Nature Destiny Of Man 2 In 1vol:

The Bonds of Freedom Rebekah L. Miles, 2001-08-23 In this constructive study Miles proposes a new feminist theological ethic drawing together the contributions of Reinhold Niebuhr Sharon Welch and Rosemary Ruether Seeking to critically reappropriate the Christian realism articulated by Niebuhr she reinterprets solutions to problems emergent from his theology Miles presents feminist Christian realism as an alternative that can reclaim a positive interpretation of divine transcendence and human self transcendence while maintaining newer emphases on human boundedness and divine immanence Theologians and ethicists will find her critical reassessment of the three authors distinctive and her challenging proposal for a positive creative transformation a significant contribution to the development of feminist ethics *Love Your Enemies* Lisa Sowle Cahill, 1994 The author examines the theological bases of just war theory and pacifism especially in the light of the concept of God as that motif illuminates Christian discipleship Differences between the theory of just war and the practice of pacifism are highlighted in the overview of the history of Christian thought on the subject and the inclusiveness of the ideal of the kingdom for pacifism is emphasized **God's Patience and our Work** Ben Fulford, 2024-02-28 In *God's Patience and our Work* Ben Fulford argues that Hans Frei's theology and ethics offers unheralded but valuable resources for thinking about the social and political engagement of Christian communities in pluralistic societies in light of hope in Jesus Christ He shows how Frei's project of recovering the conditions for and shape of a generous orthodoxy runs through his work offering broad flexible vision of Christian identity ethical responsibility and humanistic witness focused in the person and presence of Jesus Christ In dialogue with liberation theologies Fulford draws from Frei an account of divine patience and providence to frame hopeful pragmatic Christian participation in work for dignity justice and penultimate reconciliation rooted in new and deeper contextual reading of his work *Servanthood of Song* Stanley R. McDaniel, 2024-05-23 *Servanthood of Song* is a history of American church music from the colonial era to the present Its focus is on the institutional and societal pressures that have shaped church song and have led us directly to where we are today The gulf which separates advocates of traditional and contemporary worship Black and White Protestant and Catholic is not new History repeatedly shows us that ministry to be effective must meet the needs of the entire worshipping community not just one segment age group or class *Servanthood of Song* provides a historical context for trends in contemporary worship in the United States and suggests that the current polemical divisions between advocates of contemporary and traditional classically oriented church music are both unnecessary and counterproductive It also draws from history to show that to be the powerful component of worship it can be music whatever the genre must be viewed as a ministry with training appropriate to that *Servanthood of Song* provides a critical resource for anyone considering a career in either musical or pastoral ministries in the American church as well as all who care passionately about vital and authentic worship for the church of today *The Political Realism of Reinhold Niebuhr* Colm McKeogh, 2016-07-27 Reinhold Niebuhr rose to prominence in the 1930s and 1940s for his vociferous

opposition both to Nazism and to isolationism as an American response to that threat He rejected both pacifism and the legalism of the just war tradition His pragmatic and realist approach to the ethics of force eschews absolute rules or restrictions The work examines Niebuhr's consequentialist approach to ethics and war from the perspective of political theory

Confessing Christ Keith S. Whitfield, Steven A. McKinion, Christine E. Thornton, 2024-11-01 Edited by Baptist scholars Steven A. McKinion, Christine E. Thornton and Keith S. Whitfield *Confessing Christ: An Introduction to Baptist Dogmatics* offers a unique and comprehensive exploration of Baptist theology Grounded in the belief that theology is both exploratory and explanatory the book introduces a historical covenantal ecclesial and confessional approach to Baptist Dogmatics Each essay delves into a specific area of dogmatic theology covering essential topics such as God, Scripture, anthropology, Christology, salvation, ecclesiology, the sacraments, the Christian life, and eschatology The volume editors emphasize the importance of renewing Baptist life and mission through a rediscovery of the rich theological heritage By understanding and engaging with this tradition Baptist Christians can express their faith more authentically in the contemporary context and future endeavors The book's four key elements: historical, covenantal, ecclesial, and confessional, provide a structured framework for exploring core Christian doctrines within the context of Baptist dogmatics Each chapter incorporates biblical exegesis and dialogue with at least one historical Baptist theologian *Confessing Christ* stands as a significant contribution to the field of Baptist dogmatics serving as essential reading for Baptist scholars, pastors, and church leaders seeking a deeper understanding of the Baptist theological tradition and its contemporary relevance

Compromised Goods Ruth Lessl Shively, 1997 Nietzsche or Aristotle: Moral subjectivism or moral objectivism Faced with these stark alternatives more and more American political theorists and philosophers find themselves in the middle asserting that moral truth is neither objective fact nor subjective fiction but a social construction However understandable such a compromise is precisely that a compromising position Ruth Lessl Shively contends A powerful critique of this middle position her book makes a compelling argument for moral realism as the only workable answer to the real dilemmas of political theory and moral life

Augustine Our Contemporary Willemien Otten, Susan E. Schreiner, 2018-05-30 In the massive literature on the idea of the self the Augustinian influence has often played a central role The volume *Augustine Our Contemporary* starting from the compelling first essay by David W. Tracy addresses this influence from the Middle Ages to modernity and from a rich variety of perspectives including theology, philosophy, history, and literary studies The collected essays in this volume all engage Augustine and the Augustinian legacy on notions of selfhood, interiority, and personal identity Written by prominent scholars the essays demonstrate a connecting thread Augustine is a thinker who has proven his contemporaneity in Western thought time and time again He has been the contemporary of thinkers ranging from Eriugena to Luther to Walter Benjamin and Jacques Derrida His influence has been dominant in certain eras and in others he has left traces and fragments that when stitched together create a unique impression of the presentness of Christian selfhood As a

whole Augustine Our Contemporary sheds relevant new light on the continuity of the Western Christian tradition This volume will interest academics and students of philosophy political theory and religion as well as scholars of postmodernism and Augustine Contributors Susan E Schreiner David W Tracy Bernard McGinn Vincent Carraud Willemien Otten Adriaan T Peperzak David C Steinmetz Jean Luc Marion W Clark Gilpin William Schweiker Franklin I Gamwell Jean Bethke Elshtain Fred Lawrence and Fran oise Meltzer *The Philosophy of History, Vol. 1 of 2* Friedrich Schlegel,2020-08-13 Reproduction of the original The Philosophy of History Vol 1 of 2 by Friedrich Schlegel [The Politics of God](#) Kathryn Tanner,2022-11-15 Thirty years ago Kathryn Tanner put forward a daring proposal Traditional Christian theologies she insisted can be a source of political transformation rather than a sponsor of the status quo Through a rigorous analysis of Christian beliefs in their historical theological and social diversity Tanner connects belief to attitudes and action and shows how doctrines can relate to each other to social systems and to ethical behavior Drawing on the theologies of divine transcendence and creation that animate and organize so much of her work The Politics of God frees traditional theology from its captivity to unjust rulers and systems and unleashes its radical potential for liberation empowerment and the pursuit of a just society This anniversary edition includes a major new preface in which Tanner addresses the changes in the social and political situation that have accumulated in the decades since the book s publication and resituates her argument for a new generation of theologians and activists **Catalogue of the Free Public Library, Sydney, 1876. Herzfeld,2002 In Our Image brilliantly illuminates who we are as humans by demonstrating the surprisingly deep parallels between our motivations to replicate ourselves through computer technology and our emerging understanding of ourselves as relational beings created in God s image This book is required reading for anyone Christian or non Christian intrigued by the possibility of artificial intelligence

The Entangled God Kirk Wegter-McNelly, 2012-03-12 In *The Entangled God* Kirk Wegter McNelly addresses the age old theological question of how God is present to the world by constructing a novel scientifically informed account of the God world relation Drawing on recent scientific and philosophical work in quantum entanglement Wegter McNelly develops the metaphor of divine entanglement to ground the relationality and freedom of physical process in the power of God s relational being *The Entangled God* makes a three fold contribution to contemporary theological and religious discourse First it calls attention to the convergence of recent theology around the idea of relationality Second it introduces theological and religious readers to the fascinating story of quantum entanglement Third it offers a robust plerotic alternative to kenotic accounts of God s suffering presence in the world Above all this book takes us beyond the view of theology and science as adversaries and demonstrates the value of constructively relating these two important areas of intellectual investigation

Traditions and Values in Politics and Diplomacy Kenneth W. Thompson, 1992-04-01 In this informed and comprehensive assessment of current issues in international policies Kenneth W Thompson addresses the role that traditions and values play in shaping change and in helping us to understand its implications He challenges the idea that the enormous changes in contemporary national and international life have rendered the consideration of traditions and values obsolete Thompson s purpose is to illuminate the problems we face and to set forth general principles directed toward an informing theory on traditions and values as they affect politics and diplomacy while at the same time warning of the pitfalls and limitations of theory In the first section of this book Thompson draws on classical and Judaeo Christian traditions in defining the relationship between philosophy religion and politics He then examines the application of abstract values to such political realities as national interest and goes on to consider the question of moral values in international diplomacy and politics In a series of case studies Thompson reflects on human rights disarmament and arms control and human survival Maintaining that the implementation of traditions and values is sometimes uniquely the task of the American presidency he studies the administrations of four postwar presidents Dwight D Eisenhower John F Kennedy Lyndon B Johnson and Richard M Nixon in the light of the executives attitudes toward ethics and politics Finally Thompson considers the implications of national decline and the breakdown of international order for the future of the United States The vast knowledge of international affairs and the literature of politics that Kenneth W Thompson brings to this timely and reflective books makes it exceptionally readable as well as intellectually challenging

Humanist Christology of Paul Juan L. Segundo, 2007-09-01 Segundo s groundbreaking exegesis focuses chiefly on Paul s treatment of sin faith and the impact of their intersection on human existence In a brilliant concluding chapter Segundo rejects liberation theology s reading of Paul as apolitical and shows how Paul s thought opens up for us a humanizing political realm that no repression can control or render useless This profound and passionately written study will fascinate advanced students and scholars for years to come

Theological Cartographies Benjamin Valentin, 2015-03-14 Benjam n Valent n presents a substantive yet accessible introduction to the

three central doctrines of Christian theology: God, humanity, and Christ. In an engaging style, Valentin offers an overview of each of these doctrines, delving into its tradition within the Christian community throughout history from the writing of Scripture forward. He further explores what contemporary life tells us about this doctrine and how that compares to traditional understandings and then determines how we can reconstruct this doctrine in light of our new assessment of it. Each chapter concludes with suggested readings for further study. Throughout, Valentin highlights the diversity of Christian thought, bringing together past tradition and contemporary questions to arrive at a new understanding of what these important doctrines can mean for us today.
