## **Natural Law Timeline Poster:**

**The JFK Assassination Timeline Chart** Bruce Campbell Adamson, 1999      **Astrophilosophy, Exotheology, and Cosmic Religion** Andrew M. Davis, Roland Faber, 2024-01-22

**Astrophilosophy Exotheology and Cosmic Religion** Extraterrestrial Life in a Process Universe applies Alfred North Whitehead's process philosophy and the associated process philosophies of Henri Bergson, Teilhard de Chardin and others to the interdisciplinary layers of astrobiology, extraterrestrial life and the impact of discovery. This collection, edited by Andrew M. Davis and Roland Faber, asks questions such as: How have process thinkers imagined universal creative evolution and its implications for philosophies, theologies, and religions beyond earth? How might their claims as to the primacy of organism, temporality, novelty, value, and mind enrich current discussions and debates across disciplines? As experts in their fields, the contributors are informed by but not limited to process conceptualities. The chapters not only advance recent discussions in astrobiology, cosmology, and evolution but also consider a constellation of philosophical topics from shared extraterrestrial knowledge and values to the possibilities or limitations afforded by AI technology, the Fermi Paradox, the Drake Equation, and the increasing need to nurture the cosmic dimensions of theological and religious traditions.

**Mother Tongue Theologies** Darren J. N. Middleton, 2010-01-01

Recognizing that one third of the world's Christians practice their faith outside Europe and North America, the fourteen essays in *Mother Tongue Theologies* explore how international fiction depicts Christianity's dramatic movement South and East of Jerusalem, as well as North and West. Structured by geographical region, this collection captures the many ways in which people around the globe receive Christianity. It also celebrates postcolonial literature's diversity and highlights non-Western authors' biblical literacy, addressing how and why locally rooted Christians invoke Scripture in their pursuit of personal as well as social transformation. Featured authors include Fyodor Dostoevsky, Constantine Cavafy, Scott Cairns, Chinua Achebe, Madam Afua Kuma, Earl Lovelace, V. S. Reid, Ernesto Cardenal, Helena Parente Cunha, Arundhati Roy, Mary Martha Sherwood, Marguerite Butler, R. M. Ballantyne, Rudyard Kipling, Nora Okja Keller, Amy Tan, Albert Wendt, and Louise Erdrich. Individual essayists rightly come to different conclusions about Christianity's global character. Some connect missionary work with colonialism, as well as cultural imperialism, for example, and yet others accentuate how indigenous cultures amalgamate with Christianity's foreignness to produce mesmerizing multiple identities. Differences notwithstanding, *Mother Tongue Theologies* delves into the moral and spiritual issues that arise out of the cut and thrust of native responses to Western Christian presence and pressure. Ultimately, this anthology suggests the reward of listening for and to such responses, particularly in literary art, will be a wider and deeper discernment of the merits and demerits of post-Western Christianity, especially for Christians living in the so-called post-Christian West.

**Hopewell Ceremonial Landscapes of Ohio** Mark Lynott, 2015-02-05

Nearly 2000 years ago, people living in the river valleys of southern Ohio built earthen monuments on a scale that is unmatched in the archaeological record for small-scale societies. The period from c. 200 BC to c. AD 500

Early to Middle Woodland witnessed the construction of mounds earthen walls ditches borrow pits and other earthen and stone features covering dozen of hectares at many sites and hundreds of hectares at some The development of the vast Hopewell Culture geometric earthwork complexes such as those at Mound City Chillicothe Hopewell and the Newark earthworks was accompanied by the establishment of wide ranging cultural contacts reflected in the movement of exotic and strikingly beautiful artefacts such as elaborate tobacco pipes obsidian and chert arrowheads copper axes and regalia animal figurines and delicately carved sheets of mica These phenomena coupled with complex burial rituals indicate the emergence of a political economy based on a powerful ideology of individual power and prestige and the creation of a vast cultural landscape within which the monument complexes were central to a ritual cycle encompassing a substantial geographical area The labour needed to build these vast cultural landscapes exceeds population estimates for the region and suggests that people from near and possibly far travelled to the Scioto and other river valleys to help with construction of these monumental earthen complexes Here Mark Lynott draws on more than a decade of research and extensive new datasets to re examine the spectacular and massive scale Ohio Hopewell landscapes and to explore the society that created them **You Celebrate You** Carolyn M.
