Russian Politics and Society Richard Sakwa, 2020-08-16 Fully revised and updated to reflect the considerable changes in Russia over the last decade the fifth edition of this classic text builds on the strengths of previous editions to provide a comprehensive and sophisticated analysis of Russian politics and society The new edition incorporates the latest debates about Russian politics analysing recent institutional and political developments and examines the electoral cycle and prospects of the president elected at the end of the process New to this edition an evaluation of Putin's leadership and the country's political performance under him updated election results and demographic social ethnic national statistics to include results of the 2010 census changes in the party system to electoral legislation and to the composition of parliament as well as the relationship between the executive and legislature coverage of the constitutional changes and governmental appointments under the various prime ministers more analysis of economic performance including discussion of the energy sector and pipeline politics changes in Russian foreign policy since EU enlargement its relationship with NATO since the reset as well as its relations with post Soviet states assessment of the

military reforms and security and defence policy debates over the question of democracy in Russia today the nature of the system and its future prospects Written in an accessible and lively style this book is packed with detailed information on the central debates and issues in Russia's difficult transformation An unrivalled textbook on the subject it is essential reading for all those concerned with the fate of Russia and with the future of international society *The Capitalist Transformation of State Socialism* David Lane, 2013-11-20 David Lane outlines succinctly yet comprehensively the development and transformation of state socialism While focussing on Russia and the countries of Eastern Europe he also engages in a discussion of the Chinese path In response to the changing social structure and external demands he outlines different scenarios of reform He contends that European state socialism did not collapse but was consciously dismantled He brings out the West's decisive support of the reform process and Gorbachev's significant role in tipping the balance of political forces in favour of an emergent ascendant class In the post socialist period he details developments in the economy and politics He distinguishes different political and economic trajectories of countries of the former USSR the New Member States of the European Union and China and he notes the attempts to promote further change through coloured revolutions The book provides a detailed account not only of the unequal impact of transformation on social inequality which has given rise to a privileged business and political class but also how far the changes have fulfilled the promise of democracy promotion wealth creation and human development Finally in the context of globalisation the author considers possible future political and economic developments for Russia and China Throughout the author a leading expert in the field brings to bear his deep knowledge of socialist countries draws on his research on the former Soviet Union and visits to nearly all the former state socialist countries including China **Rebellious Civil Society** Grzegorz Ekiert, Jan Kubik, 2010-08-04 Poland is the only country in which popular protest and mass opposition epitomized by the Solidarity movement played a significant role in bringing down the communist regime This book the first comprehensive study of the politics of protest in postcommunist Central Europe shows that organized protests not only continued under the new regime but also had a powerful impact on Poland's democratic consolidation Following the collapse of communism in 1989 the countries of Eastern Europe embarked on the gargantuan project of restructuring their social political economic and cultural institutions The social cost of these transformations was high and citizens expressed their discontent in various ways Protest actions became common events particularly in Poland In order to explain why protest in Poland was so intense and so particularized Grzegorz Ekiert and Jan Kubik place the situation within a broad political economic and social context and test it against major theories of protest politics They conclude that in transitional polities where conventional political institutions such as parties or interest groups are underdeveloped organized collective protest becomes a legitimate and moderately effective strategy for conducting state society dialogue The authors offer an original and rich description of protest movements in Poland after the fall of communism as a basis for developing and testing their ideas They highlight the organized and moderate character of the

protests and argue that the protests were not intended to reverse the change of 1989 but to protest specific policies of the government This book contributes to the literature on democratic consolidation on the institutionalization of state society relationship and on protest and social movements It will be of interest to political scientists sociologists historians and policy advisors Grzegorz Ekiert is Professor of Government Harvard University Jan Kubik is Associate Professor of Political Science Rutgers University

Azeri Women in Transition Dr Farideh Heyat Nfa, 2014-03-05 First book length treatment of Muslim Soviet Women Cross disciplinary gender and women s studies anthropology Central Asia and Caucasus Suitable for both undergraduate and postgraduate level Offers a new dimension for specialists on gender relations in Tsarist Russia and the Soviet Union where previous work has mostly had a Russian perspective For Middle East specialists provides insights into a region closed to researchers and its non soviet neighbours for much of the 20th century

The Geography of Nationalism in Russia and the USSR Robert J. Kaiser, 2017-03-14 The Geography of Nationalism in Russia and the USSR is an important addition to the small library of essential works on the collapse of the Soviet empire The first attempt to construct and test broad theoretical propositions about place and territoriality in the making of nations it examines the critical social processes underlying the formation of nations and homelands in Russia and the USSR during the nineteenth and twentieth centuries Robert Kaiser finds that for the most part national self consciousness was only beginning to supplant a localist mentality by the time of World War I The national problem faced by Lenin was fundamentally different from the more difficult nationalist challenge that confronted Gorbachev In Kaiser s place based theory the homeland once created in the imaginations of the indigenous masses powerfully structured national processes and international relations Indigenization from below became an active competitor with nationality policies that promoted Russification resulting in the restructuring of ethnic stratification to favor indigenes in their own respective home republics and to challenge Russian dominance outside Russia The revolutionary changes occurring since 1989 Kaiser argues should therefore be seen as part of a longer process of indigenization Originally published in 1994 The Princeton Legacy Library uses the latest print on demand technology to again make available previously out of print books from the distinguished backlist of Princeton University Press These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905

The Baltic States Thomas Lane, Artis Pabriks, Aldis Purs, David J. Smith, 2013-11-05 Since the end of the Cold War there has been an increased interest in the Baltics The Baltic States brings together three titles Estonia Latvia and Lithuania to provide a comprehensive and analytical guide integrating history political science economic development and contemporary events into one account Since gaining their independence each country has developed at its own pace with its own agenda and facing its own obstacles The authors examine the tensions accompanying a post communist return to Europe after the long years of separation and how

each country has responded to the demands of becoming a modern European state Estonia was the first of the former Soviet republics to enter membership negotiations with the European Union in 1988 and is a potential candidate for the next round of EU expansion in 2004 Lithuania and Latvia have also expressed their desire for future membership of NATO and the EU

Latvia Artis Pabriks, Aldis Purs, 2013-03-07 The past one hundred years have been a very trying time for Latvia complete with success tragedy and still unrealized promise Within the course of a generation the country experienced revolutions wars and independent statehood and then the slide into authoritarianism World War II brought new occupations The tragedies were staggering holocaust executions and an exodus of refugees Soviet consolidation bred deportations forced collectivization and partisan warfare Almost fifty years later Latvia regained its independence and emerged from decades of disastrous Soviet rule This book comprehensively surveys Latvia's recent past and prospects for the new millennium placing contemporary events in historical perspective The authors address the evolution of the country from the movement against Soviet rule to the dilemmas of contemporary politics party formation the problem of corruption the quest for the future and a regional and international role the struggle to develop a civil society the issue of ethnic relations and the recurring tendency towards statist solutions Proper attention is also given to economic developments **The Soviet Union under Brezhnev**

William J. Tompson, 2014-07-30 The Soviet Union Under Brezhnev provides an accessible post Soviet perspective on the history of the USSR from the mid 1960s to the mid 1980s It challenges both the evil empire image of the USSR that was widespread in the early 1980s and the stagnation label attached to the period by Soviet reformers under Gorbachev The book makes use of a range of memoirs interviews archival documents and other sources not available before 1990 to place Brezhnev and his epoch in a broader historical context The author examines high politics foreign policy and policy making explores broader social cultural and demographic trends presents a picture of Soviet society in the crucial decades prior to the upheavals and crises of the late 1980s While stopping well short of a full scale rehabilitation of Brezhnev Tompson rejects the prevailing image of the Soviet leader as a colourless non entity drawing attention to Brezhnev's real political skills as well as his faults and to the systemic roots of many of the problems he faced **Elections and Democratization in**

Ukraine Sarah Birch, 2000-06-22 Elections and Democratization in Ukraine analyses the role of competitive elections in the Ukraine's crucial democratic transition period of 1989 to 1998 focusing on how Ukrainian voters make vote choices and which electoral cleavages are most important Contrary to those who claim that the Soviet Union left in its wake an atomized society with weak social divisions this study argues that the Ukrainian electorate has from the advent of competitive elections exhibited relatively stable voting behaviour Opening Pandora's Box: Ethnicity and Central Asian Militaries ,

Dissolution Edward W. Walker, 2003 In December 1991 the Soviet Union passed into history as a legal entity breaking apart into 15 successor states This clear and convincing book explains why It emphasizes the critical role of Soviet ethno federalism as well as the normative claims and legitimizing myths of Soviet nationality policy Institutional constraints and

legitimizing myths Walker argues empowered the anti union opposition even in republics where it had limited popular support He also shows how they helped bring about an outcome the full dissolution of the USSR that surprisingly few desired

Constructing Ethnopolitics in the Soviet Union D. Zisserman-Brodsky, 2003-07-03 The nationality question was long central to Soviet thought and policy and the failure to provide a convincing answer played a major role in the break up of the Soviet Union into ethnically or nationally defined states Zisserman Brodsky explores various explanations of nationalism and its resurgence through a close and unprecedented examination of dissident writings of diverse ethnic groups in the former Soviet Union thereby bridging macro theory with micro politics Dissident ethnic networks were a crucial independent institution in the Soviet Union and a basis of civil society Voicing the discontent and resentment of the periphery at the policies of the centre or metropole the dissident writings known as samizdat highlighted anger at deprivations imposed in the political cultural social and economic spheres Ethnic dissident writings drew on values both internal to the Soviet system and international as sources of legitimation they met a divided reaction among Russians with some privileging the unity of the Soviet Union and others sympathetic to the rhetoric of national rights This focus on national rather than individual rights helps explain developments since the fall of the Soviet Union including the prevalence of authoritarian governments in newly independent states of the former Soviet Union Educational Freedom in Eastern Europe Charles Leslie Glenn, 1994

The Rising Tide of Cultural Pluralism Crawford Young, 1993 Two decades after the publication of his prize winning book *The Politics of Cultural Pluralism* Crawford Young and a distinguished panel of contributors assess the changing impact of cultural pluralism on political processes around the world specifically in the former Soviet Union China United States India Ethiopia and Guatemala The result is an arresting look at the dissolution of the nation state system as we have known it Crawford Young opens with an overview of the dramatic rise in the political significance of cultural pluralism and of scholars changing understanding of what drives and shapes ethnic identification Mark Beissinger brilliantly explains the demise of the last great empire state the USSR while Edward Friedman notes growing challenges to the apparent cultural homogeneity of China Nader Entessar suggests intriguing contrasts in Azeri identity politics in Iran and the ex USSR Ronald Schmidt and Noel Kent explore the language and racial dimensions of the rising multicultural currents in the United States Douglas Spitz shows the extent of the decline of the old secular vision of India of the independence generation Alan LeBaron traces the recent emergence of an assertive Mayan identity among a submerged populace in Guatemala long thought to be destined for Ladinoization A case study of the diversity and uncertain future of Ethiopia dramatically emerges from four contrasting contributions Tekle Woldemikael looks at the potential cultural tensions in Eritrea Solomon Gashaw offers a central Ethiopian nationalist perspective Herbert Lewis reflects the perspectives of a restless and disaffected periphery and James Quirin provides an arresting explanation of the construction of identity amongst the Beta Israel Ethiopian Jews Virginia Sapiro steps back from specific regions offering an original analysis of the interaction between cultural pluralism and gender

Breaking Away from the Bear , **Breaking Away from the Bear** Dianne Louise Smith, 1998 Lieutenant Colonel
Dianne L Smith examines the development of post Soviet Central Asian armed forces Central Asian efforts to guarantee their national security and the implications for the United States of this struggle She cautions that the United States use its influence and its military to military contact programs judiciously This is a region of great instability with massive infusions of energy wealth just beyond the horizon If these states can create viable methods to ensure domestic and regional security this wealth may produce prosperity and secure well being for their citizens If these states fail to create institutions to preserve their national sovereignty the new century could presage long lingering chaos and waste on a grand scale One need only look south to Afghanistan for such a model
