## **Natural Resources And Sustainable Development In Himalaya:**

**Natural Resources and Sustainable Development in Himalaya** P. C. Tiwari,1995      Natural Resources and Development in Himalaya L. R. Verma,2000 The book entitled Natural Resources and Development in Himalaya is an outcome of experience and knowledge gained by the editor Prof L R Verma as a professional staff member in ICIMOD where studies on area based development of Himachal Pradesh were made in comparison with other parts of Hindu kush Himalaya

**Geoenviromental Hazards in Himalaya** Bindhy Wasini Pandey,2002      **Sustainable Natural Resource Management in the Himalayan Region** Roshan Man Bajracharya,Bishal K. Sitaula,Smriti Gurung,Nani Raut,2021 The greater Himalayan region stretching from Afghanistan in the west to Myanmar in the east is home to about a quarter of a billion people who greatly depend on available natural resources for their survival and livelihoods The ever increasing population pressure and changing climate have grave implications for the sustenance of human health and habitation in the foreseeable future The region is confronted with numerous challenges related to forest degradation land productivity disaster risk water management biodiversity loss erratic climatic patterns as well as socio political capacity The limits of arable land have essentially been reached while the need for enhancing production to sustain human nutritive requirements and livelihoods continues to increase Hence the intensification of agriculture has become a necessity rather than a choice Yet producing greater numbers of crops and quantities of food fiber and other materials on the same parcel of land runs the risk of degrading the soil fertility productivity and overall quality Therefore means to achieve this without irreversibly damaging the soil and land resource base have become imperative To this end agro forestry agro slivi pastoral systems and the adoption of a variety of regenerative crops soil and water management and conservation practices offer the potential to deliver multiple benefits without sacrificing the very resource upon which the human population depends The need for ecologically sound and sustainable management of natural resources in the Himalayan region as well as the adaptation of local communities to the impacts of climate change and measures for its mitigation cannot be over emphasized This book presents findings on approaches to sustainable land management and the intensification of agriculture and animal husbandry related to soil organic matter management and carbon sequestration for multiple benefits and the agroforestry as a crop diversification strategy with livelihood and climate mitigation adaptation benefits along with other aspects of forest biodiversity and water resources management The book deals with technical socio economic policy and biodiversity issues related to the sustainable use and management of natural resources namely forests soil land water crops animal husbandry and diversity of flora fauna as well as disaster risk and vulnerability of communities in the Himalayan region There is a continuing need to study and research approaches for harmonizing human needs and lifestyles with natural ecosystems and processes so that both may co exist in a mutually beneficial manner      *Wildlife in the Himalayan Foothills* P. C. Tiwari,Bhagwati Joshi,1997      **Mountain Tourism and Ecological Impacts: Himalayan Region and Beyond** Biswas,

Soumendra Nath,Kumar, Pradip,2024-03-27 The Himalayas with their grandeur and cultural richness magnetize global travelers searching for an escape from the ordinary However behind this allure lies an ecological responsibility and sustainability imperative Many involved with the tourism industry in mountainous regions have been confronting the stark realities of tourism s impact on these delicate ecosystems There is an urgency to address the challenges posed by climate change all while safeguarding the indigenous traditions that define the Himalayas Mountain Tourism and Ecological Impacts Himalayan Region and Beyond unravels the intricate connections between tourism development and its far reaching implications This comprehensive exploration delves deep into the heart of the Himalayan region and beyond shedding light on the diverse dimensions of mountain tourism and its profound impact on local environments communities and cultural heritage This book reveals the tapestry of tourism experiences found in the peaks and vistas of the Himalayas It delves into eco tourist s delicate dance with fragile ecosystems the coexistence of travelers and wildlife the exhilaration of adventure tourism and the spiritual pilgrimages that draw seekers from across the globe This book comprehensively explores the pivotal role of preserving local cultures and underscores this as a key element of conserving the pristine natural habitats This book is ideal for academics and researchers tourism professionals environmentalists and conservationists government and NGOs and travel enthusiasts      Environmental Sustainability from the Himalayas to the Oceans Shikui Dong,Jayanta

Bandyopadhyay,Sanjay Chaturvedi,2017-01-23 The book is written in the backdrop of the environmental impacts of and future requirements from the natural environment for rapid economic growth that has characterized recent economic history of China and India especially over the past few decades The environmental impacts of such rapid economic changes have been more frequently than otherwise degrading in character Environmental impacts of economic activities create degraded natural ecosystems by over utilization of nature s provisioning ecosystem services from Himalaya to the Ocean as well by the use of the natural environment as sink for dumping of unmarketable products or unused inputs of economic activities Such processes affect wide range of ecosystem processes on which the natural environment including human population depend on Critical perspectives cast by various chapters in this book draw attention to the various ways in which space and power interact to produce diverse geographies of sustainability in a globalizing world They also address the questions such as who decides what kind of a spatial arrangement of political power is needed for sustaining the environment Who stands to gain or lose what when where and why from certain geographical areas being demarcated as ecologically unique fragile and vulnerable environments Whose needs and values are being catered to by a given ecosystem service What is the scope for critical inquiry into the ways in which the environment is imagined represented and resisted in both geopolitical struggles and everyday life The book provides insights to both academics from diverse disciplines and policy makers civil society actors interested in mutual exchange of knowledge between China and India      **Key Aspects of Himalayan Geology** Sandipan
