## Natural History Of Cats:

The Natural History of the Wild Cats Andrew Kitchener, 1991

The Natural History of Cats Claire Necker, 1977

**The Cat** Sarah Brown, 2020-03-24 A comprehensive richly illustrated introduction to the behavior and qualities of the cat. Of all the domesticated species cats have enjoyed the most complex relationship with people, one that still leads to arguments about whether you can truly call the cat asleep by your fire. *The Cat* is a comprehensive richly illustrated exploration of the natural and cultural history of this much loved pet. Chapters on Evolution, Development, Anatomy, Biology, Society, Behavior, and Cats, Humans take different angles on matters feline, offering rich information and insights about kitten development, the hierarchy of cats, how cats think, communication between cats and people, historic and extinct breeds, the challenges facing cats today, and how we can help, and much, much more. The book also features a visually stunning photographic directory of more than forty popular breeds with essential information about each. Filled with surprising facts, *The Cat* will enchant anyone with an interest in, or a love for, these animals. Provides a comprehensive richly illustrated introduction to the natural and cultural history of the cat. Offers an in depth discussion of behavior including social organization, communication, courtship, and learning. Covers anatomy and physiology including mobility, predation skills, and the genetics of coat colors. Features clear and accessible text plus infographics, diagrams, and some 250 stunning color photographs. Includes a beautiful photographic directory to more than forty breeds.

**The Cat** Sarah Brown, 2020-03-10 *The Cat: A Natural History* takes an absorbing in depth look at the biology, behaviour, and diversity of this popular animal. Provides a comprehensive richly illustrated introduction to the natural and cultural history of the cat. Offers an in depth discussion of behaviour including social organization, communication, courtship, and learning. Covers anatomy and physiology including mobility, predation skills, and the genetics of coat colors. Features clear and accessible text plus infographics, diagrams, and 250 stunning color photographs. Includes a beautiful photographic directory of more than forty breeds. Tracking the evolution of the cat from its first ancestor, the *Pseudaelurus*, to the emergence of the modern domestic cat, Sarah Brown looks at how different lineages of the species developed and how the domestic cat *Felis* came into contact with humans. Clear accounts of how the cat's body functions help explain its extraordinary ability to balance, assess its hunting abilities, and understand its health and dietary needs. Details about the range of coat types and colors, and their genetics, give a comprehensive overview of the many breeds and nonbreeds we see today. Descriptions of the function of whiskers, the cat's reliance on their sense of smell, and the sensory importance of the tongue, all contribute to our understanding of the cat's physiology. Cat communication by different means is covered, including vocalization and non-vocal communication. Whether living in the wild, on the streets, or in a domestic setting, learning how to relate to other cats is a central element to cats' socialization, and this is discussed as part of an in depth look at cat behaviour. The cat's notorious independent spirit, and how it affects the cat-human relationship, is assessed, and we take a look at attitudes to cats over the centuries, and show how cats have featured in culture. The author

offers advice on how to promote feline harmony in a multi cat household and how to enhance your pet s physical and mental well being A directory of breeds features gorgeous photographs of more than 40 popular breeds alongside details of their characteristics genetic background and care requirements Modern breeding and associated issues are raised and a comprehensive glossary of medical terms covers health issues that owners need to know Anyone with an interest in or love for cats and all those who have owned a cat will find much to learn and enjoy in **The Cat A Natural History** **Wild Cats of the World** Mel Sunquist,Fiona Sunquist,2017-05-15 Did you know that European royalty once used cheetahs to hunt deer or that caracals can capture birds by leaping six and a half feet straight up into the air from a standing start Have you ever wondered whether domestic cats really do land on their feet when they fall or how Canada lynx can stalk their prey in the winter without falling through the deep snow Wild Cats of the World is a treasure trove of answers to questions like these and many others for anyone who s interested in learning more about the world s felids including the ones with whom we share our homes Mel and Fiona Sunquist have spent more than a decade gathering information about cats from every available source many of them quite difficult to find including scientific papers descriptions of hunts archeological findings observations by naturalists and travelers reports from government agencies and newsletters from a wide variety of organizations Weaving information from these sources together with their own experiences observing wild cats around the world the Sunquists have created the most comprehensive reference on felids available Each of their accounts of the 36 species of cat contains a description of the cat including human interactions with it as well as detailed data on its distribution ecology and behavior status in the wild and efforts to conserve it Numerous photographs including more than 40 in full color illustrate these accounts Ranging from the two pound black footed cat to the five hundred pound tiger and from the African serval with its satellite dish ears to the web footed fishing cat of Asia Wild Cats of the World will fascinate and educate felid fans of any stripe or spot [A Natural History of Domesticated Mammals](#) Juliet Clutton-Brock,1999-09-02 Humans have manipulated and changed the way of life of other mammals for thousands of years This new edition of A Natural History of Domesticated Mammals explores the progress which has been made in understanding the origins of domestication and its spread both biologically and culturally across the world The archaeological evidence for the earliest dating of domestication of each species is included reflecting the recent expansion in such studies Human history has been inexorably linked with the exploitation and often very cruel treatment of animals In today s society attitudes to animal welfare have improved It is now recognised that an understanding of the ecology and behavioural patterns of wild species is necessary in ensuring the well being and correct husbandry of their domesticated descendants This book provides up to date information on the natural history of all the mammals on which human societies have depended for their survival **Prang's Natural History Series for Children** Norman A. Classical Cats

Donald W. Engels, 2018-10-03 This is the definitive book on classical cats The cat has played a significant role in history from the earliest times Well known is its role in the religion and art of ancient Egypt no less than its association with witchcraft in the Middle Ages But when did the cat become a domestic companion and worker as well There has been much debate about the position of the cat in ancient Greece and Rome Artistic representations are sometimes ambiguous and its role as a mouse catcher seems often to have been carried out by weasels Yet other evidence clearly suggests that the cat was as important to Greeks and Romans as it is to many modern people This book is the first comprehensive survey of the evidence for cats in Greece and Rome and of their functions and representations in art Donald Engels draws on authors from Aesop to Aristotle on vase painting inscriptions and the plastic arts and on a thorough knowledge of zoology of the cat He also sets the ancient evidence in the wider context of the Egyptian period that preceded it as well as the views of the Church fathers who ushered antiquity into the Middle Ages
