Natural Healing Power Godwin Arisa,2005-10-18 In *Natural Healing Power* a gift of God to you author Godwin Arisa devotes himself to educating the readers on how to unleash their spiritual ability and power and use them to fight their way back from unexpected and unwanted adversities of sickness disease including emotional and physical distress stemming from job relational or family issues and the loss of joy peace and happiness that they bring Drawing from a personal revelation of spiritual essence and the enlightenment of God s word Arisa puts forth a four step process for fighting back using God s natural power within the person The resource on prayer and the teaching on the source of all your troubles adds an amazingly powerful punch to this little guide book Author Arisa puts it this way When you search the world you know without success for answers to issues of these nature life will tend to lose its vitality and meaning for those who know of no other option As God Almighty would have it there remains for everyone who is willing today one final option for victory over any issue of life and you need not go too far to find it Regardless of what the issue is man was never made to be defeated by anything except that which is by the will of the maker God Almighty Leaning on the words of JOHN 8 32 Then you will know the truth and the truth will set you free this book begins with an eye opening lesson on the source of all woes of man breaking new grounds in its insight into long standing views on the physical and the spiritual realms of existence It raises the reader s temperature as it leads him her on a four step process for gaining access to the healing realm It climaxes with a mix of body shaking scriptures and prayers that grows in intensity as it draws the reader into spiritual battle In the end the reader is introduced to the source of the author s knowledge and inspiration for this book his own moving encounter with the power of God Almighty to meet any need that is beyond the capability of man

Forces of Nature Adrian Renner,Frederike Middelhoff,2022-09-06 By the end of the 18th century notions of forces of nature Naturkr fte were increasingly discussed across disciplinary bounds attraction and repulsion vital forces and electric fluids formative drives and biological organisms were examined as forces linked to natural processes German Romantic literature science and philosophy from Schelling and Novalis to G nderrode and H lderlin pondered interrelated notions of forces considered as dynamic and continually active in nature forces which in turn also appeared to shape human actions social structures and cultural developments This volume explores the points of reference for approaches to and afterlives of Romantic conceptions and representations of natural forces at the intersection of natural sciences and cultural imaginaries

Natural Alan Levinovitz,2020-04-07 Illuminates the far reaching harms of believing that natural means good from misinformation about health choices to justifications for sexism racism and flawed economic policies People love what s natural it s the best way to eat the best way to parent even the best way to act naturally just as nature intended Appeals to the wisdom of nature are among the most powerful arguments in the history of human thought Yet Nature with a capital N and natural goodness are not objective or scientific In

this groundbreaking book scholar of religion Alan Levinovitz demonstrates that these beliefs are actually religious and highlights the many dangers of substituting simple myths for complicated realities It may not seem like a problem when it comes to paying a premium for organic food But what about condemnations of unnatural sexual activity The guilt that attends not having a natural birth Economic deregulation justified by the inherent goodness of natural markets In Natural readers embark on an epic journey from Peruvian rainforests to the backcountry in Yellowstone Park from a natural bodybuilding competition to a natural cancer curing clinic The result is an essential new perspective that shatters faith in Nature s goodness and points to a better alternative We can love nature without worshipping it and we can work toward a better world with humility and dialogue rather than taboos and zealotry
