Working the Navajo Way Colleen O'Neill, 2005-10-20 The Dine have been a pastoral people for as long as they can remember but when livestock reductions in the New Deal era forced many into the labor market some scholars felt that Navajo culture would inevitably decline Although they lost a great deal with the waning of their sheep centered economy Colleen O'Neill argues that Navajo culture persisted O'Neill's book challenges the conventional notion that the introduction of market capitalism necessarily leads to the destruction of native cultural values She shows instead that contact with new markets provided the Navajos with ways to diversify their household based survival strategies Through adapting to new kinds of work Navajos actually participated in the reworking of modernity in their region weaving an alternate culturally specific history of capitalist development O'Neill chronicles a history of Navajo labor that illuminates how cultural practices and values influenced what it meant to work for wages or to produce commodities for the marketplace Through accounts of Navajo coal miners weavers and those who left the reservation in search of wage work she explores the tension between making a living the Navajo way and working elsewhere Focusing on the period between the 1930s and the early 1970s a time when Navajos saw a dramatic transformation of their economy O'Neill shows that Navajo cultural values were flexible enough to accommodate economic change She also examines the development of a Navajo working class after 1950 when corporate development of Navajo mineral resources created new sources of wage work and allowed former migrant workers to remain on the reservation Focusing on the household rather than the workplace O'Neill shows how the Navajo home serves as a site of cultural negotiation and a source for affirming identity Her depiction of weaving particularly demonstrates the role of women as cultural arbitrators providing mothers with cultural power that kept them at the center of what constituted Navajo ness Ultimately Working the Navajo Way offers a new way to think about Navajo history shows the essential resilience of Navajo lifeways and argues for a more dynamic understanding of Native American culture overall

Traders, Agents, and Weavers Robert S. McPherson, 2020-03-12 For travelers passing through northern Navajo country the desert landscape appears desolate The few remaining Navajo trading posts once famous for their bustling commerce seem unimpressive Yet a closer look at the economic and creative activity in this region which straddles northeastern Arizona northwestern New Mexico and southeastern Utah belies a far more interesting picture In Traders Agents and Weavers Robert S. McPherson unveils the fascinating and at times surprising history of the merging of cultures

and artistic innovation across this land McPherson the author of numerous books on Navajo and southwestern history narrates here the story of Navajo economic and cultural development through the testimonies of traders government agents tribal leaders and accomplished weavers For the first half of the twentieth century trading posts dominated the Navajo economy in northwestern New Mexico McPherson highlights the Two Grey Hills post and its sister posts Toadlena and Newcomb which encouraged excellence among weavers and sold high quality rugs and blankets Parallel to the success of the trading industry was the establishment of the Northern Navajo or Shiprock Agency and Boarding School The author explains the pivotal influence on the area of the agency's stern and controversial founder William T Shelton known by Navajos as Tall Leader Through cooperation with government agents American settlers and traders Navajo weavers not only succeeded financially but also developed their own artistic crafts Shunning the use of brightly dyed yarn and opting for the natural colors of sheep's wool these weavers primarily women developed an intricate style that has few rivals Eventually economic shifts including oil drilling and livestock reduction eroded the traditional Navajo way of life and led to the collapse of the trading post system Nonetheless as McPherson emphasizes Navajo weavers have maintained their distinctive style and method of production to this day

A New Deal for Navajo Weaving Jennifer McLerran, 2022-05-10 *A New Deal for Navajo Weaving* provides a detailed history of early to mid twentieth century Din weaving projects by non Natives who sought to improve the quality and marketability of Navajo weaving but in so doing failed to understand the cultural significance of weaving and its role in the lives of Din women By the 1920s the durability and market value of Din weavings had declined dramatically Indian welfare advocates established projects aimed at improving the materials and techniques Private efforts served as models for federal programs instituted by New Deal administrators Historian Jennifer McLerran details how federal officials developed programs such as the Southwest Range and Sheep Breeding Laboratory at Fort Wingate in New Mexico and the Navajo Arts and Crafts Guild Other federal efforts included the publication of Native natural dye recipes the publication of portfolios of weaving designs to guide artisans and the education of consumers through the exhibition of weavings aiding them in their purchases and cultivating an upscale market McLerran details how government officials sought to use these programs to bring the Din into the national economy instead these federal tactics were ineffective because they marginalized Navajo women and ignored the important role weaving plays in the resilience and endurance of wider Din culture

Patterns of Exchange Teresa Wilkins, 2008 The Navajo rugs and textiles that people admire and buy today are the result of many historical influences particularly the interaction between Navajo weavers and the traders who guided their production and controlled their sale John Lorenzo Hubbell and other late nineteenth century traders were convinced they knew which patterns and colors would appeal to Anglo American buyers and so they heavily encouraged those designs In *Patterns of Exchange* Teresa J Wilkins traces how the relationships between generations of Navajo weavers and traders affected Navajo weaving The Navajos valued their relationships with Hubbell and others who operated trading

posts on their reservation As a result they did not always see themselves as exploited victims of a capitalist system Rather because of Navajo cultural traditions of gift giving and helping others the artists slowly adapted some of the patterns and colors the traders requested into their own designs By the 1890s Hubbell and others commissioned paintings depicting particular weaving styles and encouraged Navajo weavers to copy them reinforcing public perceptions of traditional Navajo weaving Even the Navajos came to revere certain designs as the weaving of the ancestors Enhanced by numerous illustrations including eight color plates this volume traces the intricate play of cultural and economic pressures and personal relationships between artists and traders that guided Navajo weavers to produce textiles that are today emblems of the Native American Southwest Winner Multi cultural Subject New Mexico Book Awards
