NCAA executive director from 1951 to 1987 was charged with the dual mission of keeping intercollegiate sports clean while generating millions of dollars each year as income for the colleges. Here Byers exposes as only he can the history and present day state of college athletics: monetary gifts, questionable academic standards, advertising endorsements, legal battles, and the political manipulation of college presidents. Byers believes that modern day college sports are no longer a student activity; they are a high dollar commercial enterprise and college athletes should have the same access to the free market as their coaches and colleges. He favors no one as he cites individual cases of corruption in NCAA history. From Byers' first enforcement case against the University of Kentucky in 1952 to the NCAA's 1987 death penalty levied against Southern Methodist University of Dallas, he shows the change in the athletic environment from simple rules and personally responsible officials to convoluted, cyclopedic regulations with high priced legal firms defending college violators against a limited NCAA enforcement system. This book is a must for anyone involved in college sports: athletes, coaches, fans, college faculty, and administrators. As NCAA executive director, Byers started the enforcement program, pioneered a national academic rule for athletes, and signed more than fifty television contracts with ABC, CBS, NBC, ESPN, and Turner Broadcasting. He oversaw the growth of the NCAA basketball tournament to one that in 1988 grossed 68.2 million. As the one person who has been inside college athletics for forty years, Walter Byers is uniquely qualified to tell the story of the NCAA and today's exploitation of college athletes. There has been no other executive in the history of professional college or amateur sports who has had such an impact in his area. Keith Jackson, ABC Sports, says: "Walter Byers has done more to shape intercollegiate athletics than any single person in history. He brought a combination of leadership, insight, and integrity to intercollegiate athletics that we will never again see equaled." Bob Knight, Head Basketball Coach, Indiana University.

*African Americans in Sports* Gary A. Sailes, 2017-07-05. Research on African American athletes generally focuses on negative stereotypes of physical prowess and socially controversial themes. Most studies investigate racism, prejudice, discrimination, and exploitation experienced by African American athletes. Many studies contrast African American and white athletes on a number of variables that support prevailing elitist stereotypes and denigrate African American athletes. But few studies investigate the diverse and complex cultural dichotomies within the infrastructure of sport in the African American community. Gary Sailes maintains that it is crucial to develop a more eclectic and immersed cultural approach when investigating African American involvement in competitive sports. The contributors to *African Americans in*

Sports show that there are also intrinsic cultural paradigms that are evident presenting an informative and interesting narrative regarding African American athletes. The chapters that make up this volume were written by noted scholars who were selected based on their expertise in their specific academic areas. They write about different components of the experience of African American male athletes. Chapters and contributors include *Race and Athletic Performance: A Physiological Review* by David W. Hunter; *The Athletic Dominance of African Americans: Is There a Genetic Basis?* by Vinay Harpalani; *African American Player Codes on Celebration, Taunting, and Sportsmanlike Conduct* by Vernon L. Andrews; and *Stacking in Major League Baseball* by Earl Smith and C. Keith Harrison. Many chapters were originally published as a special issue of the *Journal of African American Men*.
