Reconsidering Social

Identification Abdul R. JanMohamed, 2020-11-29 This volume investigates how four socially constructed identities race gender class and caste can be rethought as matrices designed to accumulate various kinds of socio economic values and to translate and transfer these values from one group to another Essays in the anthology also attempt to compare the mechanisms deployed by various groups to consolidate identificatory investments Drawn mainly for the fields of literary and cultural studies the essays are grouped in four categories Essays collected under Theoretical Approaches scrutinize the relative value of various approaches those collected under Considerations of Race Gender and Sexual Orientation examine the interaction between these three categories in formation of identities those grouped under Comparative Analysis of African American and Dalit Writing provide comparative analyses of the literary productions of these two oppressed groups and finally those under The Persistence of Racialized Perceptions focus on the role of ideologically inflected perception of European colonizers and the persistence of such perception in the categorization and treatment of colonial migrants to the metropolis

Status and Sacredness Murray Milner, 1994 Status and Sacredness provides a new theory of status and sacral relationships and a provocative reinterpretation of the Indian caste system and Hinduism Milner shows how in India and many other social contexts status is a key resource and that sacredness can be usefully understood as a special form of status By analyzing the nature of this resource Milner is able to provide powerful explanations of the key features of the social structure culture and religion He argues against the widely held view that the Indian caste system is best understood as a unique cultural development demonstrating that many of the seemingly exotic features are variations on themes common to other societies Milner's analysis is rooted in a new theoretical framework called resource structuralism that helps to clarify the nature and significance of power and symbolic capital The book thus provides a bold new analysis of India an innovative approach to the analysis of religion and an important contribution to social theory

Marriage Proposals Anita Bernstein, 2008-12 The essays in Marriage Proposals envision a variety of scenarios in which adults would continue to join themselves together seeking permanent companionship and sustenance linking sexual intimacy to a long commitment usually caring for each other and building new families What would disappear are the legal consequences associated with marriage No joint income tax return no immigration privileges like the fiancé visa or the right to bring in a husband or wife no special statuses for prison visits or hospital decisions no prerogative to remain silent in court by claiming confidential marital communications no pension entitlements no marital benefits and detriments regarding criminal or civil liability The anthology makes a unique contribution amid the two marriage furors of the day same sex marriage and the Bush Administration's marriage movement that marrying is good and more marriages would be better for society Abolishing the legal category of marriage is the only policy suggestion in current American discourse that speaks to both causes Activists on both sides of the same sex marriage fight along with marriage movement partisans all seek improvement through law reform Marriage
