History of United States Naval Operations in World War II. Volume II Samuel Eliot Morison, 1954 **History of Alaska , Volume II** Jonathan M. Nielson, Ph.D., 2018-03-01

The most significant military development to touch Alaska during the interwar years was the advent of air power an innovation that completely altered Alaska's strategic position Suddenly the world became smaller as areas once thought safely distant from potential enemies became vulnerable Nowhere was this more evident than in the Pacific whose countless islands became potential advanced air bases As air technology improved the ability of long range bombers and by the 1930s of carrier aircraft to penetrate American airspace was a development of far reaching significance While such warnings were largely limited to a handful of air power advocates their vocal advocacy constituted nothing less than an insurrection a revolution in military thinking fought against entrenched military conservatism cultural aversion to change fears of budget cuts and War Department lethargy Indeed it was the air power crusader General Billy Mitchell who aggressively fought to convince the War and Navy Departments to embrace the new doctrine of offensive air power Mitchell came to understand Alaska's strategic importance early on Consequently he saw the Aleutians as a vulnerability if left unguarded Japan could creep up and by establishing air dominance take Alaska and Canada's West Coast But he also saw Alaska as a strategic base from which American planes could reduce Tokyo to powder Prophetically in 1923 Mitchell forecast precisely the military threat and strategic arguments that would shape military thinking almost twenty years later I am thinking of Alaska In an air war if we were unprepared Japan could take it away from us first by dominating the sky and creeping up the Aleutians By the mid to late 1930s military and civilian advocates of air power and more visionary strategists were beginning to make their voices heard in Congress and elsewhere decrying Alaska's military vulnerability Between 1933 and 1944 no one was more adamant than Alaska's Delegate in Congress Anthony Joseph Tony Dimond who challenged the nation to defend itself by defending Alaska To Dimond it seemed poor strategy to fortify one Pacific base Hawaii while ignoring another Alaska Dimond's campaign was strengthened by passage of the Wilcox Bill sponsored by Representative J Mark Wilcox D Florida officially known as the National Air Defense Act This truly significant legislation authorized the location and construction of military airfields throughout the United States as a general defense preparedness measure Alaska was recognized as one of the nation's six strategic regions and two bases one at Anchorage the other at Fairbanks were recommended in part because Alaska was closer to Japan than it is to the center of the continental United States Fortunately for Alaska defense advocates General Douglas MacArthur stepped down as Chief of Staff of the Army and was replaced by Major General Malin Craig in October 1935 Craig and Brigadier General Stanley D Embick advocated a substantial reconfiguration of Plan Orange arguing that the Philippines presented an invitation to attack and should be neutralized in favor defending the Alaska Hawaii Panama Triangle Both the Army and Navy were charged with defending Alaska as far west as Dutch Harbor and the army pledged to mobilize 6 600 troops in Alaska within a month of

attack by Japan In contemplating the defense of Alaska the Army General Staff formulated five priority objectives first increase the Alaska garrison second establish a major base for Army operations near Anchorage third develop a network of air bases within Alaska fourth garrison these bases with combat troops and fifth protect the naval installations at Sitka Kodiak and Dutch Harbor Alaska was about to go to war

Maritime Strategy and Sea Denial Milan Vego, 2018-12-07 This book focuses on the theory and practice of maritime strategy and operations by the weaker powers at sea Illustrated by examples from naval and military history the book

explains and analyzes the strategies of the weaker side at sea in both peacetime and wartime in defense versus offense the main prerequisites for disputing control of the sea and the conceptual framework of disputing control of the sea It also explains and analyzes in some detail the main methods of disputing sea control avoiding seeking decisive encounters weakening enemy naval forces over time counter containment of enemy naval forces destroying the enemy s military economic potential at sea attacks on the enemy coast defense of the coast defense capturing important positions basing areas and defense capturing of a choke point A majority of the world s navies are currently of small or medium size In the case of a war with a much stronger opponent they would be strategically on the defensive and their main objective then would be to dispute control of the sea by a stronger side at sea This book provides a practical guide to such a strategy This book would be of much interest to students of naval power maritime security strategic studies and military naval history **Mariners**

United States began its campaign against numerous Japanese held islands in the Pacific Japanese tactics required them to develop new weapons and strategies One of the most crucial to the island assaults was a new group of amphibious gunboats that could deliver heavy fire close in to shore as American forces landed These gunboats were also to prove important in the interdiction of inter island barge traffic and late in the war the kamikaze threat Several variations of these gunboats were developed based on the troop carrying LCI L They included three conversions of the LCI L with various combinations of guns rockets and mortars and a fourth gunboat the LCS L based on the same hull but designed as a weapons platform from the beginning By the end of the war the amphibious gunboats had proven their worth **Reports of General MacArthur:**
