Navigating Boundaries The Rhetoric Of:

Navigating Boundaries Brenda Marshall, Molly A. Mayhead, 2000-06-30 Marshall Mayhead and their contributors explore the discourse women use to negotiate political boundaries The analysis based on the study of five governors Nellie Tayloe Ross Martha Layne Collins Ann Richards Barbara Roberts and Christine Todd Whitman illustrates that women bring issues of caring empowerment family and inclusivity to the office These issues contrast sharply with traditional male centered ideologies and give renewed vigor to a revised moral point of view in contemporary politics The essays also demonstrate that women governors must still work within the traditional societal constructs for women Yet at the same time they need to create new paradigms that redefine women s roles and exemplify that woman s place is in the private sphere and the public political arena The work examines the common obstacles these women faced despite differences in era political affiliation geographic location and ideologies Simply by being elected each woman operated within a public private sphere duality she struggled to overcome Each woman recognized that she needed to craft appropriate rhetorical strategies to succeed in office while not abandoning the unique values and perspectives she brought to the statehouse The essays contend that women serving in the governorship resculpt the face of the office restructure the political landscape and redefine women s roles The volume will be of particular value to students and scholars dealing with issues of public address and rhetorical criticism women s communication political communication and women in politics

Women, Power, and Politics Lori Cox Han, Caroline Heldman, 2023-05-29 As women continue to gain more prominence as active participants in the American political and electoral process as voters candidates and officeholders it becomes even more important to understand how gender shapes political power and the distribution of resources within our society There are many areas of research in a variety of disciplines focusing on women gender and feminism and many of them intersect with a discussion of women in American politics Our goal in writing this book is to present these topics in an interesting lively and timely way through an analysis of contemporary political gender related issues We hope to have provided just enough of an historical context to get students interested in the evolution of women in American political life and enough theory and analysis to inspire them to seek more information and knowledge about gender justice today The study of women and U S politics as well as the role gender plays in the broader political context has emerged as a powerful voice within the discipline of Political Science in the last few decades As such we hope that readers find this text a useful addition to the ongoing dialogue while instructors find it to be a useful pedagogical tool for their courses on women gender and politics

Almost Madam President Nichola D. Gutgold, 2009-08-16 All around the world women are presidents and prime ministers yet in America we have yet to elect the first woman president When Barack Obama accepted the nomination as the Democratic candidate for president in 2008 the media were quick to point out that Hillary Clinton lost Yet Clinton won almost 18 million votes and was the first front runner woman candidate Almost Madam President Why Hillary Clinton Won in 2008 argues that Hillary Clinton gained more than she lost in her bid for the presidency This book takes the reader on a rhetorical journey through Hillary Clinton s 2008 presidential campaign focusing on Clinton s sophisticated You Tube style announcement speech the debates and the many notable stump speeches and media events on the campaign trail Along the way Gutgold examines the obstacles and

opportunities of women as presidential candidates **Governors Speak** Jack D. Fleer, 2007 Governors in the United States are becoming prime policy makers in state and national politics They preside over vast and increasingly important administrative structures through numerous appointments of key personnel and the management of growing budgets Governors provide leadership for state legislatures by advocating their policy agendas and by mobilizing public opinion and political resources Through these roles governors have far reaching influence in citizen s daily lives This work examines these major political leaders by closely examining the careers of five recent governors 1960D2001 Terry Sanford 1961D1965 Robert Bob W Scott 1969D1973 James E Jim Holshouser Jr 1973D1977 James G Jim Martin 1985D1993 James B Jim Hunt Jr 1977D1985 1993D2001 and compares their performances in office with governors in other states No other book has looked as closely at the persons who serve as governors during this time period **Governor Lady** Teva J. Scheer, 2005-12-14 Governor Lady is the fascinating story of one of the most famous political women of her generation Nellie Tayloe Ross was elected governor of Wyoming in 1924 just four years after American women won the vote and she went on to be nominated for U S vice president in 1928 named vice chairman of the Democratic National Committee the same year and appointed the first female director of the Mint in 1932 Ross launched her career when her husband William Bradford Ross the preceding governor died leaving her widowed with four sons and no means of supporting them She was an ironic choice to be such a pioneer in women s rights since she claimed her entire life that she had no interest in feminism Nevertheless she believed in equal opportunity and advancement in merit irrespective of gender core feminist values The dichotomy between Ross s career and life choices and her stated priorities of wife and mother is a critical contradiction making her an intriguing woman Exhaustively researched and powerfully written Governor Lady chronicles the challenges and barriers that a woman with no job experience higher education or training faced on the way to becoming a confident and effective public administrator In addition to the discrimination and resentment she faced from some of her male associates she also aroused the enmity of Eleanor Roosevelt whom she displaced at the DNC Born exactly one hundred years after the signing of the Declaration of Independence Ross lived to celebrate the nation s bicentennial so her long and remarkable life precisely spanned the second U S century She was reared in the Victorian era when upper and middle class women were expected to be domestic decorative and submissive but she died as the women s movement was creating a multitude of opportunities for young women of the 1970s Nellie s story will be of great interest to anyone curious about women s history and biography The contemporary American career woman will especially identify with Ross s struggle to balance her career family and active personal life **Stranger in a Strange State** Christopher J. Galdieri, 2019-05-01 Candidates normally run for office in the places where they live Occasionally however a politician will run as a carpetbagger someone who moves to a new state for the express purpose of running or who runs in one state after holding office in another Stranger in a Strange State examines what makes some politicians take this drastic step and how that shapes their campaigns and chances for victory Focusing on

races for the US Senate from 1964 forward Christopher J Galdieri analyzes the campaigns of nine carpetbaggers including nationally known figures such as Robert F Kennedy and Hillary Rodham Clinton and less well known candidates like Elizabeth Cheney and Scott Brown These case studies draw on archival research contemporaneous accounts of each campaign and scholarship on campaigns and representation While the record reveals that it generally takes national political stature for a carpetbagger to win an election some recent campaigns suggest that in today s polarized political era both politicians and state political parties might want to be more open to the prospect of carpetbagging

Women of Color Navigating Mentoring Relationships Sonja M. Brown Givens, Keisha Edwards Tassie, 2016-07-18 Women of Color Navigating Mentoring

Relationships explores and critically examines the opportunities and challenges presented in mentoring relationships involving women of color. While all mentoring relationships are unique to the individuals involved in them, this book highlights the roles of race, class, and gender-oriented constructions in the establishment, maintenance, and dissolution of specific mentoring relationships in which women of color are engaged. This edited collection argues that traditional notions of mentoring fail to account for intersectionality and power dynamics that can have profound effects on mentoring practices and that institutional best practices for mentoring do little to address the impact of constructions of otherness on the success or failure of mentoring relationships involving women of color. Recommended for scholars of communication studies, gender studies, race studies, and for scholars pursuing a career in academia. *The Routledge Handbook of Gender and Communication* Marnel Niles Goins, Joan Faber McAlister, Bryant Keith Alexander, 2020-11-29.
