Poemers' Poemings Marjory Bennett, 2018-02-15 I chose the title A Poemers Poemings because it means for me that of someone to whom is always writing about something anything And its odd and catchy at the same time and its the main title for the series that I am writing in volumes too many to put all into one book I think of my poems all as individual artworks own a completeness from start to finish a journey a path a message that will inspire mesmerize intrigue and take you to that deepness that hasnt been felt or known of your own self Allow yourself to think out there and to see what each one is telling you Envision the poem and let yourself see the answers to your own thoughts of these pieces of artworks Even More

Journeys of a Lifetime Len Coates, 2017-08-14 When I wrote my first book Journeys of a Lifetime in 2004 it reflected how dreams of mine of visiting unknown places in the UK countries across the North Sea in Europe and seemingly far off continents of America Africa Asia and Australia became a reality That was mainly due to the advent of air travel package holidays and the massive growth of international travel in the second half of the twentieth century Nine years on from that book in my second book our traveling had continued and in that time having seen the arrival of four grandchildren naturally they have joined in some of the journeys At that time our fourth grandchild just made the book with her name and date and place of birth Naturally there was a need for another book so that she as well as her brother and cousins will all be able to read as they get older about their grandparents travels and in particular some of which included them Although places visited in the three years since the last book include some return trips to old favorites this book reflects only the new places visited In particular India the Middle East the Far East Eastern Europe and nearer home the beautiful Northeast England it reflects the visits of the grandchildren featured more this time As we now have two grandchildren living in the Costa del Sol

as well as the Aussie part of the family Spain and Australia are now regular destinations Although the UK is much smaller in area than those two countries it is packed with wonderful places to visit so trips at home are still often very much included in our travels Added to that cruising has taken off in the last decade a bit like package deals to Europe did in the 1960s and has provided a very enjoyable new dimension to the journeys made Cruises are featured several times in this book More Journeys of a Lifetime and now Even More Journeys of a Lifetime reflect the further growth in long haul travel and the massive increase in cruising Hope you enjoy my further travels around this small world of ours going on from those early dreams of mine and continuing to do so SPLANX Peter Magliocco,2014-03-28 SPLANX the ultimate electronic tablet of the space oriented future where humanity becomes one with a god power beyond belief Science fiction meets horror in this novel about a paranormal investigator in Holland who becomes involved in a search for a mysterious supernatural digital tablet
