

NATURE POEMS

'Nature' Is What We See

Nature' is what we see—
The Hill—the Afternoon—

Before The Throne Of Beauty Xxvi

One heavy day I ran away from the grim face of society
and the dizzying clamor of the city and directed my
weary step to the spacious alley.

Alone In The Woods

Alone in the woods I felt
The bitter hostility of the sky and the trees

Nature

Nature is beautiful
nature is fun

Nature's Lullaby

Sounds of singing birds so early in the morn
Is a beauty in life that no one can adorn.

A Moth The Hue Of This

A Moth the hue of this
Haunts Candles in Brazil.

Lucy's Song

How beautiful at eventide
To see the twilight shadows pale,

Beauty And The Beast

Nature is beautiful, quiet, and serene,
nature is the forest, with its many shades of green.

NATURE IN ENGLISH LITERATURE. BY EDMUND BLUNDEN. Edmund Blunden, 1970 **Ecological Footprints in Literature: An Excursion into Selected Nature Writings and Nature Novels** Dr. Archana R. Kadiyan, 2022-08-22 The book provides a comprehensive view of the environmental discourses that are found in the literary representations of the natural world The book presents an in depth analysis of the symbolic manifestations of the outer world in various genres of literature such as nature novels and nature or ecological writings It deeply captures the mutual interactions that occur between the human and the non human world that tend to influence each other's actions and processes By exploring the ecocritical leanings and tracing all the phases of Anthropocene the book takes its readers for a deep excursion into the beautiful dynamic natural and overtly spiritual world of Nature as exhibited in the writings such as Thoreau's *Walden* Khushwant Singh's *Nature Watch* and Starhawk's *The Earth Path* which is contrasted against the eco catastrophic world of Rachel Carson's *Silent Spring* An insightful and analytical journey into the world of more unique portrayals of the ecological world that tend to strike a balance between two distinct worlds the real and the imaginative the spiritual and the material as well as the natural and the man made as reflected in the nature novels George Eliot's *Mill on the Floss* Khushwant Singh's *I Shall not Hear the Nightingale* Starhawk's *Fifth Sacred Thing* and Ernest Callenbach's *Ecotopia A Novel* The book thus with its underpinning wisdom will be an interesting and more enlightening read for the critics academicians and researchers

Disturbing Nature in Narrative Literature Philip Armstrong, 2024-11-06 *Disturbing Nature in Narrative Literature* identifies and analyses encounters with unexpected disconcerting and unsettling aspects of the natural world as these have been represented across a wide range of literary texts It includes in depth discussion of both familiar and less familiar works from the British American and European literary traditions and from the Classical period to today The motifs discussed include earthquakes forests storms animals and oceanic depth and the writers include Virgil Ovid Dante Shakespeare Aphra

Behn Voltaire Heinrich von Kleist Herman Melville H G Wells J R R Tolkien Gabriel Garc a M rquez Jos Saramago Margaret Atwood and Annie Proulx Rich in both close textual analysis and contextual discussion Disturbing Nature in Narrative Literature offers a vivid introduction to several topical approaches to literary critical analysis including ecocriticism new materialism affect theory and human animal studies thereby demonstrating how literature shapes and is shaped by our response to the pressing questions of our time

Nature and Literary Studies Peter Remien, Scott Slovic, 2022-08-04 Nature and Literary Studies supplies a broad and accessible overview of one of the most important and contested keywords in modern literary studies Drawing together the work of leading scholars of a variety of critical approaches historical periods and cultural traditions the book examines nature s philosophical theological and scientific origins in literature as well as how literary representations of this concept evolved in response to colonialism industrialization and new forms of scientific knowledge Surveying nature s diverse applications in twenty first century literary studies and critical theory the volume seeks to reconcile nature s ideological baggage with its fundamental role in fostering appreciation of nonhuman being and agency Including chapters on wilderness pastoral gender studies critical race theory and digital literature the book is a key resource for students and professors seeking to understand nature s role in the environmental humanities

Haunted Spaces in Twenty-First Century British Nature Writing Anneke Lubkowitz, 2020-06-08 This study investigates the figure of haunting in the New Nature Writing It begins with a historical survey of nature writing and traces how it came to represent an ideal of natural space as empty of human history and social conflict Building on a theoretical framework which combines insights from ecocriticism and spatial theory the author explores the spatial dimensions of haunting and hauntology and shows how 21st century writers draw on a Gothic repertoire of seemingly supernatural occurrences and spectral imagery to portray natural space as disturbed uncanny and socially contested Iain Sinclair and Robert Macfarlane are revealed to apply psychogeography s interest in hidden histories and haunted places to spaces associated with wilderness and the countryside Kathleen Jamie s allusions to the Gothic are put in relation to her feminist re writing of the outdoors and John Burnside s use of haunting is shown to dismantle fictions of the far north This book provides not only a discussion of a wide range of factual and fictional narratives of the present but also an analysis of the intertextual dialogue with the Romantic tradition which enfolds in these texts

Nature in Indian Philosophy and Cultural Traditions Meera Baindur, 2015-05-19 Working within a framework of environmental philosophy and environmental ethics this book describes and postulates alternative understandings of nature in Indian traditions of thought particularly philosophy The interest in alternative conceptualizations of nature has gained significance after many thinkers pointed out that attitudes to the environment are determined to a large extent by our presuppositions of nature This book is particularly timely from that perspective It begins with a brief description of the concept of nature and a history of the idea of nature in Western thought This provides readers with a context to the issues around the concept of nature in environmental philosophy setting a foundation for further

discussion about alternate conceptualizations of nature and their significance. In particular, the work covers a wide array of textual and non-textual sources to link and understand nature from classical Indian philosophical perspectives as well as popular understandings in Indian literary texts and cultural practices. Popular issues in environmental philosophy are discussed in detail such as: What is nature in Indian philosophy? How do people perceive nature through landscape and mythological and cultural narratives? In what ways is nature sacred in India? To make the discussion relevant to contemporary readers, the book includes a section on the ecological and ethical implications of some philosophical concepts and critical perspectives on alternate conceptualizations of nature.
