This book helps to implement safe and effective natural medicine therapies to complement the current practice guidelines. Pharmacological Studies in Natural Oral Care is a comprehensive compilation and explores all the measures to utilize the natural oral care obtained from plants, animals, and mineral drugs for dental care. Herbal extracts are used in dentistry for reducing inflammation, as antimicrobial plaque agents for preventing the release of histamine, and as antiseptics, antioxidants, antimicrobials, antifungals, antibacterials, antivirals, and analgesics. They also aid in healing and are effective in controlling microbial plaque in gingivitis and periodontitis, thereby improving immunity.
