Near East The Great Powers:

The Great Powers and the Near East, 1774-1923 Matthew Smith Anderson, 1970 **The Making of the Modern Near East 1792-1923** Malcolm Yapp, 2014-01-09 This clear and authoritative text surveys the history of the region from the collapse of the Ottoman Empire to the present day It contains a general regional introduction followed by a series of country by country analyses and a section which places the Near East in the international context Professor Yapp's new edition covers recent dramatic events including the end of the Cold War the Kuwait Crisis of 1990-91 and the continuing conflict in Israel as well as assessing the huge social and economic changes in the region It will be essential reading for students and scholars concerned with modern middle eastern history and politics of the middle east **Unexceptional** Marc J. O'Reilly, 2008-04-07 Unexceptional America's Empire in the Persian Gulf 1941-2007 examines U.S. policy vis-à-vis the Persian Gulf since the Second World War It asserts that the American experience in this strategic yet volatile region known for its plentiful oil and gas can be best understood as an unexceptional imperial endeavor similar in kind to that of the British Ottoman and other empires in previous centuries Since 1941 the U.S. empire in the Gulf has achieved successes such as Operation Desert Storm and the invasion of Iraq Setbacks have included the Iranian Revolution and the ongoing occupation of Iraq Given these and many other events which this book spotlights America's Gulf empire has undergone repeated expansion and contraction a typical imperial pattern The result has been a cycle of waxing and waning U.S. influence in a critical region of the world Until its occupation of Iraq the United States practiced informal empire in the Gulf rather than colonialism Currently however the formal empire established by the United States in Iraq jeopardizes the overall American position in the Gulf which seemed unassailable in early 2003 The Foreign Policies of Middle East States Raymond A. Hinnebusch, Anoushiravan Ehteshami, 2002 Preface p vii 1 Introduction The Analytical Framework Raymond Hinnebusch p 1 2 The Middle East Regional System Raymond Hinnebusch p 29 3 The Impact of the International System on the Middle East B. Yegorova, 1996 A Comparative Historical and Typological Approach to the Middle Eastern State System Lars Mjøset, Nils Butenschøn, Kristian Berg Harpviken, 2024-04-19 Showcasing the legacy of Norwegian political scientist and sociologist Stein Rokkan this volume ushers in a new vision in the

field of state formation and nation building **Fateful Years, 1909-1916** Sergei Dmitrievich Sazonov, 1928 **The Empire of Security and the Safety of the People** William Bain, 2006-09-27 This is an accessible new examination of what security means today contextualizing the term amongst other key ideas such as the nation state diplomacy war and autonomy By exploring the many differing conceptions of security this study clearly explains how the idea of security in world affairs can be understood in relation to other ideas and points of view It shows how when standing alone the word security is meaningless or just an empty term when divorced from other ideas distinctive to international life This essential new volume tackles the key questions in the debate what norms of sovereignty relate to security does security necessarily follow from the recognition of identity what sort of obligations in respect of security attach to power how far can a political arrangement of empire remedy human insecurity can trusteeship provide security in a world of legally equal sovereign states is security the guarantor of freedom This book is an excellent resource for students and scholars of security studies and politics and international relations **Making Minorities History** Matthew James Frank, 2017 Making Minorities History examines the various attempts made by European states over the course of the first half of the twentieth century under the umbrella of international law and in the name of international peace and reconciliation to rid the Continent of its ethnographic misfits and problem populations It is principally a study of the concept of population transfer the idea that in order to construct stable and homogeneous nation states and a peaceful international order out of them national minorities could be relocated en masse in an orderly way with minimal economic and political disruption as long as there was sufficient planning bureaucratic oversight and international support in place Tracing the rise and fall of the concept from its emergence in the late 1890s through its 1940s zenith and its geopolitical and historiographical afterlife during the Cold War Making Minorities History explores the historical context and intellectual milieu in which population transfer developed from being initially regarded as a marginal idea propagated by a handful of political fantasists and extreme nationalists into an acceptable and a progressive instrument of state policy as amenable to bourgeois democracies and Nobel Peace Prize winners as it was to authoritarian regimes and fascist dictators In addition to examining the planning and implementation of population transfers and in particular the diplomatic negotiations surrounding them Making Minorities History looks at a selection of different proposals for the resettlement of minorities that came from individuals organizations and states during this era of population transfer **The History of Phoenicia** Josette Elayi, 2018-05-15 The history of the Phoenicians explorers and merchants is little known What a paradox for this ingenious people who invented the alphabet to have left so few written traces of their existence Their literature recorded on papyrus has disappeared And yet this civilization fired the imagination of its contemporaries the Jews in particular inspiring terror among the Romans and Greeks who depicted them as a cruel people who practiced human sacrifice Their clients were the pharaohs and the Assyrians their ships criss crossed the Mediterranean laden with the luxuries of the day such as wine oil grain and mineral ore Buried beneath the modern cities of Lebanon and a

few of Syria and Israel ancient Phoenicia has resuscitated in this volume [Calendar](#) London School of Economics and Political Science,1923 [Library of Congress Subject Headings](#) Library of Congress,Library of Congress. Office for Subject Cataloging Policy,2004 **Mapping the End of Empire** Aiyaz Husain,2014-04-14 By 1945 Washington and London envisioned a new era in which the U S shouldered global responsibilities while Britain focused its regional interests narrowly Mapping the End of Empire reveals how Anglo American perceptions of geography and perspectives on the Muslim world shaped postcolonial futures from the Middle East to South Asia **Troubled Waters** Mehran Kamrava,2018-05-15 This text examines the causes and consequences of each of those dynamics both individually and collectively that have made this small waterway and its surrounding areas one of the most volatile and tension filled regions in the world This pervasive insecurity the book argues is largely a product of four interrelated developments **Foreign Relations of the United States, 1949: The Near East, South Asia, Africa** ,1976 *The Multidimensionality of Regions in World Politics* Paul J. Kohlenberg,Nadine Godehardt,2020-09-02 This book examines what counts regarding the role and conceptualization of regions in world politics It presents a fresh look at which narratives awake persist fall dormant or re emerge amidst diverse interlocking processes of environmental technological and global political changes It puts forward a thorough and multidimensional conceptualization of regions as embedded in changing overlapping environments and requires more attention to regions shifting materiality temporality and technological underpinnings Combing the approaches questions and analyses of Critical IR and Political Geography it calls for a renewed emphasis on the puzzle of how the contextual environment of regions may become more or less multidimensional or how some aspects of a region s contextual environment may be mutually constitutive in non intuitive ways Ultimately it sheds light on the politics of regions and the regional scale in international politics in order to overcome the often underlying territorial fixity of territory and space within IR approaches This book will be of key interest to scholars and students of international relations international political sociology political geography regionalism geopolitics and area studies *Public Affairs Information Service Bulletin* ,1925 **Bulletin of the Public Affairs Information Service** Public Affairs Information Service,1925 [Australia's Defence Strategy](#) Adam Lockyer,2017-01-30 How would we know a good defence strategy if we saw one The Asian Century is challenging many of the traditional assumptions at the heart of Australian defence policy and strategy Defence scholars have risen to the challenge of these transformational times and have collectively produced a smorgasbord of alternatives for policy makers The problem is that these recommendations all point in very different directions How should we evaluate these options Adam Lockyer tackles this question and develops a novel conceptual framework for evaluating defence strategies By doing so this book breaks new theoretical ground and makes an important contribution to our understanding of strategy in general and defence strategy in particular Lockyer then applies this analytical tool to the leading arguments in Australia s defence debate and finds that there is still substantial work to be done Lockyer concludes by proposing a new Australian defence strategy for a

contested Asia that would pass the test for a good defence strategy The result is essential reading for anyone interested in strategy or the future of Australian defence policy Conflict and War in the Middle East Bassam Tibi, 1998-09-28 Few studies of Middle East wars go beyond a narrative of events and most tend to impose on this subject the rigid scheme of superpower competition The Gulf War of 1991 however challenges this view of the Middle East as an extension of the global conflict The failure of the accord of both superpowers to avoid war even once regional superpower competition in the Middle East had ceased must give rise to the question Do regional conflicts have their own dynamic Working from this assumption the book examines local regional constraints of Middle East conflict and how through escalation and the involvement of extra regional powers such conflicts acquire an international dimension The theory of a regional subsystem is employed as a framework for conceptualising this interplay between regional and international factors in Tibi s examination of the Middle East wars in the period 1967 91 Tibi also provides an outlook into the future of conflict in the Middle East in the aftermath of the most recent Gulf War
