-in-Canada, with all of its phantasmagoric potency, stands Canadian reality on its head ■ No nation ever grew up more absurd, and is taking so long to grow out of its absurdity ■ Something inherent to the very spirit and definition of free enterprise proved to be the ultimate folly — competition. Was there ever any point to it here? ■ There is ... nothing less provincial than the Canadian mainstream, once it unhooks itself from its colonial chastity belt ■ Canada, in its essentials, is a public enterprise country, always has been, and probably always will be ... Canadians have a genius for public enterprise ■ The efficiency is in the culture, not in the counting house ■ Giving concrete form to what is least conservative and most adventurous about us is what public enterprise in Canada is all about ■ Monopoly is the economic model. Monopoly suits us, and always has ■ Let a thousand crown corporations bloom. Let a thousand public enterprises contend. But not in the same market ■ "The price of being a Canadian" is really the price we pay for being Americans-in-Canada ■ The Canadian public enterprise culture and the redistribution culture unite into a momentous aptitude for egalitarianism.

Nation Unaware:

A Nation Unaware Herschel Hardin, 1974 *Voices in Revolution* John A. Crespi, 2009-07-29 China's century of revolutionary change has been heard as much as seen and nowhere is this more evident than in an auditory history of the modern Chinese poem From Lu Xun's seminal writings on literature to a recitation renaissance in urban centers today poetics meets politics in the sounding voice of poetry Supported throughout by vivid narration and accessible analysis *Voices in Revolution* offers a literary history of modern China that makes the case for the importance of the auditory dimension of poetry in national revolutionary and postsocialist culture Crespi brings the past to life by first examining the ideological changes to poetic voice during China's early twentieth century transition from empire to nation He then traces the emergence of the spoken poem from the May Fourth period to the present including its mobilization during the Anti Japanese War its incorporation into the student protest repertoire during China's civil war its role as a conflicted voice of Mao era revolutionary passion and finally its current adaptation to the cultural life of China's party guided market economy *Voices in Revolution* alters the way we read by moving poems off the page and into the real time and space of literary activity To all readers it offers an accessible yet conceptually fresh and often dramatic narration of China's modern literary experience Specialists will appreciate the book's inclusion of noncanonical texts as well as its innovative interdisciplinary approach

Medicine Unbundled Gary Geddes, 2017-02-15 We can no longer pretend we don't know about residential schools murdered and missing Aboriginal women and Indian hospitals The only outstanding question is how we respond Tom Sandborn Vancouver Sun A shocking exposé of the dark history and legacy of segregated Indigenous health care in Canada After the publication of his critically acclaimed 2011 book *Drink the Bitter Root* A Writer's Search for Justice and Healing in Africa author Gary Geddes turned the investigative lens on his own country embarking on a long and difficult journey across Canada to interview Indigenous elders willing to share their experiences of segregated health care including their treatment in the Indian hospitals that existed from coast to coast for over half a century The

memories recounted by these survivors from gratuitous drug and surgical experiments to electroshock treatments intended to destroy the memory of sexual abuse are truly harrowing and will surely shatter any lingering illusions about the virtues or good intentions of our colonial past Yet this is more than just the painful history of a once so called vanishing people a people who have resisted vanishing despite the best efforts of those in charge it is a testament to survival perseverance and the power of memory to keep history alive and promote the idea of a more open and just future Released to coincide with the Year of Reconciliation 2017 *Medicine Unbundled* is an important and timely contribution to our national narrative

Religion, Identity and Human Security Giorgio Shani, 2014-04-03 *Religion Identity and Human Security* seeks to demonstrate that a major source of human insecurity comes from the failure of states around the world to recognize the increasing cultural diversity of their populations which has resulted from globalization Shani begins by setting out the theoretical foundations dealing with the transformative effects of globalization on identity violence and security The second part of the volume then draws on different cases of sites of human insecurity around the globe to develop these ideas examining themes such as securitization of religious symbols retreat from multiculturalism rise of exclusivist ethno religious identities post 9 11 state religion colonization and the racialization of migration Highlighting that religion can be a source of both human security and insecurity in a globalizing world Shani offers a critical human security paradigm that seeks to de secularize the individual by recognizing the culturally contested and embedded nature of human identities The work argues that religion serves an important role in re embedding individuals deracinated from their communities by neo liberal globalization and will be of interest to students of International Relations Security Studies and Religion and Politics
