The Public Relations of Everything Robert E. Brown, 2014-10-30 The public relations of everything takes the radical position that public relations is a profoundly different creature than a generation of its scholars and teachers have portrayed it Today it is clearly no longer limited if it ever has been to the management of communication in and between organizations Rather it has become an activity engaged in by everyone and for the most basic human reasons as an act of self creation self expression and self protection The book challenges both popular dismissals and ill informed repudiations of public relations as well as academic and classroom misconceptions In the age of digitization and social media everyone with a smart phone Twitter and Facebook accounts and the will and skill to use them is in the media The PR of everything the ubiquitousness of public relations takes a perspective that is less concerned with ideas of communication and information than with experience and drama a way of looking at public relations inside out upside down and from a micro rather than a macro level Based on a

*RELATION* Dr. Joseph Parackal, 2016-12-05 Many scholars and practitioners opine that public relations are all about building and maintaining an organization's relationship with its public. As human relationships depend on personal interactions, so it naturally necessitates ethical as well as anthropological aspects. In fact, a vast majority of the scholars have already portrayed the ethical responsibility of the organization and the practitioner while dealing with various people. But a few of them have pointed out that public relation is needed to view anthropological perspectives which in turn will be significant and virtuous for human beings. Accordingly, a practical functional approach is the foremost requirement to overcome in dealing with the public relationships. Therefore, while exploring the public relations literature, we have tried to integrate these three aspects: relational, ethical, and anthropological, and propose a reasonable ethical framework for the professional practice of public relations based on the dignity of the person.

**THE MILITARY AND PUBLIC RELATIONS ? Issues, Strategies and Challenges** Col. (rtd) John Adache PhD, 2014 Public Relations practice, its approaches and methods, have become widely and deeply entrenched in business, government, and in many other complex organizations, especially in the developed nations of the world. In the same manner, its relevance and utility as a tool of institutional promotion have equally come to be appreciated in the Armed Forces. The text, therefore, within the context of the evolution, growth, and development of the broad discipline of Public Relations, appropriately situates its practice in the military. It articulates and highlights in depth the many aspects of public relations practice in the armed Forces, drawing examples extensively from, especially, the experiences of the United States and UK Armed Services. Divided into four parts, the book examines the role of the Military in society and traces the evolution of modern public relations and its development in the military. Under Public Relations Principles, Approaches, and Practice, it analyses the role and function of public relations in the interface of military and society and further highlights the purpose of military public relations, its targets, strategies, and tactics. It examines Public Relations practice in the Nigerian Military, including public perception and management. Current and topical issues in Public Relations and Communication, such as Technology, the Military and Public Relations, Social Media, Public Relations, and the Military Security Threats Crisis Management, and the Role of Communications and Challenges to Military Public Relations Practice, were analyzed. The book finally concludes with The Importance of Military Public Relations in a Democratic Society. Given the perpetual need to constantly keep the military in the public eye, the book strongly posits that it is appropriate that public relations be properly positioned as the strategic machinery through which the military could seek to identify with the people and invariably national interest in order for them to render accounts of their performances and seek informed public support as obtains in developed democracies.
