*The Realist Tradition and Contemporary International Relations* W. David Clinton,2007-07 The tradition in international relations theory known as realism has often been associated with the Cold War The contributors to this intriguing volume argue however that realism remains a profound and relevant perspective on contemporary international politics They point out that classical realism is based on concepts that were elucidated long before the Cold War began and are not confined by its boundaries Further they believe that insights of the realist tradition can provide valuable guidance in our contemporary world W David Clinton and ten scholars of foreign policy reexamine the work of thinkers spanning twenty five centuries who have contributed to the development of realism across the ages In their essays the authors consider two key questions What makes these thinkers realists And how is their work relevant to the modern post Cold War world These essays take a fresh look at such canonical thinkers as Thucydides Augustine Machiavelli Hobbes Hume Burke Carr Niebuhr and Morgenthau Countering the widespread belief that realism has nothing left to offer this collection demonstrates that continuities remain in the political world and that the ideas rooted in realism are too important and too useful to ignore While there are obvious differences among the political philosophers whose works are considered here they share a common concern about human limitations and the possible dangerous consequences of ignoring those limitations Each in his own way these classic thinkers discuss the need for prudence to counter the ever present threat of tragedy resulting from our innocent hopeful or self righteous efforts for perfection These provocative essays demonstrate that though a realist understanding of the nature of international relations is at least as old as Thucydides it is also as contemporaneous as the most recent headline

**The Theological Vision of Reinhold Niebuhr's "The Irony of American History"** Scott R. Erwin,2013-06-13 Reinhold Niebuhr remains at the center of a national conversation about Americas role in the world and commentators with divergent political and religious positions look to his 1952 work The Irony

of American History in support of their views In this study Scott R Erwin argues that an appreciation of Niebuhrs theological vision is necessary for understanding the full measure of Irony and his perspective on life more broadly Such a study is important because many individuals reading Irony today fail to acknowledge the central role that his Christian beliefs played in his writings Niebuhr described his theological vision as being in the battle and above it and it was this perspective that led Niebuhr in Irony to assert that America must both take morally hazardous action in combating the aggression of the Soviet Union and engage in critical self evaluation to prevent the country from assuming the most odious traits of its Cold War foe Niebuhr developed his theological vision over the course of the 1930s and 1940s through engagement with Christian doctrine as most readily seen in his academic works such as *The Nature and Destiny of Man* and with current events as seen in his many journalistic writings during this period By focusing primarily on Niebuhrs writings between 1931 and 1952 Erwin traces the development of his Christian interpretation of human nature and history establishes how it informed his theological vision and reveals how that theological vision underlies his writings on current affairs     *God, Revelation and Authority: God Who Speaks and Shows (Vol. 1)* Carl F.
