Natural Reason Essays In Honor Of Joseph Norio Uemura:

Natural Reason Duane L. Cady, Ronald E. Beanblossom, 1992 **Universal Justice** Albert A. Anderson, 2021-11-29 The modern era was dominated by conflicts between claims to certainty about justice and denials that certainty is warranted The purpose of this book is to develop a postmodern alternative to both philosophies one which is universal without being absolutist The approach is dialectical in Plato's sense of that term Dialectic is both necessary and sufficient for the theoretical and the practical aspects of living The primary symbol in this book is the Athenian Socrates who spent his days in the Agora and his evenings in the houses of his friends the active professionals of the world's first democracy His questions were unabashedly philosophical concerned with the most urgent matters What is worth living for What is worth dying for Who is best suited to rule in the state How should young people be educated The nature of justice is closely connected with other questions of value so the discussion freely moves from that central focus to related matters with the primary goal of developing a dialectical philosophy that is both applicable to life and open to all Universal Justice is concerned with how to think about justice rather than what to think about justice **Forthcoming Books** Rose Arny, 1992-10 Paperbound Books in Print 1995 Reed Reference Publishing, Reference Reed, 1995-12 Dictionary of International Biography, 1995 A biographical record of contemporary achievement together with a key to the location of the original biographical notes
