Bunn, 2002 In this daring book the author proposes that artistic and literary forms can be understood as modulations of wave forms in the physical world By the phrase natural syntax he means that physical nature enters human communication literally by way of a transmitting wave frequency This premise addresses a central question about symbolism in this century How are our ideas symbolically related to physical reality The author outlines a theory of communication in which nature is not reached by reference to an object rather nature is part of the message known only tacitly as the wavy carrier of a sign or signal One doesn't refer to nature even though one might be aiming to one refers with nature as carrier vehicle The author demonstrates that a natural language of transmission has an inherent physical syntax of patterned wave forms which can also be described as certain laws of form a phrase used by D Arcy Thompson L L Whyte Noam Chomsky and Stephen Jay

Gould He describes a syntax inherent in natural languages that derives from the rhythmic form of a propelling wave Instead of the laws of a wave s form however the author speaks of its elements of rhythmic composition because rythmos means wave in Greek and because composition describes the creative process across the arts In pursuing a philosophy of rhythmic composition the author draws on cognitive science and semiotics But he chiefly employs symmetry theory to describe the forms of art and especially the patterns of poetry as structures built upon the natural syntax of wave forms Natural syntax it turns out follows a fascinating group of symmetry transformations that derive from wave forms

*Songs from the Loom* Monty Roessel, 2021-08-01. Jaclyn Roessel lives in Kayenta, Arizona, on the Navajo reservation. Like most young girls, Jaclyn has many interests. She likes her math class, she plays basketball and volleyball, and she loves inline skating. She is also interested in rug weaving, and she has asked her grandmother to teach her how to weave. For the Navajos, weaving is more than a craft or hobby; it is an important part of the culture and history of the Dine people. Jaclyn's grandmother has explained that she wants Jaclyn to learn not just the technique of weaving but the stories and songs that go along with it. These stories about Spider Woman and Changing Woman have been passed down from generation to generation. In *Songs from the Loom*, photographer and writer Monty Roessel accompanies Jaclyn and her grandmother as they shear sheep, gather plants to dye wool, and weave a rug. Navajo rugs are highly valued and hang in museums around the world. This book looks at what the beautiful rugs mean to the Navajos.
