Subcommittee on VA-HUD-Independent Agencies,1998 The Earth Memory Compass Farina King,2018-10-01 The Din or Navajo have their own ways of knowing and being in the world a cultural identity linked to their homelands through ancestral memory The Earth Memory Compass traces this tradition as it is imparted from generation to generation and as it has been transformed and often obscured by modern modes of education An autoethnography of sorts the book follows Farina King s search for her own Din identity as she investigates the interconnections among Navajo students their people and Din Bik yah or Navajo lands across the twentieth century In her exploration of how historical changes in education have reshaped Din identity and community King draws on the insights of ethnohistory cultural history and Navajo language At the center of her study is the Din idea of the Four Directions in which each of the cardinal directions takes its meaning from a sacred mountain and its accompanying element East for instance is Sis Naajin Blanca Peak and white shell West Dook o oos d San Francisco Peaks and abalone North Dib Nitsaa Hesperus Peak and black jet South Tsoodzi Mount Taylor and turquoise King elaborates on the meanings and teachings of the mountains and directions throughout her book to illuminate how Navajos have embedded memories in landmarks to serve as a compass for their people a compass threatened by the dislocation and disconnection of Din students from their land communities and Navajo ways of learning Critical to this story is how inextricably Indigenous education and experience is intertwined with American dynamics of power and history As environmental catastrophes and struggles over resources sever the connections among peoplehood land and water King s book holds out hope that the teachings guidance and knowledge of an earth memory compass still have the power to bring the people and the earth together Resource Devastation on Native American Lands Bruce E. Johansen,2023-02-09 This book focuses on the toxic legacy of Native North America which is pervasive but largely invisible to most non Native peoples Many toxic sites are located in out of the way rural areas largely forgotten by the majority of America but which nonetheless have supplied its industries with the

rudiments of manufacturing for the better part of a century before being closed and cast aside. Thousands of contaminated sites exist in the United States due to dumped left out or otherwise improperly managed hazardous waste. These sites include manufacturing facilities, processing plants, landfills, and mining sites. Based on the 1980 Comprehensive Environmental Response Compensation and Liability Act (CERCLA), the US Environmental Protection Agency (EPA) cleans up these so-called Superfund sites, of which roughly 40 percent are located in Native country. The book links present-day Native American cultural and economic revival to a fundamental struggle to restore the health of both Native peoples and their homelands. It links past and present with a sense of Native Americans' perceptions of nature and the sacred land. By doing so, it also provides the majority society with an example to emulate as we emerge by necessity from the age of fossil fuels into a sustainable energy paradigm. This makes the book a must-read for students, scholars, and researchers of Native American studies, US politics, environmental studies, public policy, as well as policy makers interested in a better understanding of the environmental devastation of Native land and its consequences.

The Roots of Dependency Richard White, 1988-01-01

Richard White's study of the collapse into dependency of three Native American subsistence economies represents the best kind of interdisciplinary effort. Here, ideas and approaches from several fields—mainly anthropology, history, and ecology—are fruitfully combined in one inquiring mind, closely focused on a related set of large, salient problems. A very sophisticated study, a best read in Indian history. *American Historical Review*. The book is original, enlightening, and rewarding. It points the way to a holistic manner in which tribal histories and studies of Indian-white relations should be written in the future. It can be recommended to anyone interested in Indian affairs, particularly in the question of the present-day dependency plight of the tribes. Alvin M. Josephy Jr. *Western Historical Quarterly*. *The Roots of Dependency* is a model study. With a provocative thesis tightly argued, it is extensively researched and well written. The nonreductionist interdisciplinary approach provides insight heretofore beyond the range of traditional methodologies. To the historiography of the American Indian, this book is an important addition. W. David Baird. *American Indian Quarterly*. Richard White is a professor of history at the University of Washington. He is the winner of the Albert J. Beveridge Award of the American Historical Association, the James A. Rawley Prize presented by the Organization of American Historians, and the Francis Parkman Prize from the Society of American Historians. His books include *The Middle Ground*, *Indians, Empires, and Republics in the Great Lakes Region, 1650-1815*, *It's Your Misfortune and None of My Own: A History of the American West*, and *The Organic Machine: The Remaking of the Columbia River*.
