Naval Review 1996:

Air University Library Index to Military Periodicals, 1997 **Commanding Canadians** Michael Whitby, 2007-10-01
Commander A F C Layard RN wrote almost daily in his diary in bold neat script from the time he entered the Royal Navy as a cadet in 1913 until his retirement in 1947 The pivotal 1943-45 years of this edited volume offer an extraordinarily full and honest chronicle revealing Layard's preoccupations both with the daily details and with the strain and responsibility of wartime command at sea Enhanced by Michael Whitby's explanatory essays the diary sheds light on the inshore anti-submarine campaign in British waters discusses pivotal events such as the invasions of North Africa and Normandy and convoys to Russia describes encounters with important personalities and records the final surrender of German U boats It is a highly personal piece of history that greatly enhances our understanding of the Canadian naval experience and the Atlantic war as a whole A consummately well researched work **Commanding Canadians** will appeal to both naval scholars as well as to general readers interested in military history *United States Statutes at Large* United States, 1997 **Maritime Strategy and Continental Wars** Rear Admiral K. Raja Menon, 2013-12-19 Rear Admiral Raja Menon contends that nations embroiled in Continental wars have historically had poor maritime strategies He develops the argument that navies that have been involved in such wars have made poor contributions to political objectives and outlines future strategies *A Bibliography of the United States Navy and the Conflict in Southeast Asia, 1950-1975* Edward J. Marolda, James Leshner, 1991 Enables researchers to identify the most comprehensive books and articles on the Navy's overall involvement in the war in Southeast Asia Presents researchers only interested in specific subject areas with the fullest information on the sources treating those individual topics 20 subject categories emphasize naval combat operations and other significant aspects of the Navy's experience in the war Includes special category on Navy Women Over 1 500 items included with full bibliographic citation **Japan's Sea Lane Security** Euan Graham, 2005-11-16 This is the first major English language study to explore the broad and longstanding connections between Japan's national security and the safety of its sea lanes Tracing issues from pre and post 1945 eras the book explores how Japan's concerns with sea lane protection have developed across such diverse fields as military strategy diplomacy trade policy energy security and law enforcement Drawing upon case study material and primary research including interviews with officials and security analysts the book presents a chronological analysis of Japan's sea lane security While Japan's security policies have recently undergone relatively rapid change a historical treatment of sea lane security issues reveals long term continuity in security policymakers' perceptions and responses regarding Japan's defence and foreign policy Revealing a neglected but important aspect of Japan's military and economic security the book investigates why officials and analysts continue to portray the defence of Japan's sea lanes as a matter of life and death

The NCO Journal , Europe Anti-Power Michael Loriaux, 2016-06-10 The EU seeks to define a role for itself in power politics while remaining firm in its rejection of power politics In order to make power compatible with the European project

EU debate has appended a number of progressive adjectives to the word power adjectives like civilian and normative among others This book asks what is power such that it can be modified tamed and modulated by adjectives yet remain powerful Loriaux passes EU debate on power through the mill of phenomenological and post phenomenological analysis juxtaposing it against writings by Machiavelli Agamben Thucydides Nietzsche Patocka and Levinas The book locates power in power play the theatrical staged representation of threat that generates aesthetic effect and undecidability Power play endows the word power with perlocutionary force which the adjectives of EU qualified power actually enhance rather than moderate Loriaux argues that EU discourse on power therefore risks inviting EU exceptionalism or risks lapsing into an expression of EU resentment rather than advancing a new progressive understanding of power If European Union is to remain steadfast in its opposition to power politics it must represent itself as anti power This book will be of interest to those who work in the area of EU foreign policy as well as to those who have a more general theoretical interest in the concept of power
