Under the Eagle Samuel Holiday, Robert S. McPherson, 2013-08-13 Samuel Holiday was one of a small group of Navajo men enlisted by the Marine Corps during World War II to use their native language to transmit secret communications on the battlefield Based on extensive interviews with Robert S McPherson Under the Eagle is Holiday s vivid account of his own story It is the only book length oral history of a Navajo code talker in which the narrator relates his experiences in his own voice and words Under the Eagle carries the reader from Holiday s childhood years in rural Monument Valley Utah into the world of the United States s Pacific campaign against Japan to such places as Kwajalein Saipan Tinian and Iwo Jima Central to Holiday s story is his Navajo worldview which shapes how he views his upbringing in Utah his time at an Indian boarding school and his experiences during World War II Holiday s story coupled with historical and cultural commentary by McPherson shows how traditional Navajo practices gave strength and healing to soldiers facing danger and hardship and to veterans during their difficult readjustment to life after the war The Navajo code talkers have become famous in recent years through books and movies that have dramatized their remarkable story Their wartime achievements are also a source of national pride for the Navajos And yet as McPherson explains Holiday s own experience was as much mental and spiritual as it was physical This decorated marine served under the eagle not only as a soldier but also as a Navajo man deeply aware of his cultural obligations Framing Languages and Literacies Margaret R. Hawkins, 2013-04-12 In this seminal volume leading language and literacy scholars clearly articulate and explicate major social perspectives and approaches in the fields

of language and literacy studies Each approach draws on distinct bodies of literature and traditions and uses distinct identifiers labels and constellations of concepts each has been taken up across diverse global contexts and is used as rationale and guide for the design of research and of educational policies and practices Authors discuss the genesis and historical trajectory of the approach with which they are associated offer their unique perspectives rationales and engagements and investigate implications for understanding language and literacy use in and out of schools The premise of the book is that understanding concepts perspectives and approaches requires knowing the context in which they were created the rationale or purpose in creating them and how they have been taken up and applied in communities of practice Accessible yet theoretically rich this volume is indispensable for researchers students and professionals across the fields of language and literacy studies

Both Sides of the Bullpen Robert S. McPherson, 2017-10-19 Between 1880 and 1940 Navajo and Ute families and westward trending Anglos met in the bullpens of southwestern trading posts to barter for material goods As the products of the livestock economy of Navajo culture were exchanged for the merchandise of an industrialized nation a wealth of cultural knowledge also changed hands In *Both Sides of the Bullpen* Robert S McPherson reveals the ways that Navajo tradition fundamentally reshaped and defined trading practices in the Four Corners area of southeastern Utah and southwestern Colorado Drawing on oral histories of Native peoples and traders collected over thirty years of research McPherson explores these interactions from both perspectives as wool blankets and silver crossed the counter in exchange for flour coffee and hardware To succeed traders had to meet the needs and expectations of their customers often interpreted through Navajo cultural standards From the organization of the post building to gift giving health care and burial services and a credit system tailored to the Navajo calendar every feature of the trading post served trader and customer alike Over time these posts evolved from ad hoc business ventures or profitable cooperative stores into institutions with a clearly defined set of expectations that followed Navajo traditional practices Traders spent their days evaluating craft work learning the financial circumstances of each Native family following economic trends in the wool and livestock industry back east and avoiding conflict In detail and depth the many voices woven throughout *Both Sides of the Bullpen* restore an underappreciated era to the history of the American Southwest They show us that for American Indians and white traders alike in the Four Corners region during the late 1800s and early 1900s barter was as much a cultural expression as it was an economic necessity

The Garland Encyclopedia of World Music Ellen Koskoff, 2017-09-25 This volume makes available the full range of the American Canadian musical experience covering for the first time in print all major regions ethnic groups and traditional and popular contexts From musical comedy to world beat from the songs of the Arctic to rap and house music from Hispanic Texas to the Chinese communities of Vancouver the coverage captures the rich diversity and continuities of the vibrant music we hear around us Special attention is paid to recent immigrant groups to Native American traditions and to such socio musical topics as class race gender religion government policy media and

technology **Translating Southwestern Landscapes** Audrey Goodman, 2022-02-08 Winner of the Western Literature Association's Thomas J Lyon Award Whether as tourist's paradise, countercultural destination or site of native resistance, the American Southwest has functioned as an Anglo cultural fantasy for more than a century. In *Translating Southwestern Landscapes*, Audrey Goodman excavates this fantasy to show how the Southwest emerged as a symbolic space from 1880 through the early decades of the twentieth century. Drawing on sources as diverse as regional magazines and modernist novels, Pueblo portraits and New York exhibits, Goodman has crafted a wide-ranging history that explores the invention, translation, and representation of the Southwest. Its principal players include amateur ethnographer Charles Lummis, who conflated the critical work of cultural translation with pulp novelist Zane Grey, whose bestselling novels defined the social meanings of the modern West; fashionable translator Mary Austin, whose re-expressions of Indian song are contrasted with recent examples of ethno-poetics; and modernist author Willa Cather, who demonstrated an immaterial feeling for landscape from the Nebraska Plains to Acoma Pueblo. Goodman shows how these writers, as well as photographers such as Paul Strand, Ansel Adams, and Alex Harris, exhibit different phases of the struggle between an Anglo calling to document Native and Hispanic difference and America's larger drive toward imperial mastery. In critiquing photographic representations of the Southwest, she argues that commercial interests and eastern prejudices boiled down the experimental images of the late nineteenth century to a few visual myths: the persistence of wilderness, the innocence of early portraiture, and the purity of empty space. An ambitious synthesis of criticism and anthropology, art history and geopolitical theory, *Translating Southwestern Landscapes* names the defining contradictions of America's most recently invented cultural space. It shows us that the Southwest of these early visitors is the only Southwest most of us have ever known.
