Hernando de los Ríos Coronel and the Spanish Philippines in the Golden Age Professor John Newsome Crossley, 2013-07-28

Whilst much scholarly work has been focused on Spain's American colonies much less is known about Spanish colonization of the Pacific. As such this book fills an important gap in our knowledge directing attention both to Spain's wider imperial ambitions and the specific situation within the Philippines. By structuring the book around the life of Hernando de los Ríos Coronel many overlapping and complex threads are drawn out that cast light upon a diverse range of subjects: Soldier, priest, diplomat, explorer, naval pilot and scientist. de los Ríos was a fascinating figure who played a pivotal role in Spanish efforts to establish a thriving colony in the Philippines. In 1588 at the age of 29 he was sent to the Philippines as a soldier and once there quickly established himself as a pillar of society ultimately becoming a priest. Over 36 years until his death sometime before the end of January 1624 he shuttled between the Philippines and Spain in his role as Procurator General, the sole representative of the Philippines both Spaniards and Indigenes at the Spanish Court. As well as telling the story of an extraordinary individual this book provides a fascinating introduction to the early history of the Spanish Philippines. By touching upon a broad range of topics it also opens up numerous avenues for further research.

This monumental series acclaimed as a masterpiece of comprehensive scholarship in the New York Times Book Review reveals the impact of Asia's high civilizations on the development of modern Western society. The authors examine the ways in which European encounters with Asia have altered the development of Western society: art, literature, science and religion since the Renaissance. In Volume III *A Century of Advance* the authors have researched seventeenth-century European writings on Asia in an effort to understand how contemporaries saw Asian societies and peoples.
