Nature History God:

Nature, History, God Xavier Zubiri, 1981 **The Unity of Nature and History in Pannenberg's Theology** Cornelius A. Buller, 1996 The Unity of Nature and History in Pannenberg's Theology addresses the problematic relationship of humans to the non human world by analyzing Wolfhart Pannenberg's theology and ethics *The Self-giving God and Salvation History* Matthew L. Becker, 2004-08-20 Analyzes Johannes von Hofmann's entire theological oeuvre **Moses, Muhammad and Nature's God in Early American Religious-Legal History, 1640-1830** R. Charles Weller, 2024-09-23 This is the first comparative study of Mosaic and Islamic law in American history to be published Constructing a complex picture in trans Atlantic trans European and world historical perspectives this book elucidates the intersections that lie beneath and behind the rise of the debates in the 1990s and 2000s over the promotion of the Ten Commandments and Mosaic Law as alleged sources of American Constitutional law and symbols of American national identity These debates have taken shape in close connection with resurgent anti-Semitism anti Sharia protests and anti Sharia legislation throughout the United States and other Western societies *The Nature of God* Gerard Hughes, 2005-08-04 First published in 1995 Routledge is an imprint of Taylor Francis an informal company **Nature, God and Pulpit** Elizabeth Achtemeier, 1992-11-06 This is a print on demand book and is therefore non returnable A book whose time has come Nature God and Pulpit draws together and interprets for the church and especially for preachers the biblical materials on the relationship between God and his creation The book is particularly timely because as Elizabeth Achtemeier points out few subjects have been more neglected and less explicated by this country's pulpits than the relation between nature and God Clearly articulating what the Bible says about the material world and God's relation to it this book is all of the following A thoughtful biblical response to recent discussions of ecology A discerning corrective to many current theologies and ideologies An appreciative summary of the findings and notions of modern science A mother lode of materials and sample sermons on the relation of God to his creation A passionate call for preachers to more thoroughly examine and articulate scriptural content An eloquent and inspiring celebration of God in relation to his world While written primarily for preachers Nature God and Pulpit will provide provocative reading for many others as well seminarians homiletics students teachers and anybody who wishes to better understand the Christian view of the bond between Creator and creation *Schleiermacher on Christian Consciousness of God's Work in History* Abraham Varghese Kunnuthara, 2008-01-01 This work is a fresh unusually lucid approach to Christian theology and interfaith dialogue from India Its basic aim is to examine the Christian consciousness of God's work in history redemption history within the entire history of the world It uses Christian Faith by Friedrich Schleiermacher 1768 1834 as its main text so as to view this theme in a reversed order from the way it is presented there This approach which centers on God's new creation in Christ leads to an incisive understanding of Christianity's relation to other modes of faith Throughout Dr Kunnuthara compares the thought of another Indian Christian leader steeped in Hindu thought Pandippedi Chenchiah 1886 1959 to enable renewed

interfaith dialogue across a wide spectrum

Doctrines of Human Nature, Sin, and Salvation in the Early Church

Everett Ferguson, 1993 An integrated overview of history The volume in this series are arranged topically to cover biography literature doctrines practices institutions worship missions and daily life Archaeology and art as well as writings are drawn on to illuminate the Christian movement in its early centuries Ample attention is also given to the relation of Christianity to pagan thought and life to the Roman state to Judaism and to doctrines and practices that came to be judged as heretical or schismatic Introductions to each volume tie the articles together for an integrated understanding of the history Offers insights and understanding The aim of the collection is to give balanced and comprehensive coverage selected on the basis of the following criteria original and excellent research and writing subject matter of use to teachers and students groundbreaking importance for the history of research background information for issues and opinions Understanding the development of early Christianity and its impact on Western history and thought offers valuable insights into the modern world and the present state of Christianity It also provides perspective on comparable developments in other periods of history and reveals human nature in its religious dimension

The Goodness of God in View of the Facts of Nature and the Supernatural George Thomson Knight, 1904 *The Fellowship Prayer-Meeting: the Institution, Nature, History, and Advantages of Select Christian Fellowship* Thomas Houston, 1856

History of the Arguments for the Existence of God Aaron Hahn, 1885 Nature and Technology in the World Religions P. Koslowski, 2013-06-29 Technology and the control of nature have arisen from the endeavor to reduce the neediness of human life Since this reduction is also the goal of religions there is a necessary proximity between religion and technology The relationship of humans to nature and technology is an object of religious doctrine and ethics in all of the world's religions The interpretations and the norms of the treatment of nature in economy and technology but also the veneration of nature in nature mysticism and its elevation in cult and sacrament are forms of expression of the relationship to nature in religions The development of the modern control of nature through technology appears to be connected to the biblical commission to rule over nature Buddhism and Hinduism however also interpret technology and human control of nature Technological power raises the question of how the normativeness of the created order intended by religion's concept of creation relates to the human freedom to reshape creation What answers do religions give to the question of the humane form of technology and the limits to technological power and human control of nature Leading scholars of Judaism Christianity Islam Hinduism and Buddhism have created with this volume a first hand source of information which enables the reader to gain a better understanding of these five world religions and their teachings on nature and technology

The Decline of Nature Gilbert LaFreniere, Gilbert F. LaFreniere, 2008 An environmental history of ideas embedded in a compact account of Western civilization's ecological impact upon the planet particularly in Europe and its colonies

Tradition Vs. Traditionalism Abraham Sagi, 2008 This book is a first attempt to examine the thought of key contemporary Jewish thinkers on the meaning of tradition in the context of two models The

classic model assumes that tradition reflects lack of dynamism and reflectiveness and the present's unqualified submission to the past. This view, however, is an image that the modernist ethos has ascribed to the tradition so as to remove it from modern existence. In the alternative model, a living tradition emerges as open and dynamic, developing through an ongoing dialogue between present and past. The Jewish philosophers discussed in this work, Joseph B. Soloveitchik, Yeshayahu Leibowitz, David Hartman, and Eliezer Goldman, ascribe compelling canonic status to the tradition, and the analysis of their thought discloses the tension between these two models. The book carefully traces the course they have plotted along the various interpretations of tradition through their approach to Scripture and to Halakhah.

Contents: Editorial Foreword Introduction Returning to Tradition Paradox or Challenge The Tense Encounter with Modernity Soloveitchik Jewish Thought Confronts Modernity Compartmentalization From Ernst Simon to Yeshayahu Leibowitz The Harmonic Encounter with Modernity Religious Commitment in a Secularized World Eliezer Goldman David Hartman Renewing the Covenant Between Old and New Judaism as Interpretation Scripture in the Thought of Leibowitz and Soloveitchik Halakhah in the Thought of Leibowitz and Soloveitchik Eliezer Goldman Judaism as Interpretation Epilogue My Name's my Donor's Name Notes Bibliography About the Author Index

The Travail of Nature H. Paul Santmire, 1985-01-01 The Travail of Nature shows that the theological tradition in the West is neither ecologically bankrupt as some of its popular and scholarly critics have maintained nor replete with immediately accessible albeit long forgotten ecological riches hidden everywhere in its deeper vaults as some contemporary Christians who are profoundly troubled by the environmental crisis and other related concerns might wistfully hope to find. This is why it is appropriate to speak of the ambiguous ecological promises of Christian theology.

God Is Not a Story Francesca Aran Murphy, 2007-07-19 This is a challenging critique of narrative theologies. Murphy argues that the widespread notion that the role of the theologian is to tell God's story has not helped theology to advance the reality of its doctrines. She offers her own alternative approach making use of cinema and film theory.

God as Trinity Ted Peters, 1993-01-01 Peters examines the works of Karl Barth, Karl Rahner, Eberhard Jungel, Jürgen Moltmann, Catherine Mowry LaCugna, and other theologians as he highlights talk about the becoming of God by process theologians, sexism in trinitarian language by feminists, and divine and human community by liberation theologians.

The History and Philosophy of Materialism Charles T. Wolfe, John Symons, 2024-11-26 Materialism, the view that facts are dependent upon or reducible to physical processes, is one of the most long-standing and controversial of all philosophical theories. Originating in antiquity, its proponents include Epicurus, Hobbes, Diderot, Darwin, and Marx, whilst its impact on modern physics and consciousness debates reverberates strongly today. It is also an important yet generally overlooked feature of Indian, Chinese, and Islamic thought. This major collection, the first of its kind, explores the fascinating philosophical history of materialism from the ancient world to the twenty-first century. Comprising thirty-one chapters by an international team of contributors, the volume is divided into six clear parts: Ancient Non-Western and Medieval Philosophy; Renaissance and Early Modern Philosophy;

Enlightenment Materialisms Nineteenth Century Philosophy Twentieth Century Philosophy Contemporary Philosophy
 Philosophy of Mind Metaphysics and Critique Within these sections key topics are covered including materialism in classical
 Greece India and China and Aztec metaphysics Renaissance materialism and anti materialism materialism and Islamic
 philosophy materialism in the French and German Enlightenment atheism and materialism nineteenth century materialist
