Baxter, 2001 This beautiful book examines the first century of Navajo and Pueblo metal jewelry making in the American Southwest Beginning in the late 1860s the region s native peoples learned metalworking and united it with a tradition of beads and ornaments made from turquoise and other natural materials The cross cultural appeal of this jewelry continued into the mid 1900s and by the 1950s and 1960s masters created a legacy of fine art jewelry that is prized today **American Indians of the Southwest** Bertha P. Dutton, 1983-03 More than providing a compendium of southwestern Indian history and culture this remarkable book gives the reader an understanding of and appreciation for the unique lifeways of these peoples whose philosophy the author believes may be our one great resource for peace **American Cowboy** ,2004-09 Published for devotees of the cowboy and the West American Cowboy covers all aspects of the Western lifestyle delivering the best in entertainment personalities travel rodeo action human interest art poetry fashion food horsemanship history and every other facet of Western culture With stunning photography and you are there reportage American Cowboy immerses readers in the cowboy life and the magic that is the great American West **Contemporary Southwestern Jewelry** Diana F. Pardue, 2007 Contemporary Southwestern Jewelry reveals the captivating history of the art of American Indian jewelry making uncovering the ancient techniques tools and materials that have made contemporary southwestern jewelry what it is today Revolutionists such as Hopi artist Charles Loloma Navajo silversmith Kenneth Begay Mexican Mission jeweler Preston Monongye and other jewelers began using varied materials and techniques traditionally unknown to the southwest Pardue has researched the history and contemporary forms of metalworking gems stone patterning and more plus has dedicated a portion of the book to emerging artists whose work is capturing attention today As you explore Contemporary Southwestern Jewelry s stunning photography let the art speak to you of how it came to be and what it represents echoing a similar message still told by traditional Native American jewelry Navajo Silver ,1973 Navajo Silversmiths Washington Matthews, Among the Navajo Indians there are many smiths who sometimes forge iron and brass but who work chiefly in silver When and how the art of working metals was introduced among them I have not been able to determine but there are many reasons for supposing that they have long

possessed it many believe that they are not indebted to the Europeans for it Doubtless the tools obtained from American and Mexican traders have influenced their art Old white residents of the Navajo country tell me that the art has improved greatly within their recollection that the ornaments made fifteen years ago do not compare favorably with those made at the present time and they attribute this change largely to the recent introduction of fine files and emery paper At the time of the Conquest the so called civilized tribes of Mexico had attained considerable skill in the working of metal and it has been inferred that in the same period the sedentary tribes of New Mexico also wrought at the forge From either of these sources the first smiths among the Navajos may have learned their trade but those who have seen the beautiful gold ornaments made by the rude Indians of British Columbia and Alaska many of whom are allied in language to the Navajos may doubt that the latter derived their art from a people higher in culture than themselves To Expand the Powers of the Indian Arts and Crafts Board United States.
