Nature and Historical Experience John Herman Randall (Jr.),1962 **Nature and Historical Experience** John Herman Randall,1962 **History and Topology** F. R. Ankersmit,2023-04-28 The chief business of twentieth century philosophy is to reckon with twentieth century history claimed R G Collingwood In this remarkable collection of essays Frank Ankersmit demonstrates the prescience of that remark and goes a long way toward meeting its challenge Responding to the work of Hayden White Arthur Danto and Hans Georg Gadamer he examines such issues as the difference between historical representation and artistic expression the status of metaphor in historical description and the relation of postmodernism to historicism Ankersmit s fluent grasp of European thought and his ability to incorporate concepts from literary theory art history the philosophy of science and political thought into his analyses assure that this collection will interest readers throughout the humanities This title is part of UC Press s Voices Revived program which commemorates University of California Press s mission to seek out and cultivate the brightest minds and give them voice reach and impact Drawing on a backlist dating to 1893 Voices Revived makes high quality peer reviewed scholarship accessible once again using print on demand technology This title was originally published in 1994 **Wittgenstein and the Nature of Violence** R. Krishnaswamy,2020-05-31 How do we explain violence What is so significant of modern forms of violence that it has produced such large scale destruction in its wake This volume builds on the political philosophy of Wittgenstein his notions of peace and violence to explore how violence in any form is contained in culturally or ideologically formed institutions Drawing on Wittgenstein s work on language it explores the link between language and violence everydayness and culture It examines everyday instances of micro violence that we sometimes forget to recall This book puts forth the claim that any theory of violence will have to touch on the myriad both micro and macro political social and cultural interactions that make up the human condition The author further comments on the unseen ways violence has been instrumentalized in modern history s many stages to create a spectacle of power to reinforce authority The volume will be of great interest to students and scholars of peace and conflict studies political philosophy linguistics and modern history **The Uses of the Past from Heidegger to Rorty** Robert Piercey,2009-03-05 This book asks how it is possible to do philosophy by studying the thinkers of the past The answer is developed through readings of Martin Heidegger Richard Rorty Paul Ricoeur Alasdair MacIntyre and other historically minded philosophers The result is a powerful and original account of how philosophers use the past **Aristotle on the Nature of Truth** Christopher P. Long,2010-11-22 This book reconsiders the traditional correspondence theory of truth which takes truth to be a matter of correctly representing objects Drawing Heideggerian phenomenology into dialogue with American pragmatic naturalism Christopher P Long undertakes a rigorous reading of Aristotle that articulates the meaning of truth as a co operative activity between human beings and the natural world that is rooted in our endeavours to do justice to the nature of things By following a path of Aristotle s thinking that leads from our

rudimentary encounters with things in perceiving through human communication to thinking this book traces an itinerary that uncovers the nature of truth as ecological justice and it finds the nature of justice in our attempts to articulate the truth of things

Nature and Historical Experience John Herman Randall, 1958

The Concept of Time and Historical Experience Mihai Popa, 2023-09-26 This book is focused on the question does the event from which we extract historical experience acquire this status at the moment it occurs or later as it is remembered through the generations Historical experience is not a concept that facilitates the ascent of the historian to the fact it is closely related to the fact This does not make it easier to handle because the fact itself is retractable it hides its social cultural essence and meaning in time The present of the historian narrator restores as in an incessant change of perspective the diachrony of the fact looking for the present of the past fact The experience suddenly becomes a relationship between two temporal actualities that seek their own cultural identity From this perspective history moves with us The weight of the conceptualization of a past reality is given by the comprehensive weight impossibility of the fact experience The work is about the philosophy of history It is addressed to students historians and researchers in the field of the theory of history

Beckett and Nature Charles Clements, Eleanor Green, James Martell, 2025-07-10 New analyses on the insightful ways in which Beckett's work actively engages with contested notions of Nature and the natural developing a radical version of modernism's main questions and insights Beckett and Nature takes its cue from contemporary developments in Beckett scholarship focused on ecocriticism posthumanism and the Anthropocene going beyond them into a questioning of the very concepts of Nature and the natural It examines one of the most unthought ontological dimensions of literature and life that symbolic space deemed natural or part of Nature appears necessary and undeniable and therefore impossible to be deconstructed In doing so the authors show that in fact this space takes on many shapes recognizing three natural dimensions criticized by Beckett bodies worlds and literatures Featuring a wide range of both Beckett's work and Beckett scholars including Jean Michel Rabat and Stanley E Gontarski Beckett and Nature offers contextualized readings of the understandings of nature and the natural throughout his decade spanning oeuvre The volume shows that part of the radicality of Beckett's writing is that through a variety of evolving techniques and strategies it questions what appears in our cultures as the most unquestionable and opens up possibilities for thinking not only what is human literature and philosophy but also gender identity and any attempt at definitions of ourselves or the world at large

The Tangled Bank Michael S Hogue, 2010-07-29 In response to the confluence of moral uncertainty with the increase of human power to alter nature and through critical integration of the philosophical naturalism of Hans Jonas and the critical religious naturalism of James M Gustafson The Tangled Bank argues for an ecotheological ethics of responsible participation By making the case that the moral pressures of our time call for a vision that is as deeply naturalistic as it is deeply theological a critical perspective is advanced that is attuned to human embeddedness within nature as well as to human distinctiveness In support of this a moral anthropological method is deployed as a creative new

way to integrate the comparative critical and constructive tasks of theological ethics The insights of Hans Jonas and James M Gustafson interpreted comparatively for the first time are critically drawn together to suggest new directions for scholarship and teaching in theology and religion and science studies **Collingwood and the Metaphysics of Experience**

Anders Sandberg, 2016-11-10 This book examines the challenges and possibilities of conducting cultural environmental history research today Disciplinary commitments certainly influence the questions scholars ask and the ways they seek out answers but some methodological challenges go beyond the boundaries of any one discipline The book examines how to account for the fact that humans are not the only actors in history yet dominate archival records how to attend to the non visual senses when traditional sources offer only a two dimensional non sensory version of the past how to decolonize research in and beyond the archives and how effectively to use sources and means of communication made available in the digital age This book will be a valuable resource for those interested in environmental history and politics sustainable development and historical geography **Theoretical Anthropology** David Bidney, Theoretical Anthropology is a major contribution to the historical and critical study of the assumptions underlying the development of modern cultural anthropology In the new
