Individual and the Nature of Mass Events Jane Roberts, 2011-07-08 From the Bestselling Author of Seth Speaks Speaking exclusively through Jane Roberts Seth has repeatedly stressed the concept that we create our own reality according to our individual beliefs But how do our realities merge and combine to form mass reactions such as the overthrow of governments the birth of a new religion wars epidemics earthquakes and new periods of art architecture and technology In this pioneering

work Seth explores the connection between personal beliefs and world events He pinpoints the unconscious and often negative beliefs pervading science and religion medicine and mythology and offers thought provoking reflections on Darwinism Freudianism religions cults and medical beliefs With fascinating and inspiring implications Seth asserts that the personal impulses we are often taught to see as dangerous chaotic or contradictory are instead crucial to the best interests of the species and the natural world for they lead us to live not only as loving caretakers but as partners with other species Only people who trust their spontaneous impulses can be consciously wise enough to choose from a myriad of probable futures the most promising events Jane Roberts Speaking for Seth *The Nature of Personal Reality (A Seth Book)* Jane Roberts, 2011-10-01 In this perennial bestseller Seth challenges our assumptions about the nature of reality and shows us how we create our personal reality through our conscious beliefs about ourselves others and the world His message is clear we are not at the mercy of the subconscious or helpless before forces we cannot understand We are Gods couched in creaturehood Seth says We are given the ability to form our experience as our thoughts and feelings become actualized Seth was one of my first metaphysical teachers He remains a constant source of knowledge and inspiration in my life Marianne Williamson I would like to see the Seth books as required reading for anyone on their spiritual pathway The amazing in depth information in the Seth books is as relevant today as it was in the early 70s when Jane Roberts first channeled this material Louise Hay *It's About You!* Chris W. E. Johnson, 2020-01-31 The ultimate guide to understanding your magnificent multi dimensional Self so that you can begin living a fearless fulfilling life of contentment Why are you here in the physical world at this crucial and chaotic time for humanity What if you were aware of your higher self's spiritual reasons for being here What if you could fearlessly pursue those things that excite your passions without worrying about money or whether you are worthy of doing so What does it take to fully express your Self *It's About You Know Your Self* is the first book in a trilogy that integrates profound insights from a wide variety of physical and nonphysical sources of knowledge into a set of experiential workbooks The primary aim of the trilogy is to make the reader consciously aware of the subconscious spiritual impulses that steer one's experiences in life Such awareness brings clarity on the purpose of our current lifetime and why our Essence higher self presents us with certain challenges along the way Essentially our Essence self has a few learning goals for this lifetime all of which contribute to the overall expansion and evolution of our personal expression within Consciousness *Know Your Self* through its series of exercises initiates a journey of gentle self transformation that releases emotional and psychological obstructions on the way to consciously managing the key issues that affect our lives self worth health relationships and our flow of abundance enabling us to live a more fun filled altruistic way of life In this newly edited revised edition you will discover the totality of your indivisible Self from the fabulous resources of your Essence self to the foibles fears and wayward beliefs of your ego self and learn how to deal with your ego self's challenges in a compassionate and forgiving manner *Know Your Self* presents a new model of the Self incorporating psychological aspects and layers to the Self

offered in the Seth material and other channeled sources of wisdom This new model allows the reader to understand better the nature of your spiritual existence how this provides the source energy for your physical existence to feel more confident of your continued existence after physical death and open a reconnection to the inner guidance of your Essence self As the metaphysical character Seth reminds us The ego then is only part of a much larger self but because consciously you do not perceive the whole self you arbitrarily make it a unit from a truly indivisible identity and call this the I You succeed in cutting off in theory one portion of the self from the whole self Seth in Roberts J 1998 The Early Sessions Book 3 of The Seth Material Manhasset NY New Awareness Network Inc p 266 Know Your Self gives a clearer understanding of the root causes of the challenges and problematic events occurring in one s life and crucially how to address such problems [Introduction to Transpersonal Psychology](#) Paul F. Cunningham, Ph.D.,2021-12-28 Introduction to Transpersonal Psychology Bridging Spirit and Science provides an accessible and engaging introduction to this complex and evolving field Adopting a modular approach the book systematically relates key themes of Transpersonal Psychology to three major areas within psychology general psychology experimental psychology and clinical psychology Covering a wide range of topics including transpersonal states of consciousness biological foundations research methods and cognition the book also features extensive discussion of transpersonal theorists and the impact of their work on our understanding of psychological concepts The book also introduces contemporary developments in the field and anticipates future advances such as feminist perspectives and cross cultural approaches alongside practical experiments designed to give transpersonal theories and concepts psychological roots A critical evaluation of both mainstream and transpersonal theories and research is applied throughout to foster analytical skills and encourage critical and scientific thinking about humanity s nature as spiritual creatures and ways to educate for personal and social transformation Accompanied by an online instructor s manual this book will be an essential companion for all students of Transpersonal or Humanistic Psychology or those interested in applying transpersonal ideas to mainstream psychological research *Psychic Psychology* John Friedlander,Gloria Hemsher,2011-08-09 Two of America s most experienced and respected psychic teachers present their system of the subtle energy of interpersonal relationships in a book that will appeal to anyone wishing to understand and improve their relationships within their families partnerships workplaces and wider communities This useful guide from two of America s preeminent psychics is unique in its focus on individual psychology and interpersonal relationships It begins with simple meditations during which practitioners learn how to recognize their own psychic energy and also determine if that energy is constrained Psychic Psychology shows how to free energy through such tools as grounding clearing psychic enmeshment and finding the space from which to respond most openly resourcefully and generously to life An entire chapter is devoted to exploring the specific energies men and women have based on their biological differences and helping them to deal with their own energy and that of the other sex Friedlander and Hemsher present the everyday usefulness of clairvoyant skills within a big picture where they explain that

we create our reality but do not control it and that the personality like the soul is eternal and always growing The final section describes how psychic skills can be applied in real world contexts which are often ambiguous and contradictory The book explores common issues such as dealing with selfdoubt without jumping to unwarranted blind confidence and how to communicate effectively with clear boundaries

Acupressure for the Soul Nancy Fallon, 1993 Acupressure for the Soul How to Awaken Biological Spirituality and the Gifts of Emotions offers a revolutionary view of the emotions inspired by Seth's comment Any strong emotion carries within it far more energy than say that required to send a rocket to the moon Emotions send thoughts from this interior reality through the barrier between nonphysical and physical into the objective world no small feat and one that is constantly repeated Seth session 625 The Nature of Personal Reality Emotions instead of something to manage or get rid of are portrayed as magnificent sources of power to fulfill one's innately good purpose for being on Mother Earth at this time The ancient teachings of Oriental Medicine combined with the author's knowledge and personal Shamanic like experiences provide the reader with a unique formula of how to experience BIOLOGICAL SPIRITUALITY and utilize THE GIFTS OF THE EMOTIONS
