Nature Of Personal Reality:

The Nature of Personal Reality (A Seth Book) Jane Roberts, 2011-10-01 In this perennial bestseller Seth challenges our assumptions about the nature of reality and shows us how we create our personal reality through our conscious beliefs about ourselves others and the world His message is clear we are not at the mercy of the subconscious or helpless before forces we cannot understand We are Gods couched in creaturehood Seth says We are given the ability to form our experience as our thoughts and feelings become actualized Seth was one of my first metaphysical teachers He remains a constant source of knowledge and inspiration in my life Marianne Williamson I would like to see the Seth books as required reading for anyone on their spiritual pathway The amazing in depth information in the Seth books is as relevant today as it was in the early 70s when Jane Roberts first channeled this material Louise Hay Summary of Jane Roberts's The Nature of Personal Reality Everest Media, 2022-07-02T22:59:00Z Please note This is a companion version not the original book Sample Book Insights 1 The world as you see it is a reflection of what you are a reflection not in glass but in three dimensional reality The smallest blade of grass or flower is aware of this connection and without reasoning comprehends its position its uniqueness and its source of vitality 2 You are the living picture of yourself Your feelings thoughts and events all affect your physical appearance You did not just happen to be thin or fat tall or short healthy or ill Those characteristics were chosen by your inner self 3 Ruburt was correct in the insight that his book was not dictation He was more intrigued with questions concerning consciousness and personality since beginning his novel He did not realize that he created the personalities free of time and organized them under the leadership of the conscious mind 4 Your experience in the world of physical matter flows outward from the center of your inner psyche You perceive this experience and from it the most minute areas of your outer experience spring Your feelings have electromagnetic realities that rise outward and affect the atmosphere itself **The Nature of Personal Reality** Jane Roberts, Seth (Spirit), 1978 The words of Seth the personality channeled through Jane Roberts show readers that they possess hidden powers within themselves that have the potential to transform their lives By learning to control their own experiences they can create a new fulfilling reality **Nature of Personal Reality** Jane Roberts, 1982-06

The Individual and the Nature of Mass Events Jane Roberts, 2011-07-08 From the Bestselling Author of Seth Speaks Speaking exclusively through Jane Roberts Seth has repeatedly stressed the concept that we create our own reality according to our individual beliefs But how do our realities merge and combine to form mass reactions such as the overthrow of governments the birth of a new religion wars epidemics earthquakes and new periods of art architecture and technology In this pioneering work Seth explores the connection between personal beliefs and world events He pinpoints the unconscious and often negative beliefs pervading science and religion medicine and mythology and offers thought provoking reflections on Darwinism Freudianism religions cults and medical beliefs With fascinating and inspiring implications Seth asserts that the personal impulses we are often taught to see as dangerous chaotic or contradictory are instead crucial to the

best interests of the species and the natural world for they lead us to live not only as loving caretakers but as partners with other species Only people who trust their spontaneous impulses can be consciously wise enough to choose from a myriad of probable futures the most promising events Jane Roberts Speaking for Seth The Unknown Reality, Volume One Jane Roberts, 2011-07-08 From the Bestselling Author of Seth Speaks and The Nature of Personal Reality In this mind stretching journey into the very frontiers of consciousness Seth reveals the multidimensional nature of the human soul In Seth Speaks Seth introduced the concept of probable realities in which our idle daydreams and unfulfilled impulses do take place in which all possible choices are fully experienced by other portions of the self Now in this first volume of The Unknown Reality Seth explains the dazzling labyrinths of unseen probabilities involved in any decision and how our awareness of these can enrich the waking life we know In a fascinating exploration of the cosmic web of our existence Seth reveals The purpose of dreams and how they are often fulfilled unconsciously Misconceptions about death and the afterlife How different probable realities intersect and influence one another The relationship between physical health and inner reality A series of exercises to help you discover the unknown portions of your greater identity The self is multidimensional when it is physically alive It is a triumph of spiritual and psychological identity ever choosing from a myriad of probable realities its own clear unassailable focus When you don't realize this then you project upon life after death all of the old misconceptions The fact is that in life you poise delicately and yet perfectly between realities and after death you do the same Jane Roberts Speaking for Seth

Studies in Human Nature Sir James Black Baillie, 1921 *The Principles of Knowledge, with Remarks on the Nature of Reality* Johnston Estep Walter, 1904 The Bible in the light of nature, of man, and of God Alexander Chisholm (of Boglashin.), 1891 The Nature and Reality of Religion Frederic Harrison, Herbert Spencer, 1885 What Do We Mean by God? Cyril Henry Valentine, 1929 The Unknown Reality, Vol 2 Jane Roberts, 2011-07-08 From the Bestselling Author of Seth Speaks In this second volume of The Unknown Reality Seth radically expands our conceptions of self by showing us that the human personality is literally infinite in its scope and potential He discloses precisely how probable realities combine to create our waking lives and how our higher selves make decisions regarding our everyday existence In a far reaching exploration of the dynamics of desire and free will he asserts that each atom molecule and cell has its own consciousness and powers of choice With humor and simple analogies Seth leads us beyond our ordinary level of awareness into a spectacular discovery of the multidimensional nature of the self including Consciousness units as the basis of our universe The relevance of extrasensory perception in understanding our world The worlds we visit in dreams and out of body states Dreaming as a science to create present and future realities Families of consciousness we choose to belong to Practical methods for exploring your own unknown reality There is an unknown reality I am part of it and so are you Each individual is a part of the unknown reality To explore the unknown reality you must venture within your own psyche travel inward through invisible roads as you journey outward on physical ones I hope that in this book the reader can see the greater dimensions that touch

ordinary living and sense the psyche's greater magic Jane Roberts Speaking for Seth **Bibliotheca Sacra**, 1892 The Meaning of Personal Life Newman Smyth, 1916 *The nature of existence* Charlie Dunbar Broad, 1927 **The Nature of Existence** John McTaggart Ellis McTaggart, 1927 *New Englander and Yale Review*, 1890 **Human Nature and the Social Order** Charles Horton Cooley, 1902 This work remains a pioneer sociological treatise on American culture By understanding the individual not as the product of society but as its mirror image Cooley concludes that the social order cannot be imposed from outside human nature but that it arises from the self Cooley stimulated pedagogical inquiry into the dynamics of society with the publication of *Human Nature and the Social Order* in 1902 *Human Nature and the Social Order* is something more than an admirable ethical treatise It is also a classic work on the process of social communication as the very stuff of which the self is made **Cycles of Personal Belief** Waldo Emerson Forbes, 1917 **The Personalist** Ralph Tyler Flewelling, 1922
