Natural Law And Human Dignity Studies In Contemporary German Social Thought:

Natural Law and Human Dignity Ernst Bloch, 1986 Ernst Bloch was one of the most original and influential of contemporary European thinkers leaving his mark in fields ranging from philosophy and social theory to aesthetics and theology This book represents a unique attempt to reconcile the traditional oppositions of the natural law and social utopian traditions providing basic insights into the meaning of human rights in a socialist society Civil Society and Political Theory Jean L. Cohen, Andrew Arato, 1994-03-29 In this first serious work on the theory of civil society to appear in many years Jean Cohen and Andrew Arato contend that the concept of civil society articulates a contested terrain in the West that could become the primary locus for the expansion of democracy and rights In this major contribution to contemporary political theory Jean Cohen and Andrew Arato argue that the concept of civil society articulates a contested terrain in the West that could become a primary locus for the expansion of democracy and rights Hannah Arendt Larry May, Jerome Kohn,1996 This collection of essays brings Arendt's work into dialogue with contemporary philosophical views **Deal for the World** Elizabeth Borgwardt, 2007-09-30 In a work of sweeping scope and luminous detail Elizabeth Borgwardt describes how a cadre of World War II American planners inaugurated the ideas and institutions that underlie our modern international human rights regime Borgwardt finds the key in the 1941 Atlantic Charter and its Anglo American vision of war Fate and Utopia in German Sociology, 1870-1923 Harry Liebersohn,1990-08-15 Fate and Utopia in and peace aims German Sociology provides a lucid introduction to a major sociological tradition in Western thought It is an intellectual history of five scholars Ferdinand T nnies Ernst Troeltsch Max Weber Georg Simmel and Georg Luk cs who created modern German sociology over the course of fifty years from 1870 to 1923 Liebersohn portrays his subjects as thinkers who were deeply immersed in the politics and poetry of their time and whose sociology benefited in unexpected ways from sources as diverse as medieval mysticism and Nietzsche's Birth of Tragedy He maps out their shared sociological discourse shaped in response to the fragmentation they perceived in public life in education and the arts and in Protestant religious life German sociology has generally been interpreted as having a tragic perspective on modern society as implied by the pervasive idiom of fate Liebersohn argues that this sense of fate was matched by an underlying utopian hope for an end to fragmentation rooted for all of his subjects in the Lutheran idea of community The book s five biographical chapters are structured to discuss ideas of community society and personality in the work of the individual discussed while there is a general movement among the chapters from community to society to socialism Many specific texts are discussed and the overall orientation is one of intellectual history rather than sociological analysis Modernity and the State Claus Offe, 1996 Clause Offe has contributed greatly to our understanding of social policy and the odyssey of advanced capitalism in the late 20th century Modernity and the State a dozen essays written over the last decade develops his earlier lines of interest and extends them to the new societies emerging in Central Eastern Europe Music in German Philosophy Stefan Lorenz Sorgner, Oliver

Fürbeth, 2011-01-15 Though many well known German philosophers have devoted considerable attention to music and its aesthetics surprisingly few of their writings on the subject have been translated into English Stefan Lorenz Sorgner a philosopher and Oliver F rbeth a musicologist here fill this important gap for musical scholars and students alike with this compelling guide to the musical discourse of ten of the most important German philosophers from Kant to Adorno Music in German Philosophy includes contributions from a renowned group of ten scholars including some of today s most prominent German thinkers all of whom are specialists in the writers they treat Each chapter consists of a short biographical sketch of the philosopher concerned a summary of his writings on aesthetics and finally a detailed exploration of his thoughts on music The book is prefaced by the editors original introduction presenting music philosophy in Germany before and after Kant as well as a new introduction and foreword to this English language addition which places contemplations on music by these German philosophers within a broader intellectual climate Postmetaphysical Thinking Jürgen Habermas, 1992 Considers the nature and future of philosophy in a post metaphysical age In the first part Habermas examines the legacy of Kant and assesses some recent attempts to return to metaphysical modes of thought In the second part he develops and defends the concepts of communicative reason The Semblance of Subjectivity Tom Huhn, Lambert Zuidervaart, 1997 The essays are organized around the twin themes of semblance and subjectivity Whereas the concept of semblance or illusion points to Adorno s links with Marx Nietzsche and Freud the concept of subjectivity recalls his lifelong struggle with a philosophy ofconsciousness stemming from Kant Hegel and Lukacs Human Rights, Inc. Joseph R. Slaughter, 2009-08-25 In this timely study of the historical ideological and formal interdependencies of the novel and human rights Joseph Slaughter demonstrates that the twentieth century rise of world literature and international human rights law are related phenomena Slaughter argues that international law shares with the modern novel a particular conception of the human individual The Bildungsroman the novel of coming of age fills out this image offering a conceptual vocabulary a humanist social vision and a narrative grammar for what the Universal Declaration of Human Rights and early literary theorists both call the free and full development of the human personality Revising our received understanding of the relationship between law and literature Slaughter suggests that this narrative form has acted as a cultural surrogate for the weak executive authority of international law naturalizing the assumptions and conditions that make human rights appear commonsensical As a kind of novelistic correlative to human rights law the Bildungsroman has thus been doing some of the sociocultural work of enforcement that the law cannot do for itself This analysis of the cultural work of law and of the social work of literature challenges traditional Eurocentric histories of both international law and the dissemination of the novel Taking his point of departure in Goethe s Wilhelm Meister Slaughter focuses on recent postcolonial versions of the coming of age story to show how the promise of human rights becomes legible in narrative and how the novel and the law are complicit in contemporary projects of globalization in colonialism neoimperalism humanitarianism and the spread of multinational consumer capitalism Slaughter

raises important practical and ethical questions that we must confront in advocating for human rights and reading world literature imperatives that today more than ever are intertwined System, Order, and International Law Stefan Kadelbach, Thomas Kleinlein, David Roth-Isigkeit, 2017-04-28 For many centuries thinkers have tried to understand and to conceptualize political and legal order beyond the boundaries of sovereign territories Their concepts deeply entangled with ideas of theology state formation and human nature form the bedrock of todays theoretical discourses on international law This volume engages with models of early international legal thought from Machiavelli to Hegel before international law in the modern sense became an academic discipline of its own The interplay of system and order serves as a leitmotiv throughout the book helping to link historical models to contemporary discourse Part I of the book covers a diverse collection of thinkers in order to scrutinize and contextualize their respective models of the international realm in light of general legal and political philosophy Part II maps the historical development of international legal thought more generally by distilling common themes and ideas such as the relationship between universality and particularity the role of the state the influence of power and economic interests on the law and the contingencies of time space and technical opportunities In the current political climate where it appears that the reinvigorated concept of the nation state as an ordering force competes with internationalist thinking the problems at issue in the classic theories point to contemporary questions is an international system without central power possible How can a normative order come about if there is no central force to order relations between states These essays show that uncovering the history of international law can offer ways in which to envisage its Critical Theory and Public Life John Forester, 1987 J rgen Habermas's critical communications theory of society has excited widespread interest in recent years. The essays in this book explore the research implications of Habermas s theory for the analysis of modern problems of public life Spanning the spectrum of the social sciences the essays relate critical theory to industrial policy under advanced capitalism education the mass media and consumerism public participation in planning policy analysis and critical historical studies John Forester is Associate Professor of City and Regional Planning at Cornell University Critical Theory and Public Life is included in the series Studies in Contemporary German Social Thought On Max Horkheimer Seyla Benhabib, Wolfgang Bonss, John McCole, 1993 This collection of edited by Thomas McCarthy essays by German and American scholars will help familiarize English speaking readers with the most important results of this recent work and in conjunction with a companion volume of Horkheimer's essays Between Philosophy and Social Science should provide a much fuller and deeper picture of his role in the history of modern social theory Max Horkheimer 1895 1973 one of the founders of critical theory and a sometime colleague of Herbert Marcuse Theodor Adorno and Walter Benjamin has become a subject of renewed attention and appreciation in Germany in the last decade This collection of essays by German and American scholars will help familiarize English speaking readers with the most important results of this recent work and in conjunction with a companion volume of Horkheimer's essays Between Philosophy and Social Science should

provide a much fuller and deeper picture of his role in the history of modern social theory *Criticism of Heaven* Roland Boer, 2007-07-30 This volume consists of a critical commentary on the interactions between Marxism and theology in the work of the major figures of Western Marxism It deals with the theological writings of Ernst Bloch Walter Benjamin Louis Althusser Henri Lefebvre Antonio Gramsci Terry Eagleton Slavoj i ek and Theodor Adorno In many cases their theological writings are dealt with for the first time in this book It is surprising how much theological material there is and how little commentators have dealt with it Apart from the critical engagement with the way they use theology the book also explores how their theological writings infiltrate and enrich their Marxist work The book has three parts Biblical Marxists Bloch and Benjamin Catholic Marxists Althusser Lefebvre Gramsci and Eagleton and the Protestant Turn i ek and Adorno
