Zaccaro, Richard J. Klimoski, 2002-02-28 The quality of an organization's top leaders is a critical influence on its overall effectiveness and continuing adaptability Yet little current research examines leadership within the context of organizational structure such as how leaders influence organizational performance in those key moments when an

executive's action is critical to driving the organization forward. This book represents a significant contribution to the literature of leadership combining a contextual approach to organizational leadership with an in-depth treatment of the cognitive, social, and affective dynamics underlying that leadership. *The Nature of Organizational Leadership* using an interdisciplinary approach that draws from the work of scholars in both management and psychology provides a much-needed organizational perspective on the problems confronted by top executive leaders and the requisite behaviors, attributes, and outcomes necessary to lead organizations effectively.

The Nature of Leadership Chester I. Barnard, 1940

Second Nature Leadership Freddy Caceres, 2020-11-20

Leadership can be described as a set of effective characteristics or habits that one exhibits on a daily basis that influences others. Have you ever stopped to think about your habits and how they impact your leadership outcomes? Habits form when behavior is repeated and becomes unconsciously automatic after enacted on continuously. Quality leadership actions will too become instinctive when they are repeated multiple times, thus becoming second-nature actions. Since a habit is an avenue that your brain automatically follows, you will need to reengineer some of your thought process and execute new actions repeatedly until the actions become inherent. The actions outlined in this book will be sure to take your leadership success to the next level. The only way to stay sharp and effective in your leadership is to constantly apply the traits that are used and taught by effective leaders. When the traits expressed in this book are put into action and consistently performed, you will soon do them almost without thinking and in turn become a second-nature leader.
